Civil Works.

No. 125.

Read—the following letter from Lieutenant-Colonel W. H. BURTON, R.E., Officiating Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 3rd May 1882, No. 369:—

One tracing.
One estimate with abstract.
One specification.

I have the honor to submit an estimate of Rs. 5,200 for constructing a groyne of piles and sand bags at Ennore, in the Buckingham Canal Division, approved by the Commissioner of Salt Revenue.

2. There is a grant of Rs. 2,500 in the Budget, Imperial Other Services, for opening and maintaining the bar during the year, for which an estimate was sanctioned in G.O., No. 2849 W., dated 15th November 1881; but as this provision is insufficient, as unless a groyne is thrown out it will not be possible to prevent the mouth of the bar from closing, I request that the enclosed estimate may be sanctioned and the requisite funds allotted.

3. The Executive Engineer reports that the work is urgently required in the interests of the salt revenue, and that it has been commenced in anticipation of sanction to the estimate.

No. 126.

Order—dated 22nd May 1882, No. 1291 W., Public Works.

The estimate, amounting to Rs. 5,200, for constructing a groyne of piles and sand bags at Ennore, in the Buckingham Canal Division, is sanctioned.

2. The amount will be allotted by transfer from the reserve under Repairs, Salt, subject to the confirmation of the Government of India.

3. This sanction has been registered as Imperial Other Services, No. 3 W. of 1881-82, and classified as Civil Buildings, Original Works.

Dated 5th December 1882.

The additional grant of Rs 1985 is required for providing weather boards to the windows of 32 Family Quarters R.A. at St. Thomas Mount sanctioned in G.O. No. 3088 of 3rd December 1881. The amount was previously applied for but funds were not available under Minor [illegible] New Works.
