Account.

READ—the following letter from J. W. RUNDALL, Esq., Superintending Engineer, Second Circle, to the Chief Engineer, Public Works Department, dated Bezvada, 25th June 1883, No. 264 S.G. :—

I have the honor to forward, for your sanction, an estimate for Tools and Plant (Provincial) required for the Sangam Project Division, for which I request the favor of early sanction.

2. Stone-breaking hammers were omitted from the estimate forwarded with my No. 1273 S.G. of the 30th March 1883, and the extra number of stone-cutter's chisels is stated by Captain Campbell, R.E., to be absolutely necessary.

3. The allotment applied for in my No. 103 S.G. of the 10th May 1883 has not yet been granted, and I would request the favor of early orders being passed.

ORDER—dated 9th July 1883, No. 1923 W., Public Works.

The estimate, amounting to Rs. 925, for the purchase of stone-cutting chisels and stone-breaking hammers, required in the Sangam Project Division, is sanctioned against the allotment to the division under Tools and Plant.

2. This sanction has been registered as Provincial No. 68 W. of 1883-84 and classified as Tools and Plant.

Account.

READ—the following letter from J. W. RUNDALL, Esq., Superintending Engineer, Second Circle, to the Chief Engineer, Public Works Department, dated Masulipatam, 30th March 1883, No. 1273 S.G.:—

I have the honor to forward, herewith, an estimate for Tools and Plant, Provincial, for the Sangam Project Division, and to request that, under the circumstances explained below, sanction may be accorded to the same, and that the grant to this division may be revised as follows:—

	Present.	Required.
	RS.	RS.
New supplies	4,500	6,500
Repairs and carriage	1,500	900

An increased grant of Rs. 2,000 is required for new supplies, Rs. 600 of which can be transferred from the existing grant for repairs and carriage.

2. I had requested the Executive Engineer to include in the estimate of Tools and Plant, which received sanction in G.O., No. 220 W., of the 19th January 1883, all known wants up to the end of the current official year.

3. Captain Campbell states that he did include all that he foresaw to be required, but that subsequently, under pressure of work, he was obliged to order by telegraph from Madras stone-cutters' hammers and stone-breaking hammers.

4. The Norton's Tube Wells were ordered last July, and should have been included in the previous estimate.

5. The mathematical instruments were ordered last November, and the indent was passed by me; these should have been included in the estimate forwarded by the Executive Engineer in December.

6. The jumpers were ordered emergently, as during Colonel Hasted's inspection of the Kanigiri escapes in January last, he ordered larger bore holes and blasts to be tried.

7. I am aware that it is late in the year to apply for an increased grant, but as in the case of stone-cutting hammers, stone-breaking hammers, jumpers, and files, the necessity for immediate purchase is, I think, sufficiently explained by the Executive Engineer, I trust the estimate may receive sanction, and the Examiner may be authorized to adjust the expenditure already incurred.

ORDER dated 10th April 1883, No. 1067 W., Public Works.

The estimate, amounting to Rs. 1,625, for Tools and Plant, supplied to the Sangam Project Division, is sanctioned.

10TH APRIL 1883, No. 1067 W., PUBLIC WORKS.

2. It being now too late to effect the reappropriation of funds suggested by the Superintending Engineer, the Examiner, Public Works Accounts, is authorized to admit the expenditure incurred last official year against this estimate.

This sanction has been registered as Provincial No. 6 W. of 1883-84 and classified as Tools and Plant.
