READ—the following paper :—

From Surgeon-Major J. KEESS, M.D., Senior Medical Officer, General Hospital, to the Secretary, Surgeon-General with the Government of Madras, dated Madras, 20th April 1883, S. No. 1845.

I have the honor to represent that I addressed the Executive Engineer, as per margin, on the subject of repairs to the Resident Medical Officer's quarters, and pointed out the necessity that existed for making these quarters comfortable. I regret to have to report that nothing has yet been done.

No. 1477, 9th May 1882.

" 1560, 18th July "
" 1581, 10th August "

2. Dr. Johnson, the late Acting Resident Surgeon, was prevented from bringing out his wife owing to the uncomfortable state of his quarters, and the present Acting Resident Medical Officer, Surgeon G. T. Thomas, also married, is very much dissatisfied with his house, and asks that certain repairs and additions be made, with a view to "adding to the convenience of the occupier, and keeping the sun and rain out of the only available bed-room or sitting-room."

3. As it is advisable, from every point of view, to provide the Resident Medical Officer with healthy and comfortable quarters, I beg the Surgeon-General will be good enough to move the Executive Engineer to give effect, at an early date, to the wishes expressed in the various letters that have been addressed to him on this subject.

ENCLOSURE.

From Surgeon G. T. THOMAS, Acting Resident Medical Officer, General Hospital, to the Senior Medical Officer, General Hospital, dated Madras, 20th April 1883, S. No. 1844.

I have the honor to request that you will be so good as to again draw the attention of the Executive Engineer to the condition of the house occupied by the Resident Medical Officer. Rs. 450, the sum necessary according to the estimate for the official year, must be now available. The floors and walls require repairing, and I particularly request that a room, i.e., a permanent shed consisting of wooden frame-work and tatties, be erected to the east of the upper-story room; this will be inexpensive and add greatly to the convenience of the occupier, keeping the sun and rain out of the only available bed-room or sitting-room.
