With reference to your endorsement No. 1060 C dated 4th Instant, on letter from the Ex-aminer P.W. Accounts, No 11 EW of 1st idem, I have the honor to inform you that the two estimates in question for repairing the roofs of the east and west lines of the M. J. Extract para 282 of the Pay Code:-

The grant of hutting money by the State is to be viewed only as an assistance conceded by the Government to aid native soldiers in the building and repair of their lines. It is in no way contemplated to relieve them altogether from the obligation of providing their own shelter, the liability to this having always been one of the conditions of service in the native Army. The only circumstances under which the Government will take upon itself the whole expense of providing quarters for native troops are when such troops may be quartered within fortified posts, or at places where details are only temporarily detached and often relieved; but all such cases must be referred to Government to be decided on their own merits.
