GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

No. 189.

Read—the following papers :—

G.O., dated 16th December 1882, No. 6748, Military.

From Lieutenant-Colonel M. C. PERREAU, Officiating Controller of Military Accounts, to the Acting Secretary to Government, Military Department, dated Fort St. George, 7th December 1882, B.

Letter, No. 287, of 6th November 1882, from the Surgeon-General with the Government of Madras, asking for further funds to complete an engine-shed and provide water-supply with reference to Proceedings of Government, No. 1190, of 28th February 1881.

* Docket, No. 6346, of 6th December, from the Surgeon-General with the Government of Madras, with attachments.

In fowarding the marginal papers, I have the honor to attach subsequent correspondence* consequent on a suggestion from this office that the Seven Wells supply (maintained by the Military Department) should be utilised in lieu of Red Hills water.

From W. R. CORNISH, Esq., F.R.C.S., C.I.E., Surgeon-General with the Government of Madras, to the Secretary to Government, Military Department, dated Madras, 6th November 1882, No. 287.—(Through the Controller of Military Accounts.)

In continuation of my letter, No. 62, dated 16th February 1881, printed in Proceedings of Government, Military Department, No. 1190, of 28th February 1881, I have the honor to submit, for the favorable consideration of the Right Honorable the Governor in Council, the enclosed letter from the Principal Medical Storekeeper, forwarding two estimates and plan, received from the Public Works Department, for construction of a protecting shed for the powdering mill and for the supply of water to the boiler and fire-engine at the Madras Medical Stores, costing Rs. 680 and 228-12-11, respectively; total Rs. 908-12-11.

2. The Storekeeper reports that the erection of the boiler and engine has already been completed, and the other portions of the work are in an advanced state. I have therefore to solicit the sanction of Government for the allotment of funds for the purposes mentioned in paragraph 1.

Enclosures.

From Lieutenant W. L. C. BADDELEY, R.E., General Superintendent, Public Works Workshops, to the Principal Medical Storekeeper, dated Madras, 28th November 1882, No. 2039 W.

I have the honor to return the letters received with your No. 2427, of 16th November 1882, and to state that the cost of laying on water from the Seven Wells to the boiler-room and fixing a fire-plug at the Medical Stores will be approximately about Rs, 330.

I cannot recommend a connection being made with the existing pipe, as in case of fire the supply would be found insufficient, and moreover the pipe has been down for so many years that it must before long require renewal.

As the Seven Wells establishment is maintained by the Military Department, it would, I think, be better to use that water in lieu of Red Hills. The difference between the estimates is due to the difference in the length of piping required.

From Surgeon-Major R. PEARSE, Principal Medical Storekeeper, to the Secretary to the Surgeon-General with the Government of Madras, dated Madras, 2nd December 1882, No. 2550.

Reference.– Your No. 5937 of 14th ultimo, giving cover to letter, No. 2918, of 8th ultimo, from the Controller of Military Accounts, herewith returned.

Has the honor to enclose the reply * of the General Superintendent of the Public Works Workshops regarding the supply of water for the boiler and fire apparatus of this depôt, from which it appears that the Seven Wells water can be utilised for the purpose at an estimated initial cost of Rs. 330.

* No. 2039 W., dated 28th November 1882.

No. 6346.

Forwarded to the Controller of Military Accounts, with reference to his letter, No. 2918, dated the 8th ultimo.

Madras,
6th December 1882.

(Signed) W. R. CORNISH,
Surgeon-General with the Government of Madras.

Order—dated 16th December 1882, No. 6748, Military.

Transferred to the Public Works Department, in continuation of Proceedings of Government, No. 1190, dated 28th February 1881, with the intimation that in the Military Department it is thought advisable to utilise the Seven Wells water.

(By Order.)

(Signed) E. L. HANKIN, Colonel,
Acting Secretary to Government.

To the Public Works Department, with Plan.

No. 78 C.

Referred to the General Superintendent, Public Works Workshops, who will submit an estimate in proper form for laying on water from the Seven Wells to the boiler-room and fixing a fire-plug at the Medical Stores, Madras.

2. It is observed that in G.O., No. 1548 W., dated 20th June 1881, an estimate of Rs. 685 was sanctioned for constructing a roof over the boiler and engine rooms at the Medical Stores, and the estimate of Rs. 680 now submitted is apparently for the same work. The General Superintendent will state whether the present estimate is supplemental to the former.

(Signed) C. C. RAWSON, Captain, R.E.,
Ag. Under Secy. to Govt., P.W.D.

10th January 1883.

No. 189-A.

From Lieutenant W. L. C. BADDELEY, R.E., General Superintendent, Public Works Workshops, to the Deputy Chief Engineer, Public Works Department, dated Madras, 11th January 1883, No. 2294 W.

With reference to your No. 78 C. of the 10th instant, I have the honor to return the papers, with a detailed estimate for laying on Seven Wells water to the engine-room, and fixing a fire-plug at the Medical Stores. The estimate sanctioned in G.O., No. 1548 W., of the 20th June 1881, has no connection with that of Rs. 680, for which sanction is now requested, beyond the fact that the proposed roofing is in continuation of that already erected, to protect the boiler and engine.

2. The powdering mill and sifter were not included in the original estimate for fitting up machinery at the Medical Stores, and therefore no steps were taken to provide shelter for them.

3. The work at the Medical Stores is in an advanced state, and if funds are shortly placed at my disposal, the whole of the machinery will be ready for use, and properly protected, by the end of the official year.

206
2

No. 190.

Order—dated 18th January 1883, No. 206 W., Public Works.

The undermentioned estimates, amounting to Rs. 1,008, are sanctioned as supplemental to those referred to in G.O., No. 1548 W., dated 20th June 1881, and No. 3260 W., dated 11th December 1882 :—

	Amounts of Estimates.	Register Number.
	RS.	
(1.) Constructing a shed in continuation of the boiler and engine room at the Medical Stores, Madras ...	680.	Provincial No. 200 W. of 1882-83.
(2.) Laying 3″ cast-iron pipe from the Seven Wells to the boiler-room at the Medical Stores and fixing a fire-plug near the main gate ...	328.	,, No. 201 W. of 1882-83.

2. The sum of Rs. 1,008 is appropriated from the Provincial Reserve to enable the General Superintendent, Public Works Stores, to carry out the work.

3. These sanctions have been registered as shown above and classified as Civil Buildings, Original Works.

(True Extract.)

NOTE OF REMARKS.

The Estimates for constructing a shed at the Medical Stores - Madras & providing water supply as follows.

Constructing a shed with a sloping terraced Roof in continuation of the Boiler & Engine Room at the Medical Stores Madras	Rs. 680 -
Laying 3 inches cast Iron pipe from the 2nd W. 7 wells to the Boiler Room at the Medical Stores Madras and for fixing a Fire Plug near the main gate	" 328 -
Total	Rs. 1008 -

The information called for in Chief Engineer's No. 78 of 10th Instt. has been furnished.

The General Supdt. P. W. Workshop states that the powdering mill & sifter were not included in the origl. Estimate for fitting up Machinery at the Medical Stores & therefore no steps were taken to provide shelter for them.

The work at the Medical Stores is in an advanced state.

The Rates more or less agree with the Dist Schedule

The Estimates have not been countersigned by the Medical authorities.

No. 2269

Gl. 4

PRINCIPAL MEDICAL STOREKEEPER'S OFFICE,
Mint Buildings, Madras,
28/12 31st October 1882

From
THE PRINCIPAL MEDICAL STOREKEEPER,

To
The Secretary to the
Surgeon General
with the Govt. of Madras

Sir,

I have the honor herewith to submit for the approval of the Surgeon General a letter^x giving cover to a Plan and two estimates prepared by the General Superintendent P. W. Workshops for certain additions which he considers necessary in connection with the Machinery now being put up at this Depôt under his immediate supervision viz.
1st a protecting Shed for the Powdering Mill to cost Rs 680/- and
2d Water for the Boiler and Fire Engine to cost Rs 228/12/11.

x No. 1824 of 26th Inst.

2. As the Engineer in charge declares these additions necessary remark on my part would be out of place, but as exception may possibly be taken to the non-inclusion of these items in the original estimate, sanctioned in G. O. No. 1190 of 21st February 1881. I may observe that though this final sanction is scarce

two years old, still the correspondence has been spread over so many years, and the original plans and estimates so date so far back, that I fear the exact causes of the omission can no longer be traced.

3. As the Boiler and Engine are already completed (Water excepted) and the other portions of the work in an advanced state, I trust the Surgeon-General will be pleased to urge upon Government the necessity for an immediate allotment of funds, as otherwise the work which after so many years of delay is at length approaching completion will, once more, be brought to a stand still, as it is selfevident that a Powdering Mill without protection, and a Boiler without water are perfectly useless.

I have the honor to be
