GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following papers:—

From Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 14th March 1883, No. 4437.

I have the honor to submit a plan and estimate of Rs. 11,110, revised according to your Memorandum, No. 1759 C, dated 2nd October 1882, for converting the former District Engineer's Office at Guindy into a slaughter-house and butchers' quarters.

1 Detailed Estimate with Abstract.
1 General Abstract.
1 Report.
1 Specification.
1 Plan.

2. The dimensions of the roof trusses for the sheds for hanging beef and mutton have been altered to agree with those given in the specification in G.O., No. 1986, dated 13th July 1875, and flat tiling has been omitted.

3. The Executive Engineer has provided an aloe hedge in place of the boundary wall as well as the partition wall. I have, however, added the cost of the boundary wall, for a hedge takes some time to grow, and it appears to me to be necessary that there should be an outer enclosing wall. Your suggestion is only that the inner wall should be replaced by a hedge.

4. The exterior of the walls is now intended to be pointed instead of plastered, while rough plastering and white-washing are allowed for the interior of the walls. Provision is made for a latrine for the butchers outside the limits of the slaughter-house, for asphalte flooring for the slaughter and hanging sheds with drains to carry off the foul water; also for ridge ventilators and grating in place of walling in the bullock and sheep sheds and slaughter sheds.

5. With reference to G.O., No. 703, of the 5th instant, I regret that the estimate has not been sent before. The delay is partly attributable to there having been a change in the executive charge of the division, the present incumbent, Lieutenant-Colonel Smalley, having had to make himself acquainted with the various works, and to travel about constantly for this purpose.

G.O., dated 9th April 1883, No. 2022, Military.

Read—Memorandum from the Public Works Department, dated 17th March 1883, No. 642 C.

Read—the following letter from the Commissary-General, to the Secretary to Government, Military Department, dated 2nd April 1883, No. 13.

In returning revised plan * and estimate for converting the former Superintending Engineer's Office at Guindy into slaughter-houses and a butchers' quarters, I have the honor to report that I this morning inspected the present buildings and compared them with the plan.

* Received under your endorsement, No. 1758, dated 20th March 1883.

2. The site chosen is not a convenient one, as it is so far from Madras; but the Executive Commissariat Officer will be unable to exercise a proper supervision over either cattle or slaughter-houses; it is moreover open to the same objection as that made to the one near the toll-bar, in that it is in sight of the trunk road. But as it was accepted by my predecessor, and as no other appears to be available, further objection to it would appear to be useless.

3. The alterations to the buildings proposed by the Superintending Engineer are sufficient and judicious; but, should space admit, it would be advisable to place the slaughter sheds and well to the north instead of to the south of the existing buildings. For by the arrangement in the plan, the slaughter-houses and the hanging sheds are too far apart, and the butchers' quarters are most unpleasantly placed between the two.

4. I would also point out that no provision seems to have been made for cart sheds or mule stabling. A shed to hold 2 four-wheeled carts and a stable for six mules with a godown for harness and muleteers would suffice.

Order—dated 9th April 1883, No. 2022, Military.

The plan should be modified, if possible, as suggested in paragraph 3 of the Commissary-General's letter, and provision made for the subsidiary buildings specified in paragraph 4.

(True Extract.)

(Signed) E. L. HANKIN, Colonel,
Secretary to Government.

No. 808 C.

Referred to the Superintending Engineer, Fifth Circle, who will modify the plan and estimate accordingly, and re-submit the documents with the least practicable delay.

(By Order.)

(Signed) C. BOWEN, Major, R.E.,
Deputy Chief Engineer, P.W.D.

From Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 27th April 1883, No. 404.

I have the honor to return your endorsement, No. 808 C, dated 14th instant, with enclosures, and to forward a tracing plan showing the slaughter sheds and well placed on the north side of the butchers' quarters as suggested by the Commissary-General, space being available on that side. Provision is now made for a harness-room and stables for six mules, while an existing shed in the south-west corner of the yard can be utilized for a cart-shed. The estimate thus altered amounts to Rs. 11,800.

1 Original endorsement, No. 808 C, 14th April 1883.
1 Original letter of Supg. Engr., Fifth Circle, No. 4437, 14th Mar. 1883.
1 Plan.

ORDER—dated 12th May 1883, No. 1399 W., Public Works.

The estimate, amounting to Rs. 11,800, for converting the late Superintending Engineer's Office at Guindy into a Commissariat slaughter-house, is sanctioned.

2. No funds are immediately available for the work, but if possible an allotment will be made later in the year by a re-appropriation of budget grants.

3. This sanction has been registered as Imperial Ordinary No. 11 W. of 1883-84 and classified as Military Original Works.
