25th JULY 1883, No. 2030 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads
Civil Works.

READ—the following letter from Colonel J. BEATTY, R.E., Superintending Engineer, Fourth Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 14th July 1883, No. 287:—

With reference to G.O., No. 1075 W., of 11th April 1883, I have the honor to forward the Executive Engineer's report on the removal of stone from the rocky islet in question. I quite agree with him that it could not possibly affect the erosion of the beach; and the quantity of stone taken was, besides, insignificant.

ENCLOSURE

From R. DAVIDSON, Esq., Executive Engineer, Coimbatore Division, to the Superintending Engineer, Fourth Circle, dated Coimbatore, 12th July 1883, No. 683.

With reference to your letter, No. 473 C.I., of 7th July 1883, I have the honor to state that the removal of laterite from the rocky islet with which the sea-wall is connected cannot in any way assist the erosion of the beach south of the islet.

2. The removal of laterite has not been carried out to any great extent; it was first started at the suggestion of Colonel Mead, who considered that much saving would be effected by getting the material for the wall so close to the work.

ORDER—dated 25th July 1883, No. 2030 W., Public Works.

Communicated to the Master Attendant with reference to G.O., No. 1075 W., dated 11th April 1883.
