READ—the following letter from Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 5th July 1883, No. 1344:—

I have the honor to submit, for sanction, a plan and estimate of Rs. 4,590 for forming a ride on the west side of the South Beach Road at Chepauk from the Napier Bridge to the south end of the Senate House, and for improvements in the east approach to the Senate House.

- 1 Detailed Estimate with Report and Specification.
- 2 Abstract Estimates.
- 1 Plan (Tracing).

2. I have to observe that there are not funds available to allow of this work being carried out. There is an allotment of Rs. 5,000 in the Budget, Part I, Class A, Item No. 69; but it is calculated that Rs. 3,000 are required for the current expenditure under the supervision of Mr. Whiteside, the Member of the Revenue Board in charge of the Chepauk Park, and in my letter, No. 1277, of the 28th ultimo, I have been obliged to recommend the transfer of the balance, Rs. 2,000, in order to provide for unfinished works of last year.

ORDER—dated 24th July 1883, No. 2026 W., Public Works.

The estimate, amounting to Rs. 4,590, for forming a ride on the west side of the South Beach Road near Chepauk, is sanctioned for execution when funds are available.

2. This sanction has been registered as Provincial No. 76 W. of 1883-84 and classified as Miscellaneous Public Improvement, Original Works.

No. 282.

READ—the following papers:—

From Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 24th July 1882, No. 1546.

With reference to your memorandum, No. 2045, of the 3rd September 1881, to the Superintendent of Works at the Presidency, I have the honor to submit for sanction two estimates for modifying the

bridges on the South Beach Road at Madras—

	RS.
1. Bridge south of Ice House. Widening the road, closing the existing arch with a tunnel in the centre	1,160
2. Bridge near St. Thomé. Do. do. do.	1,520

2. Funds are available from the sum of Rs. 15,000 provided in the budget, Item No. 49, for alterations and improvements of bridges. The third old bridge on the South Beach Road will be dealt with by Mr. Chisholm's estimate, which has been sanctioned in G.O., No. 1700 W., of the 6th July 1882.

No. 548 E.

Transferred to the Consulting Architect for disposal in connection with the estimate sanctioned in G.O., No. 1700 W., dated 6th July 1882. Should the present estimates be required, they can only be sanctioned as supplemental to the larger estimate.

(By Order.)

No. 282-A.

From R. F. CHISHOLM, Esq., Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepauk, 9th January 1883, No. 821.

I have the honor to return the papers regarding the conversion of the two existing bridges south of the Ice House into culverts.

I would suggest that the culvert nearest to St. Thomé should be a double culvert. Although a single culvert would be capable of passing off the heaviest rainfall known in Madras in 24 hours, the least accident or blocking of the passage might flood an area of 1,500,000 square feet.

No. 282-B.

From Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chapauk, 26th January 1883, No. 3710.

The estimate for the bridge nearest St. Thome has been revised and the papers are returned. If the estimates are sanctioned at once, both the works may be completed in the current year.

2 Abstract Estimates.
2 Reports.

No. 283.

Order—dated 30th January 1883, No. 331 W., Public Works.

The undermentioned estimates are sanctioned as supplemental to the one sanctioned in G.O. No. 1700 W., dated 6th July 1882—

Amount of Estimate.	Register No.
(1) Constructing a double culvert in lieu of the existing bridge near St. Thome on the Beach Road ...	2,055 Provincial No. 218 W. of 1882-83.
(2) Substituting a frame for the bridge near the Tea House ...	1,160 Provincial No. 219 W. of 1882-83.
Total ...	3,215

2. Rs. 2,680 are provided for the work in the current year's Provincial Budget, and the balance required, Rs. 535, is appropriated from the Provincial Reserve.

3. These sanctions have been registered as Provincial Nos. 218 W. and 219 W. of 1882-83 and classified as Miscellaneous Public Improvement, Original Works.

As per the 1700 in 1/11th July 1902, and in 90 to 30
of the 30th January 1903, estimated expenditure of
4800, was sanctioned for widening the South
beach promenade, and the present estimate
for forming a tide, if a part of the scheme
already sanctioned, should be sanctioned as
supplemental to the sanction referred to above.
In the budget for 1903-04, Rs. 10,500 was
provided for the beach promenade, but this sum
is insufficient to complete the scheme already
sanctioned - and as there are no funds under
the 1903-04 budget. The 1903-04 should have
and proposals for the completion of budget provided
the previous sanction are put up.

S. W.

Two estimates for the estimate
are apparently correct; the only
point I have doubt about is the
kind of boundary employed for
separating the roadway from the
new side. By the Estimated
arrangement there will be a drop
of 4" into the latter. This
seems reasonable whatever the leveling
should not be kept quite flush
with road and side roadway
to divide one from the other -
slightly shallower than others
used in that case common

I do not understand why Mr. Whiteside
should have been given command of so much as
Rs 2000 out of the total grant of Rs 5000 and I
should like to know precisely how the matters
stand as it seems to me there has been some mistake
here - I suppose there will be no more to be said in branch the
works must be as take funds are available to estimate
and the length of the work will be

The Estimate for paving on
side on South Beach Road is now
sent up. It amounts to Rs. 4590.
If the works provided meet your
views the Estimate might be
sent for future execution when
funds are available. At present it
is impossible to find funds for it
& I see no likely prospect of finding
an estimate for even a portion of it.
