Read—the following letter from N. A. ROUPELL, Esq., Collector of Anantapur, to the Secretary to the Board of Revenue, dated 20th April 1883, No. 200 :—

Adverting to the Board's reference on General Register No. 202 of 1883, I have the honor to state that the Head Assistant Collector reports that the fort in question is built of stone and mud. The walls are standing on three sides. A portion measuring 120 yards long by $1\frac{1}{2} \times 2$ yards has fallen down. The estimated value of the gate proposed to be knocked down is Rs. 10. There are no interesting historical associations connected with this fort, which appears to have been constructed before the paimash by certain Dasabandamdars.

2. It is not known at what date this fort was erected, or that it was erected for any special purpose other than that of protection to its inmates in times of violence and disorder.

Resolution—dated 1st May 1883, No. 1207.

Submitted for the sanction of Government being accorded to the pulling down and sale of the materials of the fort gate in question. The work is clearly not one of historic or architectural interest.
