Delay having occurred
in the issue of the Classification
and Distribution Lists of
S. W. Establishments which
are required for Parliamentary
purposes, it is necessary that
arrangements should in
future be made to ensure

earlier publication and
punctual transmission to the
Home Government.

2. The Examiner S.W. Accts.
under whose supervision the
lists are published can,
it is understood, materially
expedite the work if the
salary bills for May and
November of each year be
taken as the basis on which
to construct the lists, instead
of those for June and December
as hitherto.

3. This will accordingly be
done. Any new appointments,
promotions, transfers, &c., made
while the papers are passing
through the Press, of which
the Examiner may have
cognizance, can be entered
in the "Books" - but

should be allowed on this
account.

4. The Superintendent of
the Press will be directed in
the Public Department to
see that proper arrangements
are made for passing the
papers through the Press
with the utmost despatch.
