THE Board beg to submit their report on the operations of the Local Funds constituted under Act IV of 1871 for 1879-80 with the usual statements marginally noted.

No. 1.—Statement showing the Actual Receipts of the Local Fund.
No. 2.—Statement showing the Actual Expenditure of the Local Fund.
No. 3.—Statement showing the Actual Receipts and Expenditure of the Road Fund.
No. 4.—Statement showing the progress of all important new roads.
No. 5.—Statement showing the Actual Receipts and Expenditure of the Endowment Fund.
No. 6.—Statement showing the Actual Receipts and Expenditure of the General Fund.

2. The Board note that Circle reports for the year have all been reviewed by them and submitted to Government.

3. In accordance with the instructions contained in G.O., Financial Department, dated 13th July 1876, No. 1,238, the Board have adopted in the report the unaudited figures of the Presidents, reserving the audited results of the year's transactions to be shown as a prescript in the report of 1880-81.

4. CHANGES IN THE YEAR.—In consequence of the insufficiency of funds to meet the demands of the Tinnevelly District, the Local Fund Boards of the two Circles of the district proposed to raise the rate of Land Cess from nine pies to one anna in every rupee of assessment from 1st April 1879. The proposal was sanctioned by Government, but was not introduced until 1st July 1879, the commencement of the fasli year.

Vide G.O., Financial Department, dated 29th April 1878, No. 763.

In their Order, Public Works Department, dated 25th September 1879, No. 2,428-W, the Government notified that, in consequence of the considerable reductions in establishments, the Department of Public Works would not have sufficient staff to carry out the execution of work on account of Local Fund Boards, and directed Superintending Engineers, in communication with Presidents of Local Fund Boards, to make

the necessary arrangements for the transfer of Local Fund works in each Circle to "Other Agency" from 1st January 1880 and to report upon the measures agreed to for the orders of Government.

With the exception of the Trichinopoly Local Fund Board, all others have agreed to take up Local Fund works and proposed schemes of separate Local Fund Engineering Establishments which were duly sanctioned by Government. In the Trichinopoly Circle, as the Public Works Department was in a position to continue the supervision of Local Fund works they were allowed to remain in their charge.

G.O., Financial Department, dated 24th January 1880, No. 187.

The Local Fund Boards of the two Circles of the Tanjore District have, in consultation with the Superintending Engineer, agreed to allow the retention in charge of the Public Works Department of the maintenance, &c., of the roads running along river embankments.

G.O., Financial Department, dated 5th January 1880, No. 23.
G.O., Financial Department, dated 3rd August 1880, No. 1,501.

In Kurnool the Local Fund Board agreed to the Public Works Department having charge of the main roads in the district, the remaining less important roads being transferred to "Other Agency."

In consequence of these changes in the agencies for the execution of Local Fund works Government directed (G.O., Financial Department, dated 22nd March 1880, No. 609) that the audit of Local Fund Accounts should be performed by the Accountant-General with the aid of a separate Audit establishment under the immediate charge of an Auditor and Inspector of Local Fund Accounts. This change in the system of audit of Local Fund Accounts was to have effect from 1st April 1880.

In their Order, dated 30th September 1879, No. 1,453, Financial Department, Government directed that Provincial Funds should be relieved of all charges for printing, which are properly debitable to other Funds, and that the actual cost of printing Local Fund papers should be recovered from these Funds rateably in the form of a percentage contribution on income.

6. The total receipts of the year including the opening balance of Rs. 20,10,597 amounted to Rs. 76,79,734, or Rs. 16,43,564 over the estimate, the large increase being chiefly due to the year having opened with a more favorable balance than had been anticipated, owing, as has already been explained in the Board's reviews on the Circle reports, to short expenditure in the previous year and to the Land-cess collections having exceeded the estimate for reasons stated further on. Excluding balances, Public Works Receipts and Refunds of expenditure and the Provincial grants for Roads, &c., the actual receipts were Rs. 54,77,442 against Rs. 52,77,347, the actuals of the previous year, and Rs. 50,80,290, the estimate of the year. The expenditure amounted to Rs. 42,07,538, leaving a balance at the close of the year of Rs. 34,72,196, as shown below :—

7. Provincial Grant for Roads.—The total Provincial grant for roads credited in the accounts of the year amounted to Rs. 65,387 against Rs. 61,020 provided for in the Budget, as detailed in the margin. The difference is made up of Rs. 1,950 sanctioned* from Provincial Funds subsequent to the passing of the Budget for the repair of the Kullar Bridge in the Coimbatore Circle, and of Rs. 2,417, the special grant sanctioned for improving the road from the tank at Devasholah down to Kartari Saddle in the Nílgiris.

	Rs.
Bellary	1,280
Canara	1,500
Tellicherry	1,890
Total ...	4,670

8. Provincial Grant for Schools.—The grant for schools is the same as that allowed in the Budget, viz., Rs. 4,670; but it fell far short of the actuals of 1878-79, as Government have disallowed the grants provided for in the Budgets of the other Circles.

9. Provincial Grant for General Purposes.—The grant for General Purposes is that allowed in the Budget of the Nílgiris.

10. Surplus Pound Fund.—The total amount credited under this head on account of the surplus collections of the Pound Fund transferred to Local Funds amounted to Rs. 41,818 against an estimate of Rs. 60,770 and Rs. 57,414, the actuals of 1878-79. The decrease was due chiefly to the collections from cattle-trespass fines having been small owing to less number of cattle impounded during the year. In the Penukonda, Saidápet, and Chingleput Circles the decrease is attributed to the receipts from cattle-trespass fines having been over-estimated. The falling off in North Arcot is stated to be due to the great mortality among cattle in the Vellore Circle and to abundance of pasture in the Chittoor Circle. The amount credited under this head in the accounts of the Tellicherry Circle does not represent the total amount transferable to Local Funds in consequence of the audited figures not having been received in time for insertion in the accounts submitted with the report.

11. Ferry Rents.—The receipts from Ferry Rents amounted to Rs. 1,06,012 against an estimate of Rs. 1,02,160 and the actuals of the previous year, Rs. 1,09,126. The amount does not, however, represent the total actual receipts of the year as, under a misapprehension of the instructions issued by the Accountant-General requiring Collectors to exhibit the receipts from tolls and ferries in the first instance under Public Works Department in the Treasury accounts furnished to that officer for eventual transfer to Local Funds after the close of each year, the Presidents of the marginally-noted Circles omitted to show the receipts from this source in the accounts submitted with their reports, alleging that the Examiner of Public Works Accounts did not communicate to them the amounts to be credited to Local Funds on this account. In their reviews on the reports concerned the Board have pointed out that the instructions issued to them applied only to the Treasury accounts and not to those submitted to the Board for purely administrative purposes. Compared with the estimate the receipts show a net increase of Rs. 3,852, which resulted from a gross increase of Rs. 14,348 in eight Circles against a gross decrease of Rs. 10,496 in eleven Circles. The increases are important in the Calicut and Tellicherry Circles, and are attributed to the fact that the prices bid at auction sales of ferries were higher than was anticipated, owing to their rearrangement in consequence of the introduction of Act I of 1870 in the Malabar District from 1st April 1879.

Chatrapur.	Guntúr.
Chicacole.	Vriddháchalam.
Masulipatam.	Coimbatore.

G.O., Revenue Department, dated 6th February 1879, No. 311.

The decrease is principally due to the ferry rents in the Guntúr, Vriddháchalam, and Coimbatore Circles having been omitted to be credited in the annual Local Fund accounts furnished with the reports for reasons stated above and to only a small portion of the rent realized shown in the Chicacole Circle pending adjustment on receipt of further advices from the Examiner of Public Works Accounts. The falling off in the receipts in Canara is ascribed to small income as only the surplus collections have been credited to Local Funds.

12. Avenues.—The yield from Avenues was Rs. 14,026 in excess of the estimate and Rs. 9,081 more than the actuals of the previous year. The increase was principally due to the more systematic management of avenues, the improved state of the season, and the prompt collection of the rents (arrears and current). In Cocanada the large amount collected by the sale-proceeds of trees blown down during the last cyclones contributed to the increase. In Bellary the increase was due to the cutting and sale of large trees by the Public Works Department as obstructing the roads, and in Madanapalle to the tamarind crop having been specially good.

13. Fish Rents.—The amount realized from Fisheries amounted to Rs. 1,01,536, or Rs. 10,436 more than the estimate and Rs. 15,612 in excess of the actuals of 1878-79. The large increase is due chiefly to the improved state of the season and to the collection of arrears of previous years. In the Cuddalore and Vriddháchalam Circles the fishing operations were carried on to a large extent in the latter part of the year as the tanks in them became dry. The excess over estimate in the Tanjore Circle is attributed to the collection of arrears and to the amount of deposits made by renters having been credited to this head. The latter procedure is objectionable as these amounts are not *bonâ fide* receipts and cannot therefore be reckoned as part of the assets of Local Funds. They are only held as security by the Local Fund Board for the punctual payment of the rent and should therefore be shown under "Miscellaneous Debt Accounts" instead of under "Fish Rents."

14. Grass Rents.—The revenue from this source amounted to Rs. 188 against Rs. 50, the estimate of the year, and Rs. 147, the actuals of the preceding year. The receipts exceeded the estimate as they include small sums credited under this head in the five Circles noted in the margin, while in the estimate Rs. 50 were expected from the Chittoor Circle only.

Chittoor.	Dindigul.
Vellore.	Salem.
Trichinopoly.	

15. Road Cess.—Rs. 652 were collected during the year from the outstanding arrears of Road Cess under the repealed Act III of 1866. This amount is made up of small sums realized in twelve Circles in which it was possible to collect the arrears. In view to expunge the item altogether from the accounts the Board have lately issued final instructions to all Collectors to the effect that if the outstanding arrears cannot be realized within Fasli 1290 the amounts involved should be struck off the accounts.

16. Land Cess.—The income from Land Cess amounted to Rs. 43,71,643 against Rs. 40,64,090, the estimate of the year, and Rs. 39,68,381, the actuals of the preceding year. The total collections of the year show a net increase of Rs. 3,07,553 over the estimate, which resulted from a gross increase of Rs. 4,50,637 in nineteen Circles against a gross decrease of Rs. 1,43,084 in fifteen Circles. The increase is attributable to the realization of a large portion of the outstanding arrears which accumulated during the late famine and to the prompt collection of the current demand. The decrease was due—

(*a.*) To the great difficulty experienced in the collection of outstanding arrears in some Circles.

(*b.*) To a larger amount than was expected having been found irrecoverable and to the reduced demand in Fasli 1289 owing to contraction of holdings consequent on famine and sales for arrears in Salem.

(*c.*) To the large collections added to the land revenue demand in 1878-79, which considerably crippled the ryots' resources, and to the failure of all dry crops to a disastrous extent in 1879-80 in Coimbatore.

(*d.*) In Tinnevelly and Shermádevi the increased rate of cess at one anna in the rupee of assessment having been introduced from the fasli year instead of the official year as provided for in the Budget Estimate.

17. The following statement shows the demand, collection, and balance (arrears and current) of Land Cess :—

From the above it will be seen that out of a total demand (arrears and current) of Rs. 59,74,293, Rs. 43,72,295, or 73·1 per cent., was collected, leaving a balance of Rs. 15,83,602 uncollected at the close of the year, exclusive of the sum of Rs. 18,396 remitted as irrecoverable. Of the total demand of Rs. 59,74,293, Rs. 19,89,396 belonged to arrears and Rs. 39,84,897 to current. Out of the former Rs. 14,78,687, or 74·3 per cent., and of the latter Rs. 28,93,608, or 72·3 per cent., were realized. The collections, on the whole, show a steady advance over those of the previous year. This result may be attributed to the prompt realization of the arrears as well as of the current dues. The gradual progress observable in the amount credited to arrears of previous years in preference to the current demand is in conformity with the orders of Government on the subject, and there is no doubt that a rigid observance of the rule will soon reduce the still uncollected bulk of the arrears.

18. Tolls.—The income from Tolls credited in the accounts aggregated Rs. 3,36,177 against an estimate of Rs. 3,76,530 and the actuals of Rs. 3,50,449. The total receipts given above do not represent the actual amount realized during the year, as in some circles only a portion of the actual collections was included, the Examiner of Public Works Accounts having, it is stated, omitted to communicate the total amounts to the Presidents concerned. The plea urged is not acceptable, as the Presidents had the information at hand and should have furnished it. In their reviews on the Circle reports the Board have pointed out that the instructions issued by the Accountant-General were intended to apply to the Local Fund Treasury Accounts furnished to him and not to the monthly and annual accounts submitted to the Board. Of the total receipts (Rs. 3,36,177), Rs. 2,58,057 were derived from tolls under the immediate management of the several Local Fund Boards, and the remainder Rs. 78,120 was the Local Fund share of the tolls collected by the several Municipalities.

19. Compared with the previous year the receipts show a falling off owing mainly to the omission to take credit in the accounts for the entire income from the source in some and portions in the other circles named in the margin. The amounts thus left out of account will be shown in the prescript to be submitted with the Local Fund report of 1880-81. Besides these there were decreases in other circles, which were due to the following causes :—

Chatrapur.	Dindigul.
Guntúr.	Coimbatore.
Vriddháchalam.	Nílgiris.
Madura.	Tinnevelly.

First.—To the systematic evasion of tolls by bandymen in some circles.

Second.—To the reduction of traffic on the roads in some circles consequent on the opening of the South Indian Railway.

Third.—To the full amount of Municipal contributions on account of tolls not having been paid within the year.

Fourth.—To smaller amounts having been realized from the gates leased out and those under the direct management of the Salem Local Fund Board than had been anticipated.

20. The subjoined statement shows the number of toll-gates which existed at the close of 1878-79 and the new gates established during the year :—

21. There were 121 gates at the commencement of the year, four toll-gates were newly opened during the year, making in all 125 toll-gates at the close of the year.

22. School Fees.—Rs. 22,868 were realized in the shape of fees from school-boys against an estimate of Rs. 26,050 and the actuals of Rs. 20,480 in 1878-79. The decrease compared with the estimate is due to some of the schools provided for in the Budget not having been opened at all during the year and to others having been opened late in the year, to the temporary closing of some schools for want of qualified teachers and the irregular attendance of pupils which affected the income, to the schools in the Vellore Circle, the teachers of which were sent to the Normal School for training, having been temporarily closed. The increase over the actuals of the previous year was owing to the punctual payments into the Treasury by the schoolmasters of all the fees, to the opening of new schools in some circles, and to the larger amount of fees collected owing to increased strength.

23. Contributions from Municipalities.—Rs. 16,256 were received from the several Municipalities during the year for the undermentioned purposes :—

	Rs.
Roads	9,990
Educational Inspection	3,963
Dispensaries	973
Vaccination	207
Othe r purposes	1,123
Total ...	16,256

24. Hospitals and Dispensaries.—The receipts on account of Hospitals and Dispensaries aggregated Rs. 19,709, or Rs. 619 more than the estimate and Rs. 6,522 less than the actuals of 1878-79. The trifling increase over the estimate calls for no remark, while the bulk of the decrease below the actuals occurs in the Chingleput and Negapatam Circles and is attributable in the former circle to the fact that in 1878-79 a large sum was paid by the South Indian Railway as compensation for land and buildings taken up by them within the compound of the Chingleput Dispensary and to the recovery from famine funds of the excess charge incurred for dieting famine patients, and in the latter to a portion of the interest on the Government Promissory Notes of the endowed dispensaries of the circle due for 1879-80 having been paid in 1878-79.

25. Choultries.—The income from the Choultries under the direct management of the several Local Fund Boards, viz., Rs. 2,91,585, exceeded the estimate by Rs. 74,355, but fell short of the actuals of 1878-79 by Rs. 52,430. The excess over the estimate, chiefly large in the Tanjore Circle, is attributed to the high prices at which grain-rents were commuted, to the transfer of funds from one taluk to another, and to the credit of deposits made by renters and of process service fees, while the decrease below the actuals is ascribed to the reduced prices at which paddy was sold and to a small amount of arrears having been collected during the year.

26. Travellers' Bungalows.—The fees realized from Bungalows amounted to Rs. 8,232 against Rs. 8,100, the estimate, and Rs. 9,317, the actuals, of the previous year. The falling off in the income as compared with the actuals is due to a smaller number of travellers having halted in them than in 1878-79. In Ellore the decrease is stated to travellers not having halted at the bungalows in consequence of the canal communication being open throughout the circle.

27. Sale-proceeds of Books.—The sale-proceeds of Books amounted to Rs. 11,278, being Rs. 2,642 less than the estimate and Rs. 2,108 more than the actuals of 1878-79. The decrease below the estimate was caused by "smaller sales in consequence of less demand for books." In Saidápet it is attributed to want of energy on the part of the Inspecting Schoolmasters, while in Vriddháchalam to the bad working of the Book depôts. The increase over actuals, which is large in the Calicut Circle, was owing to larger sale of books than in the preceding year.

28. Market Rents.—During the year under report the market fee system was introduced for the first time in the Cuddapah Circle in addition to those in which it was in existence in the previous year. The total income from this source amounted to Rs. 29,288 against Rs. 18,510, the estimate, and Rs. 26,519, the actuals, of 1878-79. The bulk of the increase in both cases occurs in the Coimbatore Circle, where the system is largely in force, and was due to the punctual payment of market rents as well as to the extension of the fee system to six new markets. It was also partly due to receipts from this source from the Cuddapah Circle.

29. Public Works Receipts and Refunds of Expenditure.—The amount shown under this head is Rs. 1,19,198 against Rs. 20,53,186 in the previous year. The Public Works Receipts are not distinguishable as they are not generally shown separately from Refunds. It is said that the latter item comprises the sums credited to this head under advices from the Examiner of Public Works Accounts. This explanation is not at all satisfactory. Presidents should give the particulars of the amounts and state clearly whether they are nominal entries brought on the Credit side for the purpose of adjustment. In Chittoor, however, the amount is said to be the expenditure of the previous year erroneously debited by the Examiner of Public Works Accounts to this circle instead of to Vellore and adjusted during the year to the credit of the former and debit of the latter circle.

30. Expenditure—*Statement No.* 2.—The total expenditure of the year amounted to Rs. 42,07,538, and may be classified thus—

31. The transactions of the year resulted in deficit in the Nílgiri Circle, which was brought about by the repayment to Provincial Funds of the loan to wipe off the deficit at the close of 1878-79. It may also be attributed to the figures of the report, which are unaudited, not including credits on account of Provincial grants made in the accounts of the year subsequent to the submission of the report.

32. Road Fund—*Statement No.* 3.—The following statement shows the receipts and charges of the Road Fund compared with those of the previous year:—

Total ..	48,17,193	56,45,230	Grand Total ..	48,17,193	56,45,230

The total assets of the Fund amounted to Rs. 48,17,193 and the expenditure to Rs. 26,52,568, leaving a balance of Rs. 21,64,625 in favor of the Fund at the close of the year. The large decrease in the receipts as compared with those of the previous year is due chiefly to the smaller amount credited in the year under Public Works Receipts and Refunds of Expenditure while that in the expenditure may be attributed to the short outlay by the Public Works Department, who had to stop all works earlier in order to close their accounts and make over the works to the Local Fund Boards, and to the fact that some time was lost in organizing separate Local Fund Engineering Establishments.

33. The Municipal contributions are—

	Rs.
From the Vellore Municipality for the restoration of the Pálár Bridge.	4,000
From the Pálghat Municipality for roads	5,990
Total ...	9,990

34. The allotments sanctioned from the Road Fund and expenditure incurred therefrom during the year were—

From the above it will be seen that the expenditure fell short of the estimate, owing, as had already been stated, to the stoppage of works by the Public Works Department earlier this year to enable them to close their accounts and make over the works to the Local Fund Boards.

35. The following statement shows the expenditure on Road works compared with the allotments sanctioned for them and the percentage which the former bore to the latter :—

The total expenditure on Public Works by both agencies was below the allotment, although in some circles the outlay by Other Agency exceeded the sanctioned estimate owing principally to the expenditure incurred by the Civil Department on works transferred by the Public Works Department.

36. *Statement No.* 4.—This statement contains all the important new road works on which expenditure was incurred during the year and the progress made in the case of each work.

37. The total number of miles of road in existence in the 34 circles was 19,746, of which 17,129 were maintained and 107 completed and 358 in progress as detailed in the subjoined statement:—

Compared with the previous year there is an increase in the total mileage of roads in existence and the number maintained, and a decrease in the number completed and in progress during the year.

The condition of the roads generally is stated to have been satisfactory, good or fair, but in no less than seven circles, it is said that roads were either in an unsatisfactory or deplorable condition. In Salem, it is stated that the condition of the 142½ miles of famine roads taken up by the Local Fund Board during 1878-79 and 1879-80 and provided with maintenance grants was not very satisfactory while the general state of the other communications has been much improved during the year. The roads inthe Saidápet Circle are said to be in a worse condition than last year. The President states that the expenditure incurred on the roads does not seem to have been actually spent upon them, and consequently none of the communications are in anything like good order.

38. The following statement shows the number of miles of village roads newly formed and repaired during the year and the cost incurred on their account. The information with regard to the outlay incurred in each taluk has not been furnished in

all cases. Presidents are requested to see that this omission is supplied in their reports for 1880-81 :—

Out of the total cost of constructing and repairing village roads, viz., Rs. 80,128, 74 miles of village roads were newly made at a cost of Rs. 13,494 and nearly 1,301 miles were kept in repair at a cost of Rs. 66,630 against 61 miles of new roads and 684 miles of old road repaired at a cost of Rs. 28,198 in the previous year.

39. The charges on account of establishment were as follow :—

	Rs.
Public Works Department Supervision	4,24,855
Petty Establishment	21,422
Tolls and Ferry Establishment	11,705
Other Establishment	982
Total ...	4,58,964

The total cost of Public Works Department Supervision shown above, viz., Rs. 4,24,855, is debited to—

	Rs.
Road Fund	4,11,261
Endowment Fund	578
General Fund	13,016
Total ...	4,24,855

The sum of Rs. 21,422 shown above as cost of Petty Establishment includes the pay, &c., of the Petty Establishments attached to the Local Fund Engineering Establishments entertained during the year. The sum of Rs. 982 is the cost of the traffic establishments at Vizagapatam and the Avenue Supervising staff in the Tinnevelly Circle.

40. The debit on account of Tools and Plant was Rs. 41,051 distributed as hereunder :—

	Rs.
Road Fund	39,700
Endowment Fund	43
General Fund	1,308
Total ...	41,051

41. The transactions of the Road Fund closed with deficits in the three circles of Gooty, Coimbatore and Nílgiris. The cause of the deficit in the Nílgiris has already been explained. Those in the Gooty and Coimbatore Circles were due to the year having opened without any balance in the former and smaller balance than had been anticipated in the latter and to shorter receipts in both Circles.

42. Endowment Fund—*Statement No.* 5.—This fund embraces the transactions of the Endowed Charitable Institutions made over to the Local Fund Boards, of the Petrus Uscan's Charity Fund in the Saidápet Circle, and the Surplus Pagoda Fund, the Price Vaccination Fund and the Toppur Chattram Fund in the Salem District.

43. The following statement shows the receipts and charges of the fund compared with those of the previous year :—

Grand Total ..	5,58,342	5,12,211	Grand Total ..	5,58,342	5,12,211

44. The fund started with a balance at credit of Rs. 2,19,590 and the receipts of the year, including an appropriation of Rs. 30,685 from the General Fund, amounted to Rs. 3,69,437, making a total of Rs. 5,89,027. The expenditure amounted to Rs. 2,99,614, leaving a balance of Rs. 2,89,413. The year's transactions closed with deficits in the Vellore, Tinnevelly and Hosúr Circles. The deficits in the Vellore and Hosúr Circles were small and require no special remark. In the Tinnevelly Circle the deficit was due to the year having opened with a larger deficit than had been expected and to the additional expenditure on medicines which was caused by the adjustment of their cost in full within the year.

45. The actual receipts, including the opening balance and the appropriation from the General Fund, exceeded the actuals of the previous year owing principally to the fund having opened with a larger balance than in the previous year.

The decrease observable under Rents, &c., compared with the actuals of 1878-79 is large in the Tanjore District and is ascribed to the reduced prices at which paddy, the produce of Chattram lands, was sold, and to a smaller amount of arrears having been collected during the year.

46. The expenditure amounted to Rs. 2,99,614 against Rs. 3,55,297 the actuals of the previous year. The decrease is attributable to the smaller expenditure under contingent charges of Chattrams which was caused by fewer persons having been fed in the Chattrams at Tanjore than in the previous year.

47. Subjoined is a statement showing the Endowed Charitable Institutions which appertain to this fund in each circle :—

51. Educational Inspection.—The Educational Inspectorate cost Rs. 69,189 against Rs. 79,470 the estimate of the year and Rs. 67,608 the actuals of 1878-79. Deducting Rs. 3,963 the sum contributed by the several Municipalities on account of Educational inspection, the net cost to Local Funds amounted to Rs. 65,226. The short expenditure as compared with the estimate was due,

(1), to some of the additional Inspecting Schoolmasters sanctioned not having been entertained during a great part of the year for want of competent men and to some others not having been paid the increased rates of salaries provided in the budget;

(2), to vacancies in some circles caused by the resignation and long continued absence on leave of the Inspecting Schoolmasters;

(3), to travelling batta provided in the budget not having been fully drawn.

There were 145 Inspecting Schoolmasters against 143 in the previous year, the increase being due to the entertainment during the year of two additional hands, one in Coimbatore and another in the Hosúr Circles.

52. The following statement shows the number of Inspecting Schoolmasters at work in each circle, the number of villages and schools visited by them, and the number of schools prepared for inspection:—

53. The work of the Inspecting Schoolmasters is reported upon favorably except in the circles noted below:—

In Masulipatam the work done by them is stated to have been extremely unsatisfactory, the number of villages visited and schools inspected growing less and less every year.

In Guntúr the President states that the visits of the Inspecting Schoolmasters were confined to villages in which schools already existed, and that they did not trouble themselves about fostering education or endeavouring to start new schools in localities where they were needed, and promises to report separately on the expediency of retaining their services.

The outturn in Cuddapah, Vriddháchalam, Negapatam and Tellicherry was very unsatisfactory, being far below that for 1878-79.

The Chittoor and Vellore Local Fund Boards consider the work of the Inspecting Agency by no means satisfactory. The former proposed to substitute a more highly qualified class of officials in lieu of this agency and have accordingly employed a Sub-

Inspector of Schools under the sanction conveyed in G.O., Financial Department, dated 24th February 1881, No. 324, while the latter are of opinion that, as most of the Schoolmasters are trained or certificated men, the necessity for the employment of the Inspecting Schoolmasters is questionable.

The President of the Tinnevelly District remarks that the Inspecting Schoolmaster of the Shermádevi Circle did not inspect as many schools as he ought, and doubts whether this agency is really useful.

The outturn of work in Coimbatore was poor owing to the following causes: to the ranges being of different areas, to the varying energy showed by the Inspecting Schoolmasters, to the absence of one of them, and to the paucity of schools generally.

54. Local Fund Schools.—There were in all 1,760 Local Fund Schools in existence at the close of the year, of which 45 belonged to the Middle and 1,715 to the Lower Class against 1,528 Schools, 59 being Middle-class and 1,469 Lower-class Schools in the previous year. The decrease in the former class resulted from an increase of one school in Calicut and a decrease of 15 schools in the marginally-noted* circles, while the increase in the latter was the result of a gross increase of 244 schools in seventeen† circles against a gross decrease of six schools in five‡ circles as indicated in the margin. The increase of one Middle Class in the Calicut Circle was owing to the school at Ponáni, which was maintained by private subscriptions, having been taken over by the Local Fund Board during the year, and the decrease was due either to the conversion of some of the schools into Lower Class or to the closing of others. The increase in the number of Lower-class Schools was due to the opening, during the year, of a great many schools on the combined system. The number of schools in excess of that of last year shown above differs from the actual number newly opened during the year, viz., 263, owing to the abolition of some of the old schools which existed in 1878-79. Of the total number of schools kept up, 323 were on the salaried system, 311 of them being old and 12 new, and 1,437 or 1,186 old and 251 new were on the combined system of Salary and Result grants. 55. The working of the salary system is reported upon to have been generally satisfactory. In a few circles, however, some of the schools on this system failed to show improvement owing to irregular attendance of the pupils caused by constant and continued sickness and want of really good masters. Very few Presidents expressed

opinions with regard to the working of the schools on the combined system. One half of them state that the progress made by the schools under it was satisfactory, while the other half are of opinion that the system failed owing to the difficulty of getting trained teachers. To obviate this, however, Normal Schools are being established for training teachers and taking the places of untrained men.

56. The following statement shows in one view the details of the schools and the net average cost of educating each pupil under each system as required by Government :—

* This includes Rs. 730 the contribution of the Punganúr Zemindar.

57. The total attendance in the higher and middle class schools was 2,142 and the cost came to Rs. 37,430, while the fees realized amounted to Rs. 6,306. The lower class schools were attended by 43,997 pupils, who contributed Rs. 18,400 in the shape of fees, and the cost thereof was Rs. 1,96,634. The results show an improvement over the past year as regards lower class schools, of which 262 schools were newly opened during the year. It must, however, be remarked that beyond an increase in the numerical strength of the schools and in the attendance no marked improvement seems to have been made in the matter of elementary education, but, as the system of training teachers by establishing Normal schools in the several Local Fund Circles is now being gradually introduced and the changes needed for regulating elementary education are engaging the attention of the Circle Boards, better results, it is hoped, may be expected in future years.

58. GRANTS-IN-AID.—The grants-in-aid allowed from Local Funds to indigenous private schools are of two kinds, viz., salary grants and result grants. Under the former, Rs. 1,895 were paid to 15 schools and under the latter Rs. 62,268 to 3,978 schools. The last-mentioned sum includes Rs. 7,491 disbursed on account of grants earned in 1878-79 as particularized in the margin. From the smallness of the amount compared with that paid in the previous year on account of 1877-78, it seems to the Board that effect is being given to the orders of Government for the discontinuance of the practice of paying result grants in arrears.

The large decrease in the number of salary schools, attendance, and the amount paid as compared with those of the previous year was due to the schools shown under salary grants in the Calicut Circle in 1878-79 having now been shown under the combined system schools. The number of schools under result grants shows an improvement over last year, but the attendance and the amount of grant paid were far below those of 1878-79 owing to—

(1.) Poor attendance in some and the non-existence of many others when the Deputy Inspectors went to examine them.

(2.) Many result grant schools having been placed on the combined system during the year and the severity of the result grant rules.

(3.) The late date at which certifying memoranda were submitted by the Deputy Inspectors of Schools.

In Vellore, it is said that the results were not satisfactory and do not speak of the efficiency of the Inspecting Schoolmasters.

The delays in the submission of the certifying memoranda by the Deputy Inspectors have not been avoided to any appreciable extent, and the matter, it is hoped, will engage the special attention of the Educational authorities.

60. DISPENSARIES.—The cost of maintaining Local Fund Dispensaries amounted to Rs. 2,31,855 against Rs. 2,22,547 in the previous year. The increase is attributable chiefly to the admission of famine patients into the hospitals of the distressed circles and to the increased rates of salaries of some of the Medical Subordinates in charge of the Local Fund Dispensaries. In the Nílgiris, the increase is stated to be due to the large influx of patients from Wynaad and Government plantations at Neddivattam, while in Chittoor, Tinnevelly, and Canara it is ascribed to the payment within the year of the cost of medicines purchased in previous years and the adjustment of diet bills of that year.

61. The following statement shows the number and names of dispensaries maintained in each circle and the number of patients (in and out) treated in them:—

The year commenced with 104 dispensaries, and 21 were newly opened during the year, making a total of 125 dispensaries at its close. The total number of patients (in and out) treated at these institutions shows a net increase of 90,941, or 17 per cent. over that of last year, but the number of in-patients fell off considerably. The dispensaries are reported to have done good work during the year and are steadily gaining popularity. It was proposed to open new dispensaries at the places mentioned below, but for want of Medical Subordinates or suitable accommodation the proposal was deferred:—

Cocanada ... ... Amalápuram.

62. Vaccination.—The vaccine staff maintained in the several Local Fund Circles during the year consisted of 37 Deputy Inspectors of Vaccination and 552 Vaccinators against 35 of the former and 551 of the latter in 1878-79. There was thus an increase of 2 Deputy Inspectors and 1 Vaccinator in the year. The increase in the former case was due to the entertainment of a separate Deputy Inspector to each of the Chingleput and Tellicherry Circles, while in the latter it was the result of a gross increase of 29 Vaccinators in 11 Circles and a gross decrease of 28 in seven Circles.

63. The total cost of Vaccine Establishments maintained in the several Circles aggregated Rs. 1,17,671, or Rs. 4,736 over the actuals of the previous year, which resulted from a gross increase of Rs. 8,863 in 21 Circles and a gross decrease of Rs. 4,127 in 13 Circles. The excess over the outlay in 1878-79 was due chiefly to the payment of batta to Vaccine Establishments for the year under report as well as for the past year in some cases and to the Vaccinators having been allowed extra remuneration for performing operations in excess of a certain fixed number, while the decrease resulted from the following causes:—

(1.) Stoppage of pay to Vaccinators for bad work and vacancies in the staff.
(2.) Savings in the contingent charges and travelling batta allowed to Vaccinators, &c.

The system of paying extra remuneration to Vaccinators at the rate of As. 2 for each successful case above 1,200 a year or 100 cases in each month has not been noticed by the Presidents.

64. The following statement shows the number of Vaccinators in each Circle and the work turned out by them:—

65. The year's results as compared with those of 1878-79 show an improvement as regards the number of cases operated upon, while the percentage of successful cases fell off, and the average cost per case was higher by two pies. The cases in which the cost was excessive were specially noted in the Board's reviews of the Circle reports, and it is hoped that the Presidents will endeavor to reduce it as low as possible. The increased operations were due in some Circles to constant and more effective supervision exercised by the Deputy Inspectors of Vaccination combined with that of the Local Fund Boards over the working of the Vaccinators, while in some others it is attributed to the energy of the Vaccinators. The work turned out by the staff taking it as a whole may be considered satisfactory except in the following cases :—

In Cocanada, Ellore, Cuddapah, and Guntúr the outturn was very poor, owing either to the unwillingness of the people to subject themselves and their children to the operation except when small-pox was prevalent or to the indolence on the part of Vaccinators and laxity of supervision.

In Kurnool, the unsatisfactory work of the staff is attributed partly to the native prejudices, while in Gooty the poor results are ascribed partly to the apathy of the people. In Penukonda it is said that there is still a marked dislike to vaccination, which is shared by all classes educated as well as uneducated. In Calicut, although the results compare favorably with those of the previous year, yet the President is of opinion that compulsory vaccination is much desired.

66. In the separate reviews on the Circle reports the Board drew the attention of the Local Fund Boards concerned to these defects and suggested the expediency of adopting measures for checking them and hope for better results for the future. The prejudices against vaccination have not yet altogether vanished.

67. Sanitation.—The total expenditure on works of sanitary character amounted to Rs. 2,18,405 against Rs. 2,03,874 in 1878-79. The particulars of the outlay are given below compared with those of 1878-79.

	1879-80.	1878-79.
	Rs.	Rs.
1. Cleansing of tanks and wells	46,366	57,107
2. Improving village-sites	16,186	12,161
3. Sanitary arrangements at fairs and festivals	9,221	6,065
4. Scavengering villages and towns ...	1,30,003	1,12,554
5. Miscellaneous	16,629	15,987
Total ...	2,18,405	2,03,874

The increases under items 2 and 3 are small, but that under 4 is large and was caused by the entertainment of additional scavengers, &c., in places where their services were most required on sanitary grounds. The total amount spent on sanitation was less than two-thirds of the amount allotted for this purpose. In some Circles the short expenditure is alleged to be due to want of applications from the Divisional Officers and to the backwardness of the villagers to contribute towards sanitary objects. The explanation is not satisfactory. Presidents should endeavor to obtain from the Divisional Officers a regular list of works which may be indispensably necessary to improve the sanitary condition of the towns and villages of their respective districts in view to utilizing and turning to advantage the amounts set apart for this very important service. With regard to the second cause, the Board observed in their review on the Local Fund Report of the Ellore Circle for 1879-80 that, although Government have not objected to the receipt by Local Fund Boards of such voluntary contributions by Villagers, Local Fund Boards have clearly no right to refuse to utilize to the full extent the funds raised by taxation for the purposes of the Act.

68. Choultries.—There were 264 choultries (endowed and unendowed) under the management of Local Fund Boards during the year against 235 in the previous year. The increase is due to the addition of new choultries constructed out of Local Funds as detailed below :—

70. BUNGALOWS.—Rs. 26,609 or Rs. 4,971 more than in the previous year were expended in the maintenance including the annual repairs of the Travellers' Bungalows under the control of the several Local Fund Boards, while the fees realized from the travellers who halted in them aggregated Rs. 8,232 against Rs. 9,317 in 1878-79. The increase was due chiefly to a large amount having been spent by Public Works Department in repairing the bungalows. The cost of maintaining these institutions exceeded the receipts by Rs. 18,377, and the excess occurs in all the Circles save those named in the margin where the expenditure was less than the receipts. The attention of Presidents is drawn to the repeated orders of Government to make these institutions self-supporting as far it may be possible. The falling off in the receipts is attributable to fewer halts made in them during the year. The total number of bungalows which existed at the commencement of the year was 203, but during the year 12 new bungalows were added and 1 was given up, making a total of 214 bungalows at the close of the year. The falling off in the number of travellers was due to the bungalows not having been frequented so freely as before. The subjoined statement shows the number of bungalows maintained in each Circle, the fees collected, the number of travellers that halted in them, and the charges incurred on their account :—

Average per Circle ..	11·76	12·29	12·38	3·6	2·87

The total number of members on the several Local Fund Boards was 818, of whom 400 were officials and 418 non-officials. There were 421 meetings held during the year. The average attendance of the former at each meeting was 3·6 and that of the latter 2·87 against 3·3 and 2·6 of the previous year, which shows some change for the better. The working of the Local Fund Boards has been generally good. The non-official members with the few exceptions noted below have been more punctual in their attendance and showed greater interest in the business connected with Local Funds.

In Ellore, the non-official members of the Board did not attend as regularly as might be wished. The non-official members of the Board in the Saidápet and Chingleput Circles with a few exceptions did not evince any interest in matters connected with Local Fund business. With regard to the working of the Board generally, the President remarks "that having to put a number of petty matters before a Local Fund Board does no good and is a sad hinderance and source of loss of valuable time to Government officials, who in fact are the real workers and held responsible if anything goes wrong."

In Cuddalore, the average attendance of the non-official members was a very poor one. With some honorable exceptions they do not take any interest in the work of the Board.

In Trichinopoly, the non-official members evinced little or no interest in the administration of Local Funds.

One official and five non-official members in the Salem Circle did not attend any of the meetings during the year, and three of the latter did not attend a single meeting ever since the date of their appointment. While speaking of the class of official members in the Tinnevelly Circle, the President observes that with the exception of a few the attendance was extremely casual, while in the Shermádevi Circle it is said that one of the meetings was postponed for want of quorum : but for this the attendance though small was regular.

73. The following statement shows the incidence of taxation in each Circle and the rate at which Land Cess was collected prepared in the same form as that furnished with the Board's General Local Fund Report for 1878-79 :—

ABSTRACT.—Submitting to Government Board's report on the operations of the Local Funds constituted under Act IV of 1871 for 1879-80.

READ—the following Proceedings of the Board of Revenue, dated 10th February 1882, No. 1238, Miscellaneous :—

Read—the following letter from J. F. PRICE, Esq., President of the Local Fund Boards, Chingleput District, to the Secretary to the Board of Revenue, dated Saidápet, 21st December 1881, No. 63 :—

I have the honor to bring to the notice of the Board of Revenue what appears to me an incorrect statement made in paragraph 62 of their Proceedings, No. 2381, dated 19th October 1881. It is there mentioned that the increase in the staff of Deputy Inspectors of Vaccination was owing to the entertainment of a separate officer "to each of the Chingleput and Tellicherry Circles." During 1879-80 the transactions of which year were reviewed in the Order just quoted, no second Deputy Inspector was appointed for this district, neither was any allusion made to it in paragraph 25 of the Local Fund report of the Circle recorded in Board's Proceedings, No. 529, dated 31st March 1881.

2. In the budget for 1882-83 now before the Board provision has been made for a second Inspector on Rs. 40 per mensem.

Resolution—dated 10th February 1882, No. 1238, Miscellaneous.

Submitted to Government in continuation of Board's Proceedings, dated 19th October 1881, No. 2381.

2. The total number of Deputy Inspectors of Vaccination was only thirty-six and not thirty-seven as stated in the above Proceedings.

To the Chief Secretary to Government, Financial Department.

Order—dated 16th March 1882, No. 299, Financial.

The above report on the operations of the Local Funds under Act IV of 1871 for 1879-80 was submitted after the lapse of upwards of a year from the date on which it was due, viz., 15th October 1880, and six months after the date of submitting the last circle report. No grounds are assigned for the delay, and the Board are requested to state what arrangements are in hand for the report for 1880-81. If the statistics are compiled, as has been frequently enjoined, while the several circle reports are in hand, the general report could be submitted almost immediately after the last circle report. The Government also desire to know why the audited results for 1879-80 were not embodied in this report. It is concluded that they were in the Board's Office before its submission.

2. The most important of the administrative changes made during the year were—

(*a*) The organisation of a separate Local Fund Engineering Agency in almost all the circles for the execution of works consequent on the reduction of the Government Public Works Establishment.

(*b*) The transfer of the entire work of audit of Local Fund Accounts to the Accountant-General under special arrangements.

3. The total assets expenditure and balance of 1878-79 and 1879-80 were as noted below:—

	Assets.	Expenditure.	Balance.
	Rs.	Rs.	Rs.
1878-79	81,82,875	61,72,277	20,10,598
1879-80	76,79,734	42,07,538	34,72,196

The large credits under Public Works receipts and refunds and the contribution from Provincial Funds to meet deficits in some circles swelled the assets of 1878-79:—

4. The chief items of receipts were—

	1877-78.	1878-79.	1879-80.
	Rs.	Rs.	Rs.
Land Cess	29,21,032	39,68,381	43,71,643
Tolls	2,95,676	3,50,449	3,36,177
Pound Fund	47,065	57,414	41,818
Fishery Rents	61,485	85,924	1,01,536
Ferry Rents	91,025	1,09,126	1,06,012
Avenue Clippings	29,070	38,655	47,736

Provincial Grants for Roads	1,18,230	70,000	65,387
Do. for Schools	23,230	16,450	4,670
Do. General	9,410	14,510	2,440
Private Contributions for Works	34,119	51,378	14,769
School Fees	20,312	20,480	22,868
Other items	24,36,358	30,56,092	22,73,093
Total ..	63,39,677	81,82,874	76,79,734

5. There was a large increase under Land Cess, but the collections were less than 70 per cent. of the demand in the circles marginally noted. In Gooty they were as low as 42·9 per cent. The errors and confusion pointed out in the credit of Ferry Rents and Tolls will, it is hoped, be removed when the audited results are known and the accounts finally adjusted.

The house-tax collections in Saidápet, Coimbatore, and South Canara, aggregating Rs. 833, are not explained by the Board of Revenue. The levy of the tax was suspended by G.O., dated 28th March 1873, No. 426. Outstandings on that date should not have been permitted to run on.

6. The expenditure under the principal budget heads was as follows:—

	1877-78.	1878-79.	1879-80.
	Rs.	Rs.	Rs.
Communications, Buildings, Public Works Establishments, &c.	42,88,333	46,94,477	26,04,902
Education	4,46,384	3,85,862	3,87,059
Sanitation including—			
Hospitals and Dispensaries ..	2,00,084	2,22,547	2,31,855
Vaccination	1,07,204	1,12,935	1,17,671
Sanitary Establishments	2,21,166	2,05,809	2,18,381
Choultries	2,38,925	2,79,418	2,20,182
Miscellaneous	1,02,881	1,20,186	1,62,942
Total Sanitation ..	8,70,260	9,40,895	9,51,031*

7. The large falling off in the Public Works expenditure was due to the interruption caused by the change of the Executive Agency. There were 19,746 miles of road under the Local Fund Boards against 18,674 in the previous year. A large number of dispensaries, choultries, school-buildings, &c., were built and repaired during the year as detailed in paragraph 50 of the report. There were 228 endowed institutions against 218 in the previous year besides 25 markets.

8. There were 1,760 schools maintained wholly from Local Funds against 1,528 in the previous year. All except 45 were of the lower class; and of these only 302 were on the salary system and the rest on the combined system. The scholars in the lower-class combined system schools numbered 34,418 and cost the Local Funds on an average Rs. 2-14-8 each for the year. The amount paid in grants to aided schools was—

	Rs.
Salary Grants	1,895
Results Grants	62,268

9. The number of dispensaries rose from 104 to 125 during the year, and there was an increase of 17 per cent. in the number of patients treated in them as compared with the previous year.

10. The Vaccination staff consisted of 36 Deputy Inspectors and 552 Vaccinators against 35 and 551, respectively, in 1878-79. They are reported to have performed 3,67,094 successful operations, or 90·42 of the total cases, at an average cost of 5 annas and 1 pie per case. The range however was excessive—from $1\frac{1}{2}$ anna in Negapatam to $1\frac{1}{2}$ rupee in Madanapalle. There was an addition of 29 choultries to the number (235) reported in the previous year as being under the management of the Local Fund Boards. The number of persons fed in them is returned as 1,886,286 against 1,937,692 in 1878-79, while the cost of feeding them rose from Rs. 33,000 to Rs. 1,16,983. The increase in Tanjore alone, where generally the largest expenditure is incurred under this head, is considerable, being Rs. 97,531 against Rs. 14,491 in 1878-79 (*vide* paragraph 81 of Board's Proceedings, dated 28th May 1880, No. 736). This is not explained in the Board's general report. In their review of the circle report, however, the Board make* the following remark:—"In all these institutions 1,725,201 meals were distributed against 1,784,970 in the previous year at a cost of Rs. 97,531, or Rs. 24,113 more than in 1878-79, owing to the high price at which paddy was purchased for supply to the chattrams." The figures in the general report as above noted do not bear out this remark. The Board of Revenue will report on this point.

* Paragraph 9, Board's Proceedings, dated 4th November 1880, No. 1670.

11. Upwards of Rs. 80,000 were paid from Local Funds towards the maintenance of Hospitals in Municipalities in consideration of the relief afforded in these institutions to people from beyond Municipal limits.

* The total for Sanitation is wrongly given in the Board's abstract as Rs. 9,51,281 (*vide* paragraph 5 .

12. The incidence of taxation to Local Funds on the population concerned averaged 2 annas and 6 pies per head exclusive of tolls and 2 annas and 8 pies per head inclusive of them against 1 anna and 10 pies and 2 annas and 5 pies in the previous year. The increased land cess collections during the year and the raising of the land cess in the two circles of the Tinnevelly District probably account for the increase in the incidence.

5. There was a large increase under Land Cess, but the collections were less than 70 per cent. of the demand in the circles marginally noted. In Gooty they were as low as 42·9 per cent. The errors and confusion pointed out in the credit of Ferry Rents and Tolls will, it is hoped, be removed when the audited results are known and the accounts finally adjusted.

The house-tax collections in Saidápet, Coimbatore, and South Canara, aggregating Rs. 833, are not explained by the Board of Revenue. The levy of the tax was suspended by G.O., dated 28th March 1873, No. 426. Outstandings on that date should not have been permitted to run on.

6. The expenditure under the principal budget heads was as follows:—

	1877-78.	1878-79.	1879-80.
	Rs.	Rs.	Rs.
Communications, Buildings, Public Works Establishments, &c.	42,88,333	46,94,477	26,04,902
Education	4,46,384	3,85,862	3,37,059

Choultries	2,38,925	2,79,418	2,20,182

Total Sanitation ..	8,70,260	9,40,895	9,51,031*

7. The large falling off in the Public Works expenditure was due to the interruption caused by the change of the Executive Agency. There were 19,746 miles of road under the Local Fund Boards against 18,674 in the previous year. A large number of dispensaries, choultries, school-buildings, &c., were built and repaired during the year as detailed in paragraph 50 of the report. There were 228 endowed institutions against 218 in the previous year besides 25 markets.

8. There were 1,760 schools maintained wholly from Local Funds against 1,528 in the previous year. All except 45 were of the lower class; and of these only 302 were on the salary system and the rest on the combined system. The scholars in the lower-class combined system schools numbered 34,418 and cost the Local Funds on an average Rs. 2-14-8 each for the year. The amount paid in grants to aided schools was—

	Rs.
Salary Grants	1,895
Results Grants	62,268

9. The number of dispensaries rose from 104 to 125 during the year, and there was an increase of 17 per cent. in the number of patients treated in them as compared with the previous year.

10. The Vaccination staff consisted of 36 Deputy Inspectors and 552 Vaccinators against 35 and 551, respectively, in 1878-79. They are reported to have performed 3,67,094 successful operations, or 90·42 of the total cases, at an average cost of 5 annas and 1 pie per case. The range however was excessive—from $1\frac{1}{2}$ anna in Negapatam to $1\frac{1}{2}$ rupee in Madanapalle. There was an addition of 29 choultries to the number (235) reported in the previous year as being under the management of the Local Fund Boards. The number of persons fed in them is returned as 1,886,286 against 1,937,692 in 1878-79, while the cost of feeding them rose from Rs. 33,000 to Rs. 1,16,983. The increase in Tanjore alone, where generally the largest expenditure is incurred under this head, is considerable, being Rs. 97,531 against Rs. 14,491 in 1878-79 (*vide* paragraph 81 of Board's Proceedings, dated 28th May 1880, No. 736). This is not explained in the Board's general report. In their review of the circle report, however, the Board make* the following remark:—"In all these institutions 1,725,201 meals were distributed against 1,784,970 in the previous year at a cost of Rs. 97,531, or Rs. 24,113 more than in 1878-79, owing to the high price at which paddy was purchased for supply to the chattrams." The figures in the general report as above noted do not bear out this remark. The Board of Revenue will report on this point.

11. Upwards of Rs. 80,000 were paid from Local Funds towards the maintenance of Hospitals in Municipalities in consideration of the relief afforded in these institutions to people from beyond Municipal limits.

* Paragraph 9, Board's Proceedings, dated 4th November 1880, No. 1670.

* The total for Sanitation is wrongly given in the Board's abstract as Rs. 9,51,281 (*vide* paragraph 5 .

12. The incidence of taxation to Local Funds on the population concerned averaged 2 annas and 6 pies per head exclusive of tolls and 2 annas and 8 pies per head inclusive of them against 1 anna and 10 pies and 2 annas and 5 pies in the previous year. The increased land cess collections during the year and the raising of the land cess in the two circles of the Tinnevelly District probably account for the increase in the incidence.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following Proceedings of the Board of Revenue, dated 19th October 1881, No. 2381 :—

ABSTRACT.—Submitting to Government Board's report on the operations of the Local Funds constituted under Act IV of 1871 for 1879-80.

READ—the following Proceedings of the Board of Revenue, dated 10th February 1882, No. 1238, Miscellaneous :—

Read—the following letter from J. F. PRICE, Esq., President of the Local Fund Boards, Chingleput District, to the Secretary to the Board of Revenue, dated Saidápet, 21st December 1881, No. 63 :—

I have the honor to bring to the notice of the Board of Revenue what appears to me an incorrect statement made in paragraph 62 of their Proceedings, No. 2381, dated 19th October 1881. It is there mentioned that the increase in the staff of Deputy Inspectors of Vaccination was owing to the entertainment of a separate officer "to each of the Chingleput and Tellicherry Circles." During 1879-80 the transactions of which year were reviewed in the Order just quoted, no second Deputy Inspector was appointed for this district, neither was any allusion made to it in paragraph 25 of the Local Fund report of the Circle recorded in Board's Proceedings, No. 529, dated 31st March 1881.

2. In the budget for 1882-83 now before the Board provision has been made for a second Inspector on Rs. 40 per mensem.

Resolution—dated 10th February 1882, No. 1238, Miscellaneous.

Submitted to Government in continuation of Board's Proceedings, dated 19th October 1881, No. 2381.

2. The total number of Deputy Inspectors of Vaccination was only thirty-six and not thirty-seven as stated in the above Proceedings.

To the Chief Secretary to Government, Financial Department.

Order—dated 16th March 1882, No. 299, Financial.

The above report on the operations of the Local Funds under Act IV of 1871 for 1879-80 was submitted after the lapse of upwards of a year from the date on which it was due, viz., 15th October 1880, and six months after the date of submitting the last circle report. No grounds are assigned for the delay, and the Board are requested to state what arrangements are in hand for the report for 1880-81. If the statistics are compiled, as has been frequently enjoined, while the several circle reports are in hand, the general report could be submitted almost immediately after the last circle report. The Government also desire to know why the audited results for 1879-80 were not embodied in this report. It is concluded that they were in the Board's Office before its submission.

2. The most important of the administrative changes made during the year were—

(*a*) The organisation of a separate Local Fund Engineering Agency in almost all the circles for the execution of works consequent on the reduction of the Government Public Works Establishment.

(*b*) The transfer of the entire work of audit of Local Fund Accounts to the Accountant-General under special arrangements.

3. The total assets expenditure and balance of 1878-79 and 1879-80 were as noted below:—

	Assets.	Expenditure.	Balance.
	Rs.	Rs.	Rs.
1878-79	81,82,875	61,72,277	20,10,598
1879-80	76,79,734	42,07,538	34,72,196

The large credits under Public Works receipts and refunds and the contribution from Provincial Funds to meet deficits in some circles swelled the assets of 1878-79:—

4. The chief items of receipts were—

	1877-78.	1878-79.	1879-80.
