READ—the following letter from J. STURROCK, Esq., President of the Local Fund Boards, Canara Circle, to the Secretary to the Board of Revenue, dated Mangalore, 9th May 1883, No. 687:—

Referring to paragraph 4 of the Proceedings of the Board of Revenue, dated the 13th March 1883, No. 732, I have the honor to subjoin a list of the new Combined Schools to which it is proposed to allow stipends during the current year:—

1. School at Konu in Coondapur Taluk.
2. ,, at Kallianpur in Udipi ,,
3. ,, at Kadandale in Mangalore Taluk.
4. ,, at Hattiangadi in Coondapur ,,
5. ,, at Nandikur in Udipi Taluk.
6. ,, at Kukkunje in do.
7. ,, at Manipur in do.
8. ,, at Veerakhamba in Kasaragód Taluk.
9. ,, at Kajikar in Mangalore Taluk.

RESOLUTION—dated 6th June 1883, No. 1631.

The Local Fund Budget of the Canara Circle for 1883-84 is printed and circulated herewith to all officers concerned.

2. *Paragraph* 2 *of the Government Order.*—The President will notice that a report is required as to the manner in which the Provincial grant of Rs. 25,000, made in 1882-83 for roads, was expended.

3. *Paragraph* 3 *of the Government Order.*—With reference to the remarks in this paragraph that in his letter, dated 20th February 1882, No. 243, the President estimated the amount at the disposal of the Local Board for New Works at Rs. 20,000, and that this sum has since been raised by the creation of two new toll-gates to Rs. 24,269, the Board observe that the President arrived at the former sum by anticipating Rs. 26,000 under the head Receipts from Tolls (*vide* statement in the margin of paragraph 7 of the President's letter referred to and recorded in G.O., dated 31st May 1882, No. 396, Financial Department); that almost the same amount, viz., Rs. 26,400, is estimated as the toll receipts for 1883-84; and that, therefore, the amount available for new roads and the Road Fund Reserve should be held to be only Rs. 20,400. The figure adopted by Government for new works will, however, be retained in the budget, and the President will propose how he wishes to distribute the amount on the three new works in Part I. It is observed that the estimate for the first work has been sanctioned in G.O., dated 27th November 1882, No. 3122, Public Works Department. As regards the retrenchment ordered to be made under the head Road Fund Reserve, the Board note that the original figure, Rs. 12,840, was calculated at 10 per cent. of the estimated receipts, including the Provincial grant of Rs. 25,000. As, however, this amount has been disallowed, the reserve at 10 per cent. of the receipts is reduced to Rs. 10,340, and this sum will be entered in lieu of the figure (Rs. 8,000) suggested by Government. The excess will correspondingly reduce the balance from Rs. 4,330 to Rs. 1,990. The President will report separately, as directed by Government, as regards the special aid for roads required from Provincial Funds. His attention is also drawn to the remarks as regards the collections under Land-cess.

4. *Paragraph* 4 *of the Order.*—Early steps should be taken for the transfer of the Normal School to the Local Fund Board. The Director of Public Instruction will now be furnished with a copy of G.O., dated 17th August 1882, Mis. No. 964.

5. With reference to paragraph 3 of Board's Proceedings, dated 13th March 1883, No. 732, read in the Government Order, Rs. 1,000 have been entered as receipts under the head Provincial Grant for Schools. The details as to the expenditure under Grant II, as settled in the above Proceedings, have been adopted in the budget now circulated. With reference to the President's letter, dated 9th May 1883, No. 687, above read, he will in due course furnish particulars as to the cost of each school therein specified according to the detail required in Statement No. III, a lump sum of Rs. 918 being now provided for the schools.

2. *Regular Estimate for* 1882-83.—The regular estimate, as revised by the Board of Revenue, is accepted. The large increase over the budget under New Works—Communications, is stated to be due partly to subsequent allotments sanctioned by the Board of Revenue on account of works left incomplete at the close of 1881-82, and partly to new works undertaken in order to utilize the special Provincial grant of Rs. 25,000 within the year. A full account of the manner in which this grant has been expended should be given in the report for the year.

	RS.
Budget	14,000
Regular Estimate	61,540

3. *Budget Estimate for* 1883-84.—The estimated receipts of 1883-84, excluding opening balance and Provincial grants, show an increase of Rs. 560 over the regular estimate. Credit is taken for a Provincial grant of Rs. 25,000 for roads, and of Rs. 3,000 for general purposes. As observed by the Board of Revenue, the budget should have been prepared without reference to any grant which might be anticipated from Provincial Funds; and the President has assigned no satisfactory reason for adopting any other course. It is observed that the provision made for New Works—Communications, in the budget is Rs. 36,000, while Rs. 12,840 are allotted as a Road Fund reserve against Rs. 8,640 in 1881-82. From paragraph 7 of the President's letter, dated 20th February 1882,* it is gathered that the annual amount at that time at the disposal of the Local Board for new works was Rs. 20,000, and this has since been raised by the creation of two new toll-gates to Rs. 24,269 (G.O., 23rd January 1882, No. 140, Financial, paragraph 3). In round numbers, therefore, Rs. 24,270 would appear to be the whole amount available from the resources of the circle for new roads and Road Fund Reserve, and the allotments under those heads will accordingly be reduced to Rs. 16,270 and Rs. 8,000, respectively. The Government are not unprepared to consider an application for a special grant for the year from Provincial Funds, but the reasons for such application must be distinctly set forth, as well as the objections assumed to exist to the establishment of new toll-gates on important lines of communication, such as the Charmadi and Agumby Ghât Roads. The land-cess is expected to yield Rs. 3,000 more than the regular estimate, but it is noted that, as regards the current demand, the anticipated collections amount only to 78·9 per cent., an estimate which should certainly be exceeded. With regard to the General Fund, it does not appear possible to appreciably reduce the estimate of expenditure, and at the same time provide an adequate reserve, and the special grant of Rs. 3,000, for which credit has been taken, will accordingly be allowed to stand.

* Printed in G.O., 31st May 1882, No. 396, Financial.

4. Under Charges, Public Works, three new works are proposed, only one, or at most two, of which can now be undertaken, unless sufficient cause is shown for a grant-in-aid from Provincial Funds. No expenditure should be incurred on any of these works until the estimate has been duly sanctioned. Ample provision is made in the budget for repairs to communications. The cost of the Local Fund engineering establishment is estimated at Rs. 18,000, which is nearly 23 per cent. of the total outlay on works. It is stated that no portion of this amount is debitable to the General Fund, as there are no works to be executed from that fund by the agency referred to. The reduction in the number of Inspecting Schoolmasters, in view of the contemplated appointment of an Additional Deputy Inspector of Schools, is approved. It is observed, however, that the District of South Canara has recently been constituted a separate Inspector's Division, and in these circumstances it will be for the Director of Public Instruction to consider whether the appointment of another Deputy Inspector is any longer required. It is to be hoped that the transfer of the Normal School, which was sanctioned so long ago as G.O., 17th August 1882, No. 964, will take place at an early date, and the grant now sanctioned from Provincial Funds should be understood to be contingent on the speedy fulfilment of this condition. It would appear that the Government Order in question was never communicated by the Board of Revenue to the Director of Public Instruction. The attention of the Local Board will be specially drawn to the concluding remarks in paragraph 6 of the Director's letter printed in the second of Board's Proceedings read above.

5. The enhanced provision for dispensaries and sanitation is satisfactory, but is only possible in consequence of the aid afforded by the Provincial grant. A sum of Rs. 3,350 is set apart as a General Reserve, and the General Fund closes with a small balance of Rs. 350.

6. With these remarks, the Right Honorable the Governor in Council passes the Budget Estimates of the Canara Circle for 1883-84.

OFFICE NOTE.

To W.

I submit for your orders letter from Mr Vincent strongly recommending for consideration the case of Mr Lewis, Head Draughtsman & Estimator of Consulg: Architect's office.

Mr Lewis is I believe an exceptionally superior draughtsman & is also manager of the C. A's. Office with all the details & administration of which he is conversant.

His pay is Rs. 145/ a month, the highest he can draw in the capacity of draughtsman to C.A.—

Mr Vincent recommends his being graded as a clerk of the 1st class, 3d Grade, the pay of which runs from Rs. 200 to 250.

I think this promotion of a very meritorious man might well be sanctioned.

CS. DJW 14/6

Mr Christopher Secretary

is quite as worthy of promotion as was Mr Baldrey, lately in the office of the Chief Engineer for Irrigation but now under Colonel Montgomerie R.E.

4. Mr Baldrey has been graded as a Clerk, and if the same course is practicable as regards Mr Lewis and approves itself to you, I would suggest his being graded as a Clerk of the 1st Class, 3d Grade.

I have the honor to be

testimonials given to him by the different Officers under whom he had the honor of serving, copies of which are appended.

13. Your Memorialist is well aware that the Code restricts the salaries of draughtsmen; but he is at the same time aware that there have been instances in which Government have been pleased to promote men who deserved consideration at their hands, and in support of this statement he begs respectfully to cite the following cases.

(a) The late Colonel Boileau, Supdg: Engineer 4th Division had a manager in his office of the name of Francis; in his recommendation Mr. Francis was graded as a Superior and was both Office Manager and Supervisor at the Residency.

(b) Another Mr. Francis was a Foreman of Mechanics in the P. W. D. Workshops. He was brought on the strength of the P. W. Deptt: as a Supervisor, with a view to increasing his emoluments and was attached to the Workshops (vide G. O. P.W.D No 1266 dated 20th May 1876.)

(c) Mr. C. Baldrey who held the post of head draughtsman to the Chief Engineer for Irrigation some years after your Memorialist's transfer and who was exempted from passing the test for admission to the Public Service, was recently promoted to the post of Manager of the new "Tank Division" as Clerk 2nd class 1st grade.

14. Your Memorialist has cited these cases

letter No 10 dated 22d April 1881 declined to sanction such an appointment.

10. That at the time your Memorialist joined his present post the Consulting Architects powers were limited to those of an Executive Engineer. That now a Sub-division has been added, and the Consulting Architect is vested with all the powers of a Superintending Engineer. That the work of his office has increased in the same ratio. That your Memorialist has himself to prepare all the Estimates for Original works as well as for Standard designs, without any assistance whatever. That the detailed drawings for works, many of them of an elaborate and exceptional nature are mostly, if not wholly, prepared by your Memorialist, under instructions from the Consulting Architect. Your Memorialist respectfully draws attention to the fact that the detailed working plans of the Post and Telegraph Office alone, irrespective of the general plans, have reached to 136 in number up to date.

11. That your Memorialist in addition to the above has had the general management of the Office: he has to supervise the work of the draughtsmen and also to carry on the clerical work of the office such as is usually done by the Head Clerks or Managers of the Superintending Engineers Offices.

12. That your Memorialists statements are borne out by the various testimonials

"With the able assistance of Mr. Lewis the "Consulting Architect prepared for Mr. "Fergusson certain drawings of the Seven "Pagodas which are alluded to in the preface "to his last Book on the Cave Temples of "India in the following terms:"—

"The woodcuts of the Raths at "Mahavallipur are taken from a beautiful "series of drawings of these curious monoliths "prepared for me at his own expense, by "Mr. R. F. Chisholm of the Public Works "Department at Madras. I only regret that "owing to various untoward delays they "reached me so late that I was not "able to avail myself of them to a greater "extent than I have done."

8. That in 1876 when Colonel Ross Thompson was officiating as Consulting Architect, he addressed the Secretary to Government P. W. D. with a view of procuring horse allowance for your Memorialist who was then engaged in preparing plans of some buildings in Madras, but that this was deemed inadmissible as your Memorialist did not belong to the Executive Branch. But it was stated that it was likely your Memorialist would be placed in charge of the Madura Palace Works.

9. That in his letter No. 715, dated the 15th March 1881 Mr. Chisholm brought your Memorialists' services prominently to the notice of Government, and recommended that he should be brought on the strength of the P. W. D. Executive Establishment as a "Supervisor", but the Chief Engineer in his letter

to Madura and made plans of the vast pile of buildings known as "Tirumal Naicks Palace". The manner in which your Memorialist carried out the work entrusted to him is recorded in G. O No. 444 P. W. D. dated 16th February 1875. As a mark of appreciation of the work rendered by your Memorialist, the Consulting Architect, with the approval of Government, raised Memorialists' salary to Rs. 145, the maximum allowed for the appointment he now holds.

5. That in January 1881 your Memorialist proceeded to Chendragiri for the purpose of preparing plans of the old Palace there. His drawings were placed in the Fine Arts Exhibition of 1881 at Madras and he had the honor of receiving the prize for the best Architectural drawing, presented by His Excellency the Governor of Madras.

6. That all the works enumerated above were carried out by your Memorialist single-handed, only a lascar accompanying him on each occasion, and his time being limited in each case by the Consulting Architect.

7. That during the Christmas vacation of 1879, your Memorialist, at the request of Mr. Chisholm, proceeded to the Seven Pagodas and prepared plans, Elevations, and Sections of two of the most important monoliths there. In reference to this work, in his General Administration report on Architecture for 1879-80, submitted to the Chief Secretary to Government with letter No. 465 dated 28th October 1880, Mr. Chisholm says;—

2. That on the 1st March 1873, at the special request of Mr. R. F. Chisholm, Consulting Architect to the Government of Madras, Memorialist was transferred to his present post on a salary of Rs. 120 per mensem.

Vide G. O. No. 822 P. W. D. dy. 15 March 1873.
