READ—the following paper :—

No. 435 T.J.

Report to accompany the estimate, amounting to Rs. 3,200, for constructing a First-class Police Station-house with tiled roofing at Kumbakónam, in the Tanjore District—*vide* Standard Plan No. 1-A and estimate sanctioned in G.O., No. 1828 W., 2nd August 1880.

The estimate has been prepared by the Executive Engineer, Tanjore, on a requisition from the Superintendent of Police.

- 1 Abstract Estimate.
- 1 Do. for Examiner.
- 1 Site Plan.

Provision has also been made in the Budget for 1883-84.

2. A sketch showing the proposed site is forwarded, and provision has also been made in the estimate Rs. 851 for compensation, as the building is to be constructed on private land.

3. The rates entered in the estimate are considered fair.

4. The work is recommended for sanction, and could be completed in nine months.

TRICHINOPOLY,
28th May 1883.

(Signed) H. R. MEAD, Lieut.-Colonel, R.E.,
Superintending Engineer, Sixth Circle.

ORDER—dated 6th June 1883, No. 1589 W., Public Works.

The estimate, amounting to Rs. 3,200, for constructing a First-class Police Station at Kumbakónam, in the Tanjore Division, is sanctioned for execution when funds are available.

2. This sanction has been registered as Provincial No. 48 W. of 1883-84 and classified as Civil Buildings, Original Works.

NOTE OF REMARKS.

1. The enclosed is an abstract of an estimate for the construction of a 1st class Police Station at Komba - Konim. Amount of estimate (including compensation for land Rs. 851) is Rs. 3,200.
2. The quantities of earth, concrete and brick-in-churnam (foundation) as allowed in this case, are largely in excess of those of the standard estimate S.O. 1828 of 2/8/80. These excesses doubtlessly arise from the nature of the soil, but it is not so stated in the 'report'. All other items accord with those of the standard.
3. It is expected the work may be completed in 9 months after sanction.
4. The abstract has been compared and signed by the Insp. Genl. of P.W.D.

31st May
 J.S.H.

Sanction -

No doubt the increased depths for foundation is due to nature of soil. This will always affect the quantities of masonry which may vary widely from those of standard design - we may take this for granted without referring the matter back to S.E.
