Order—dated 12th June 1883, No. 1641 W., Public Works.

In the papers read above, the Superintending Engineer, the Consulting Architect, and the Superintendent, Public Work Stores have applied for funds on account of (*a*) Minor Works anticipated, in lump sums, (*b*) Incomplete Works of 1882-83, (*c*) New Works, recommended to be taken up in 1883-84, (*d*) Repairs, (*e*) Tools and Plant and (*f*) Temporary Establishment.

2. The Military Minor Works grant, *vide* Budget Item No. 8, amounts to only Rs. 21,987, but the demands of Superintending Engineers are as follows :—

	Rs.
For Minor Works anticipated, to be placed at their disposal in lump sums	27,400
For Incomplete Minor Works	4,696
For Incomplete Major Works	41,801
For New Major Works	38,320
For New Minor Works	6,457
Total ...	1,18,674

The Minor Works grant has been distributed as follows :—

	Rs.
For Minor Works anticipated as per Statement A	12,200
For Minor Works as per Statement B.	3,938
For Major Works as per Statement B.	4,279
Reserve with Government	1,570
Total ...	21,987

3. With reference to G.O., No. 1076 W., dated 11th April 1883, it has only been found practicable to place Rs. 7,000 at the disposal of Officers Commanding Divisions and Districts, which His Excellency the Commander-in-Chief will instruct to be distributed in such proportions, as he may deem necessary.

4. The Superintending Engineer, Third Circle, in his No. 445, dated 12th May 1883, suggests that in lieu of the Minor Works grant, the Military Repair grant be placed at the disposal of Officers Commanding Divisions and Districts. The opinion of His Excellency the Commander-in-Chief will be obtained on this point, through the Military Department.

5. Under Repairs Military the demands of Superintending Engineers amount to Rs. 2,87,150, but as the budget provision is only Rs. 2,75,000, the demands have been reduced to Rs. 2,72,150, *vide* Statement A which accompanies this resolution. This leaves Rs. 2,850 as a reserve with Government.

6. Rs. 3,085 have been placed at the disposal of Superintending Engineers under Original Works, Postal, and Rs. 5,079 allotted for Major and Minor Incomplete and New Works, under the same head of service, *vide* Statement B. The reserve with Government after deducting the allotments made in the Government Orders quoted in the margin, is Rs. 231. The demand under Postal Repairs has been reduced from Rs. 6,025 to Rs. 4,100 which leaves a reserve balance of Rs. 600 with Government.

	Rs.

" " 1360 W., " " "	600
" " 1389 W., " " "	1,845
Total ...	3,815

7. The distribution of the grant under Telegraph is shown in Statement A.

8. Statements C and D show the several demands made by Superintending Engineers under Provincial, and the allotments passed. The demands under Original Works,

exclusive of Registration and Police Works which will be separately dealt with, are as follows :—

	Rs.
For Minor Works anticipated, to be placed at their disposal in lump sums	32,177
For Incomplete Minor Works	10,760
For Incomplete Major Works	2,50,744
For New Major Works	15,377
For New Minor Works	54,798
Total ...	3,63,856

	Rs.	
Reserve with Government	85,173	But since the reserve with Government, after deducting the appropriations already made as per margin, is only Rs. 74,368, the demands have been considerably reduced, as shown below :—
G.O., No. 1013 W., dated 3rd April 1883	6,320

Total ...	15,135	
Difference ...	70,038	
Add Budget Item No. 12 resumed	2,330	
Add Budget Item No. 21 resumed, *vide* G.O., No. 1611 W., dated 8th June 1883	1,355	
Total ...	73,723	

	Rs.
For Minor Works anticipated as per Statement C.	19,200
For Minor Works as per Statement D.	40,418
For Major Works as per Statement D.	68
Reserve with Government	
Total ...	73,723

9. Appropriations have been asked for 23 Incomplete and 33 New Registration Buildings, aggregating Rs. 1,02,620, but as the reserve with Government is only Rs. 24,070, it has not been found possible to allot funds for any new works.

	Rs.
Reserve Budget Item No. 61 ...	22,077
Resumed do. No. 53 ...	1,993
Total ...	24,070

10. A list of Police Works costing above Rs. 1,000 and under Rs. 2,500 each, and for which funds have been applied for by Superintending Engineers, has been sent to the Inspector-General of Police for his remarks, prior to allotment of funds.

11. The provision in budget for converting the terraced roof of the Tahsildar's Cutcherry at Russellkonda into a tiled one, Item No. 12, viz., Rs. 2,330, not being required by the Superintending Engineer, has been resumed and added to the reserve.

12. Under registration buildings also, the provision for the District Registration Office at Bellary, Item No. 53, has been reduced to Rs. 2,293, as Rs. 1,993 was spent on the work in 1882-83. The amount resumed has been added to the reserve with Government under Registration.

13. The demands made under repairs and tools and plant and the allotments passed are shown in Statement C.

14. Statement E shows the appropriations made on account of temporary establishment.

15. To meet the outlay necessary to complete the works now in progress, under Military and Provincial, Superintending Engineers will, as early as practicable, submit proposals for the necessary reappropriation of budget credits. The works in the meanwhile will be pushed on to completion.

READ—the following letter from Lieutenant-Colonel R. C. STEWART, Officiating Quartermaster-General, to the Secretary to Government, Public Works Department, dated Ootacamund, 2nd April 1883, No. 4/2752:—

I have the honor, by desire of His Excellency the Commander-in-Chief, to invite your attention to Order of Government, dated 12th January, No. 121 W., Public Works, paragraph 4, in which it is remarked that the grant for Minor Works and Repairs will be held at the disposal of Government and distributed on receipt of estimated requirements from Superintending Engineers, as directed by G.O., No. 405 W., of 14th February 1881.

2. Sir Frederick Roberts observes that in 1879 the system of allotting a part of the Minor Works grant to General Officers Commanding Divisions and Districts was introduced, *vide* O.G., No. 575 W., dated 26th February 1879, but subsequently the sums allotted were withdrawn, in consequence of the reduction on expenditure in connection with the Affghan War, and since that date, *vide* O.G., No. 1763 W., dated 4th July 1879, the system has not only not been reintroduced, but in the revised edition of the Public Works Code, paragraph 1322, bearing on the subject has been reconstructed, and it is left to the Chief Engineer to propose allotments to General Officers, the practical result of which system is that no allotments to Minor Works are proposed.

3. The Commander-in-Chief thinks it very desirable that General Officers should have the power of allotting sums of, say, Rs. 500 for Minor Works, as it not only facilitates business, but has the advantage of making General Officers more directly responsible for expenditure on Minor Works. I am therefore desired to offer these remarks for your consideration, in view of Government being solicited to revert to the former system.

ORDER—dated 11th April 1883, No. 1076 W., Public Works.

The Government concur in the opinion expressed by His Excellency the Commander-in-Chief, and as large a portion as possible of the grant for Minor Works will be placed at the disposal of Officers Commanding Divisions and Districts; but the total amount* available is so small that it is impossible to make specific allotments until the receipt of the statements of estimated requirements called for in paragraph 4 of G.O., No. 121 W., of 12th January 1883.

2. The submission of these statements by Superintending Engineers should be expedited.

READ—the following letter from Colonel J. BEATTY R.E., Superintending Engineer, Fourth Circle, to the Chief Engineer, Public Works Department, dated Muthur, 5th May 1883, No. 188:—

One original letter, No. 112, of 22nd April 1883.

I have the honor to forward herewith a letter from the Executive Engineer, Coimbatore, bringing to notice the insufficiency of the Draftsmen attached to his office and requesting that he may be allowed an extra 1st-class Draftsman while the West Coast Districts are attached to the Coimbatore Division, *i.e.*, that instead of his present establishment of one 1st-class and one third-class Draftsman, he may be allowed two 1st-class and one third-class.

2. From my knowledge of the work of the division, and the large increase of Draftsman's work necessitated by the addition to it of the West Coast Districts, I consider that the Executive Engineer's request is a reasonable one, and recommend it for sanction.

ORDER—dated 12th May 1883, No. 1401 W., Public Works.

The Government do not consider it desirable at present to sanction any permanent increase of establishment, but the temporary employment of an additional 1st-class Draftsman in the Coimbatore Division during the current official year is authorised. The Superintending Engineer will report the amount to be appropriated from the budget grant for temporary establishment.

2. Renewed application should be made next official year if the continued employment of the man be found necessary.

3. This sanction has been registered as Provincial No. 14 W. of 1883-84 and classified as Establishment, Temporary.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General Account.

READ—the following letter from D. C. GORDON, Esq., Examiner of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 1st May 1883, No. 28 W.:—

I have the honor to submit, for information and orders of Government, notes by the Assistant Examiner of his inspection of the office of the Consulting Architect.

Paragraph 4.—The practice of temporary transfers of materials from one work to another is ingenious, if not ingenuous, but should not be permitted to continue. Transactions in which the Consulting Architect is the principal only by virtue of his position as Superintendent of the School of Arts should not be brought on to his divisional books, but be adjusted direct by the division for which the supplies are furnished by the Superintendent.

Paragraph 5.—The attention of the Consulting Architect should be given to these remarks. In paragraph 2 of my letter printed with G.O., No. 2818 W., dated 26th October 1882, I pointed out the necessity of greater vigilance in the matter of the consumption of materials at site of the large works in hand. There is still great want of accuracy in all the initial accounts of daily labor, and the sooner attention is paid to the prescribed procedure the better. The attention of Government is invited to the entertainment of a storekeeper, whose pay is charged to Works instead of to Establishment. See also paragraph 12 of last report (G.O., No. 2818 W., dated 26th October 1882).

Paragraphs 6 *and* 7.—Attention to these remarks is necessary.

ENCLOSURE.

NOTES of Inspection by R. C. F. VOLKERS, Esq., Assistant Examiner, Public Works Accounts, of the Office of the Consulting Architect to Government, on the 25th April 1883, dated Madras, 30th April 1883.

C. Vincent, Esq., is officiating as Consulting Architect. He assumed charge of the office on the 16th instant. Mr. A. Stephens is the Accountant.

2. The office was last inspected on the 11th October 1882.

3. *Cash Book.*—The *book* number of cheques should be entered as well as the *serial* number, in accordance with Code, paragraph 190.

4. *Adjustment Book.*—Several *temporary* transfers in March were noticed of the value of materials, plant, &c., between works, so as to prevent allotments being exceeded. This practice is objectionable.

In cases where articles are obtained by the Consulting Architect from the Madras School of Arts for works* which are in some measure supervised by him, but the expenditure on which is recorded in the accounts of other divisions, it was noticed that the cost was first brought on to the Consulting Architect's books and afterwards transferred to the divisions concerned for final adjustment. It would be better if such items were adjusted *directly* between the divisions concerned and the School of Arts.

* Government House, Ooty. Palace, Madura.

5. *Work Abstracts.*—The two principal works in progress, viz., the Post and Telegraph Offices, are carried out *entirely* by daily labor, while piece-work, petty contract, and contract work are adopted in the execution of most of the remaining works. The ten-day reports of labor and materials and the work abstracts for the Post and Telegraph Offices are not altogether in a satisfactory condition. The sub-heads given in the ten-day reports do not in many cases agree with the nomenclature in the abstract estimates, and there is therefore a difficulty in ascertaining to which particular estimate sub-head charges are debitable.

With regard to the account of materials, the issues of brick, lime and such like items *only* are entered in the reports, and even these there is no attempt made to price and value in the proper manner. No regular account is kept to the materials at site used up on the works, and until this is done the ten-day reports will never show the actual issue of materials to sub-heads, nor will the register of works record accurately (as it is intended to do) the actual value of work done and the balance of materials at site.

It is stated that the materials at site were examined by the subordinate in charge of the works in January last, and that the value of materials then found to have been already put into the works, though still remaining at debit of materials at site, was adjusted by transfer to the sub-heads of work concerned. No subsequent examination has been made, and (as stated above) no account of issues kept, the subordinate stating that he has not the time at his disposal to devote to the task. It is observed, however, that a *storekeeper* is employed on and charged to the works (apparently without authority), and if, as is presumed must be the case, his duties consists of generally supervising the receiving, issuing and looking after materials, there should be no difficulty in his supplying the information necessary to complete the materials account of the ten-day reports, or preparing the monthly statement suggested in last report.

In those cases where works are executed by contract and petty contract or either, and there are besides transactions under materials at site, ten-day reports of receipts and issues must be sent in by the officer in charge of the works. The general impression seems to be that when *daily labor* is not employed in the execution of a work, no ten-day reports of *either* kind need be submitted; the value of receipts of materials entered in the work abstract being taken from bills, and issues from notes made on contract certificates and petty contract accounts by the officer in charge of the work. This procedure is unsafe, for bills might not be sent in and settled till some time after the receipt of the materials, and the result would be that the materials might be at sight of the work or actually put into it before their value had been taken into the work accounts.

6. *Half-yearly balance returns of stock* should always be sent in by sub-divisonal officers in charge of stock, in addition to the *monthly* balance return (Form No. 12); this remark applies also to tools and plant.

7. *Manufacture Account.*—This account was opened afresh in November last, and the balance then at *credit* was transferred to building materials, and subsequently to the works on which the manufactured articles were used. The next account is to be closed from the end of March last. There is a balance of Rs. 1,012-4-2 at *debit* of this, which should be transferred to the works (through "Building materials") on which the manufactured articles were used in the supplementary accounts for March.

8. The books and accounts not specially noticed above are in good order and up to date.

9. With regard to the points noticed in last report—

Paragraph 5.—This remark has special reference to the materials at site of the Post and Telegraph Offices. These were verified in January last (see paragraph 5 above).

Paragraph 10.—See paragraph 7 above.

Paragraph 11.—The balance at debit of stock is now well within the reserve limit.

Paragraph 12.—The pay of the men is now charged to temporary establishment.

ORDER—dated 9th May 1883, No. 1357 W., Public Works.

Communicated to the Consulting Architect to Government for information and guidance and for special attention to the points noticed by the Examiner of Public Works Accounts.

2. If the services of a storekeeper are found to be absolutely necessary in the division, the matter should be submitted for the consideration of Government, but the irregularity pointed out by the Examiner should cease.

From R. G. MACDONALD, Esq., Acting Examiner, Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 8th March 1883, No. 192 W.

I have the honor to inform you that I have received from the Accountant-General, Public Works Department, a copy of Government of India letter, No. 61 G., of 9th January 1883, to the address of the Secretary to Government, Public Works Department, Madras, regarding the entertainment of Surveyors against the Upper Subordinate establishment of this Presidency, and with reference to the orders contained therein to state that the pay and allowances of these men can now be passed by me only under temporary establishment, a provision to meet which should be made as soon as possible. I forward also copy of my letter, No. 195 A., dated 10th February 1883, to the Accountant-General, Public Works Department, and of his reply, No. 145 E., dated 20th February 1883.

ENCLOSURES.

COPY of letter from the Examiner, Public Works Accounts, to the Accountant-General, Public Works Department, dated Madras, 10th February 1883, No. 195 A.

With reference to your endorsement, No. 51 E., dated the 17th ultimo, communicating copy of letter from the Government of India to the Madras Government on the subject of the introduction of the nomenclature "Surveyors" on the permanent establishment of Public Works Department in Madras, I have the honor to state that the appointment of sixteen Surveyors* for the four Project Divisions chargeable to the grant for Protective Public Works proposed by the local Government (*vide* statement of establishment which accompanied the letter of this Government to the Government of India, No. 1697 W., dated 9th July 1881) was approved by the Government of India, Public Works Department, in letter, No. 1250 G., dated 23rd September 1881.

2. The appointment of nine Surveyors made by this Government have consequently been accepted by this office with reference to the orders above quoted, as also their salaries which are being claimed under permanent establishment in the monthly salary bills of the Project Divisions concerned.

COPY of letter from the Accountant-General, Public Works Department, to the Examiner, Public Works Accounts, dated 20th February 1883, No. 145 E.

In reply to your letter, No. 195 A., dated 10th February 1883, I have the honor to state that the Government of India in letter, No. 1250 G., dated 23rd September 1881, sanctioned an establishment of 185 Upper Subordinates only, and made no mention of Surveyors.

2. In my opinion the appointment of any Surveyors to the permanent establishment is unauthorized, and the orders of the Government of India conveyed under my endorsement, No. 51 E., dated 17th January 1883, should be acted upon.

With reference to G.O., No. 572, dated 3rd February 1882, I have the honor, by order, to state that, as upon a report received from the Brigadier-General, Eastern District, on his recent tour of inspection, it seems not improbable that the question of abandoning Vizagapatam as a station for troops is likely to be re-opened, it would be as well to hold in abeyance for the present the work of building a school for the Native Infantry at Vizagapatam, which formed the subject of this office letter, No. 1888, dated 6th March 1883.

READ—the following paper :—

G.O., dated 26th December 1882, No. 2242, Financial.

Read—the following letter from H. G. TURNER, Esq., Acting Agent to the Governor, to the Chief Secretary to Government, dated Vizagapatam, 27th September 1882, No. 689 :—

I have the honor to inform you that Sálúr is now very frequently visited by officials going to and from the hill tracts through the Potinghy Ghât. There is no building there for such travellers. Sálúr being at the foot of the hills travellers are often obliged to stop there for some days to arrange for transport, and in returning from the hills a prolonged halt is required to enable the traveller to let his servants and baggage come up before proceeding further. But there is no building there to serve their purpose. With the unanimous consent of the Local Fund Board of the Vizagapatam Circle I consequently moved the Revenue Board to sanction the erection of a travellers' bungalow at Sálúr at an estimated cost of Rs. 4,520. But the application has been rejected on the ground that it is now the declared policy of Government to discourage saddling Local Funds with the cost of travellers' bungalows mainly intended for Government officials.

A bungalow is very necessary at Sálúr, being on the Jeypore route, probably more necessary there than at any other place in the district, and Government have recognized the need of bungalows along the route by sanctioning them at Potinghy and Koraput.

I therefore strongly recommend that the Government will be pleased to sanction the construction of a bungalow at Sálúr from Provincial Funds. The plans and estimates prepared in the Local Fund Department have been forwarded to the Revenue Board, who will now be requested to submit them to you.

Proceedings of the Board of Revenue, Madras, dated 2nd November 1882, Miscellaneous No. 8409.

Order—dated 26th December 1882, No. 2242, Financial.

Approved and transferred to the Department of Public Works for consideration and disposal.

ORDER—dated 9th January 1883, No. 65 W., Public Works.

The estimate, amounting to Rs. 4,520, for constructing a travellers' bungalow with out-houses at Sálúr in the Vizagapatam District, is sanctioned for execution by the Public Works Department, and the amount is appropriated from the Provincial Reserve.

2. This sanction has been registered as Provincial No. 190 W. of 1882-83, and classified as Civil Buildings, Original Works.

Replies having been received from Superintending Engineers to this office Circular Memo.No.1549 C dated 21st.August 1882 the following instructions are now issued for the preparation and submission of the Statement of demands on the Reserve.

The Statement should be divided into the following heads.

(1) Incomplete Major works for which grants are required, in detail.

(2) Incomplete Minor works for which funds are necessary, in detail.

(3) Minor works grant for anticipated outlay during the year

(4) Repair Do. Do.

(5) Tools and Plant Do. Do.

(6) Establishment Temporary- in detail.

The demands under each Fund being shown separately.

2.

2. The Statement should be submitted within six weeks after the close of the official year, and to admit of this being done, Superintending Engineers should obtain by the 15th. April the Divisional Progress Reports for March containing information as to audited outlay to end of January; adjusted outlay for February; and the outlay for March as recorded in the cash and other books maintained in the Division. The total outlay for the year thus obtained would be nearly correct, and sufficiently so to fix the probable grant for the ensuing year. If the Divisional statements of demands are received in Superintending Engineers Offices by the prescribed date, there will be sufficient time for the compilation and scrutiny of the demands, before submitting the Circle Statements.

SIR,

I have the honor herewith to submit a statement of requirements for 1883-84 on account of incomplete works of this Circle as requested in your Circular No. 126 C of the 13th January 1883.

2. The statement does not include

(1) Incomplete works which are likely to be completed in the current official year with an expenditure of less than Rs. 500 as no appropriations are required for such works See para 2293-III of the P. W. Code.

(2) Police works costing above Rs. 1,000 below Rs. 2,500 for which Rs. 10,000 has been provided in the Preliminary Issue of the Provincial Budget for 1883-84 & for which a list will be submitted by the Inspector General of Police.

be entered in the Provincial
liminary Budget as class K.

A list of Police Works cost-
above Rs. 1,000 & below Rs. 2,500 re-
iring funds in this official year
ll be submitted to the Inspector
neral of Police.

I have the honor to be,
Sir,

Office Note from the Examr. P.W. Accts. 625 dated 27th.Octr. Do.

Replies having been received from Superintending Engineers to this office Circular Memo.No.1549 C dated 21st.August 1882 the following instructions are now issued for the preparation and submission of the Statement of demands on the Reserve.

The Statement should be divided into the following heads.

(1) Incomplete Major works for which grants are required, in detail.

(2) Incomplete Minor works for which funds are necessary, in detail.

(3) Minor works grant for anticipated outlay during the year

(4) Repair Do. Do. Do.

(5) Tools and Plant Do. Do.

(6) Establishment Temporary- in detail.

The demands under each Fund being shown separately.

2.

Compiled

2. The Statement should be submitted within six weeks after the close of the official year, and to admit of this being done, Superintending Engineers should obtain by the 15th. April the Divisional Progress Reports for March containing information as to audited outlay to end of January; adjusted outlay for February; and the outlay for March as recorded in the cash and other books maintained in the Division. The total outlay for the year thus obtained would be nearly correct, and sufficiently so to fix the probable grant for the ensuing year. If the Divisional statements of demands are received in Superintending Engineers Offices by the prescribed date, there will be sufficient time for the compilation and scrutiny of, the demands, before submitting the Circle Statements.

Office Note from the Examr. P.W. Accts. 625 dated 27th. Octr. Do.

Replies having been received from Superintending Engineers to this office Circular Memo.No.1549 C dated 21st. August 1882 the following instructions are now issued for the preparation and submission of the Statement of demands on the Reserve.

The Statement should be divided into the following heads.

(1) Incomplete Major works for which grants are required, in detail.

(2) Incomplete Minor works for which funds are necessary, in detail.

(3) Minor works grant for anticipated outlay during the year

(4) Repair ... Do. ... Do. ... Do.

(5) Tools and Plant ... Do. ... Do.

(6) Establishment Temporary- in detail.

The demands under each Fund being shown separately.

2.

2. The Statement should be submitted within six weeks after the close of the official year, and to admit of this being done, Superintending Engineers should obtain by the 15th. April the Divisional Progress Reports for March containing information as to audited outlay to end of January; adjusted outlay for February; and the outlay for March as recorded in the cash And other books maintained in the Division. The total outlay for the year thus obtained would be nearly correct, and sufficiently so to fix the probable grant for the ensuing year. If the Divisional Statements of demands are received in Superintending Engineers Offices by the prescribed date, there will be sufficient time for the compilation and scrutiny of the demands, before submitting the Circle Statements.

Sir,

I have the honor to request that a sum of Rs 2250/- may be placed at my disposal under Provincial Funds for the work of adding a Second storm and verandah to the Chepauk Offices.

The work was not included in my statement of incomplete works owing to the expenditure to end of March 883 coinciding with the estimate, but as a large recovery of material temporarily debited has since been transferred, an allotment of fund under the circumstance becomes necessary.

The temporary transfer of material was of course irregular, vide Examiner Inspection Notes in P. Mo. Gr. No. 135

With reference to the G.O. No. 1076W of the 11th April 83 on the subject of placing at the disposal of the Officers Commanding Divisions & Districts certain sums out of the grant of Rs 22,207 for Minor Works, I have the honor to inform you that the figures as per margin show the expenditure during the past two official years on minor new works in this station, the average of which may be set down at Rs 5000 which sum can be placed at the disposal of the Brigadier General Commanding the Ceded Districts, if the Government so desire it, but I would take the liberty of pointing out that it would appear more appropriate for the Commanding Officers to have the control and disposal of the sum annually required for the Whitewashing & Petty Repairs to doors windows &c of the Barracks which I learn

from the past two years expenditure amounts to about Rs 7000 and which work can very well be executed by the men of the British Regiment. The above sum could be placed entirely at the General's disposal and one Department would thus be saved the anomaly of being responsible for work partly estimated for by the Barrack Master and partly by the D.P.W & possibly finally executed by Regimental Agency. On the other hand the control and disposal of the money for minor new works should in my opinion be vested only in the person of the Divisional Officer, subject to the approval of the General of the Division & of the Superintending Engineer of the Circle.

2. The Estimates for the Cauvery & Vennar regulators sanctioned in Rly. No. 208 dated 6th March 1882, provide Rs. 27,063 for Tools and Plant. Of this, Rs. 7931, at 12½ per cent on the estimate for works will be required for General Tools and Plant, leaving Rs. 19,132 for Special Tools and Plant, for which detailed estimates have not yet been submitted by the Supg: Engineer for sanction.

3. In the Irrigation Budget Estimates for the current year no provision for Special Tools and Plant required for the Cauvery and Vennar regulators has been made, as the Superintending Engineer did not apply for any money on this account in his Budget Estimates.

4. The Superintending Engineer has been requested to furnish this office as soon as possible with an Estimate for the

Special Tools and plant required, and to report whether the amount required on this account for the current year, can be met by reappropriations.

Replies having been received from Superintending Engineers to this office Circular Memo.No.1549 C dated 21st.August 1882 the following instructions are now issued for the preparation and submission of the Statement of demands on the Reserve.

The Statement should be divided into the following heads.

(1) Incomplete Major works for which grants are required, in detail.

(2) Incomplete Minor works for which funds are necessary in detail.

(3) Minor works grant for anticipated outlay during the year

(4) Repair ... Do. ... Do.

(5) Tools and Plant ... Do. ... Do.

(6) Establishment Temporary- in detail.

The demands under each Fund being shown separately.

2.

Ex 1-6
Ex 4/6 R 7/6

2. The Statement should be submitted within six weeks after the close of the official year, and to admit of this being done, Superintending Engineers should obtain by the 15th. April the Divisional Progress Reports for March containing information as to audited outlay to end of January; adjusted outlay for February; and the outlay for March as recorded in the cash and other books maintained in the Division. The total outlay for the year thus obtained would be nearly correct, and sufficiently so to fix the probable grant for the ensuing year. If the Divisional statements of demands are received in Superintending Engineers Offices by the prescribed date, there will be sufficient time for the compilation and scrutiny of the demands, before submitting the Circle Statements.
