From W. Johnson

To Executive 1990
Engineer
Western Division

Sir,

With reference to your letter No 787 dated 13-1-03 informing me of the Examiner Public Works having disallowed my claims for travelling allowance for the months of September & August on the ground that I was within a five mile radius of my head quarters I have the honor to request that you will forward to the chief Engineer this my application to be granted a certain fixed travelling allowance.

2- As you are aware there is a good deal of office work to be done in this sub division as there are

there are the ~~the~~ three
offices of the ancient boat
& quarries to be looked
after -
If then I have no means of
inspecting works in my
charge except on foot, there
would be but little time
left to me for office
work -
I ~~think~~ ~~I think~~ you will agree with
me that it is very hard to
expect me to walk from
Dowlaishwaram to Karole quarries
for instance, do my work there
and walk back again, a distance
of eight miles exclusive of
distance walked at the works
and then to sit down to my
office work and be out again
perhaps at 4 o'clock in the
afternoon
I do not take Karole quarries,
as an instance, because it is
the farthest place I have to
go to -; my subdivision also
includes 3 miles of river

river embankment below and
5 miles above the anicut and
4 miles of main canal -
~~#~~3. It has often been
brought to my notice that it
is my duty to give constant
personal supervision to works
under my charge -; without
maintaining a pony & tent
and a boat when necessary
I find from actual experience
that it is quite impossible
for me to do so
As a matter of fact I have
been obliged to maintain at
my own cost since the 1st June
1882 for some months two
ponies and latterly one otherwise
it would have been quite
impossible for me to get
through my work -
If therefore my claim is
considered a just one I hope
that a fixed travelling

travelling allowance will
be granted to me retrospectively
from the 1st June 1882 —

1220
4p

I

Under para 5914 5924
the code an officer subordinate
required to travel any distance
which he could not easily
do on foot would be entitled
to his full travelling
allowances, in my case
however it has hitherto
been considered unnecessary
to make any travelling
allowance which I consider
so unfair and I hope that
a fixed allowance of at
least Rs 60 per mensem
will be granted to me
retrospectively from the
1st June 1882.

I have the honor to be Sir
your most obedt. Servt.

Forwarded to the Secretary to Government P. W. Department.

There is no ruling in the old or new Travelling allowance rules under which Mr. W. Jopp, Assistant Engineer can be allowed any Travelling or Fixed monthly allowance for journeys performed within a radius of 5 miles from Head Quarters.

2. I venture however, to remark that Mr. Jopp's case is similar to that of Executive Engineers in charge of large Military Stations or the Presidency towns, where several posts have to be visited, all within 6 miles radius of

CS Endorsement is not quite correct. The new Rules do make provision for cases of this kind - vide Section 28. and Schedule B. page 49: but the sanction of the Govt of India to Mr. Jopp's appointment might be added to Schedule B. on the same footing as Asst Engrs: of the Similar Imperial Circle. Endorsement thereon by the
Examiner P.W. Accts — — — 24 W d/ 12th April 83

Ordered that the
Government of India be
addressed.

(PE. No. 1221 Wd/24th April 83.)

To

The Secretary to the
Govt. of India. P.W.D.

Sir,

In section 28 of the revised Travelling allowance Rules it is laid down that when an officer has a large amount of travelling at

Dn 25/4
S.E. First Circle
Dan Rua
Dn 9/5

at or within a short
distance from head quar-
= ters, for which Travelling
allowance is inadmissible
under Section 27, a
permanent conveyance
or horse allowance is
granted to him; which
is drawn like Salary
all the year round. A
list of officers in receipt
of this conveyance or
horse allowance, with
the rates granted, is
given in Schedule E.
I am to request the
sanction of the Govern=
= ment of India to the
inclusion in that list
of the Assistant Engr
in charge of the Head
Works Subdivision of
the Eastern Godaveri Dt.

2. This officer has
to supervise work at
the

the Anicut and Quarries,
on three miles of river
embankment, and four
miles of canal, which
obliges him to keep one
and sometimes two
ponies, to maintain a
tent, and a boat when
necessary. But owing to
his work being within
a five mile radius
from his head quarters
he is, under the ordinary
rules, debarred from
claiming any travelling
allowance. The case
thus seems to fall
clearly within the pro=
= visions of Section 28
quoted above. This
officer might be placed
on the same footing as
the Assistant Engineers
of the Simla Imperial
Circle and given a
fixed

fixed allowance of
Rs 45 per mensem; and
to this proposal, I am
to request the sanction
of the Government of
India.
