READ—the following letter from C. F. MacCARTIE, Esq., C.S., Officiating Postmaster-General, Madras, to the Secretary to Government, Public Works Department, dated Madras, 26th April 1883, No. 1103-585:—

I have the honor to submit a plan and estimate for Rs. 435 for addition to the Post Office and Postmaster's quarters at Kótagiri from the Executive Engineer, Nilgiri District; also copies of my letter * to the Director-General of the Post Office of India, and of his reply thereto, No. 406, dated 13th April 1883, according sanction to the measure, and request that you will be so good as to move the Government to pass orders for the allotment of the necessary funds from the grant of Minor Works of the Postal Department in this circle for 1883-84, so that the work may be executed as early as possible.

ENCLOSURES.

Copy of a communication from the Postmaster-General, Madras, to the Director-General of the Post Office of India, dated Madras, 19th March 1883, No. 1242-4175.

I have the honor to forward plan and estimate for Rs. 435 for addition to the Post Office and Postmaster's quarters at Kótagiri from the Executive Engineer, Nilgiri District, and request that you will be so good as to accord your sanction to the measure.

The accommodation in the present building is so scanty that the Sub-Postmaster lives now in the Post Office itself by dividing off a portion with a mat. The proposed improvements are absolutely necessary. The measure will, if sanctioned, be executed from the Minor Works grant for 1883-84.

Copy of a communication from the Director-General of the Post Office of India, to the Postmaster-General, Madras, dated Simla, 13th April 1883, No. 406.

I have the honor to return the original enclosures of your letter, No. 1242-4175, dated the 19th March 1883, and to convey sanction to the expenditure of a sum of Rs. 435 for making certain additions to the Post Office and Postmaster's quarters at Kótagiri out of the Minor Works grant of your circle for the year 1883-84.

MEMORANDUM.

The plan and estimate are submitted for the sanction of Government.

2. The Chief Engineer would, however, suggest that six inches of the top of walls should be brick in chunam, and that openings for ventilators should be left in the walls of the bath-room and latrine.

The scabbings seem to agree to
be excessive, but the work is, I see,
"Vengay", of which I know nothing as
regards strength. I presume he has done,
as they may pass.

I presume walls of main building
are of brick in mud, & have addition
of same material, but 6 inches of top
of walls might certainly be in stone.
This alteration can be made in carrying
out work, & the advisability of leaving
openings for ventilation in walls of
bath room & latrine might be suggested
when carrying sanction to the District.
