GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads,
Military Works.

Read—the following papers:—

From Lieutenant-Colonel R. C. STEWART, Quartermaster-General, to the Secretary to Government, Public Works Department, dated Fort St. George, 19th June 1883, No. 4388.—(Through the Secretary to Government, Military Department.)

All vacant Military buildings being under the control of the Military authorities (vide paragraph 1328, Public Works Code), and their sanction being necessary before such buildings can be occupied, I have the honor, by order, to invite a reference to paragraphs 909 and 1442 of the Code, which, as they now stand, leave it to be inferred that these buildings are under the control of the Public Works Department, and accordingly to suggest that these paragraphs be added to and altered as follows:—

Paragraph 909.—After the word "vacant" in the fifth line, add "and the Military authorities sanction the arrangement."

Paragraph 1442.—For "Executive Engineer" in the third line, read "Barrack Master or other Military Officer in charge of them."

No. 5523, Military.

Forwarded.

OOTACAMUND,
22nd June 1883.

(Signed) E. L. HANFEN, Colonel,
Secretary to Government.

From Colonel R. H. SANKEY, C.B., R.E., Chief Engineer, Public Works Department, to the Quartermaster-General, Madras Army, dated 25th June 1883, No. 178 E.

With reference to your letter, No. 4388, dated 19th June 1883, I have the honor to inform you that, so far as I can judge, there would appear to be no objection to the proposed modifications of the Public Works Code further than on the ground that a building may be in need of urgent repair, and that the Executive Engineer might consider it desirable, on a quarter being vacated, to take advantage of its being empty to do the needful work.

2. After the words which it is now suggested should be added to paragraphs 909 and 1442, a proviso to the following effect may perhaps be inserted: "provided the Executive Engineer has not given notice that he will require to repair the quarters before they are re-occupied."

3. On learning your opinion as to this suggestion, further requisite action will be taken.

From Lieutenant-Colonel R. C. STEWART, Quartermaster-General, to the Chief Engineer, Public Works Department, dated Fort St. George, 7th July 1883, No. 4910.

With reference to your letter, No. 178 E., dated 25th June 1883, I have the honor, by order, to state that, on the matter being reconsidered, it is thought that the requirements would be better met by the following addition being made to paragraph 909, Public Works Code, in substitution of that suggested in this office No. 4388, dated 19th June 1883:—

Paragraph 909.—After the words "who will" in the last line but one, add "if he does not require to repair the quarters before they are re-occupied," and after "provided" in the last line, add "when the Military authorities will take the necessary steps to provide it if available."

2. There is no objection to the proviso suggested in paragraph 2 of your letter under reply being added to the words which it was suggested in this office letter above mentioned should be substituted for the words "Executive Engineer" in paragraph 1442 of the Code.

ORDER—dated 16th July 1883, No. 1977 W., Public Works.

The Examiner, Public Works Accounts, will frame the requisite Standing Orders to carry into effect the suggestions of His Excellency the Commander-in-Chief.
