1883, be accepted in explanation of this discrepancy. An increase of Rs. 12,500 in the Land-cess demand, due to a corresponding increase in the Land Revenue demand proper, would imply an increase of no less than two lakhs under the latter head. The President will explain how his estimate was arrived at. In view of the inadequacy of the General Fund receipts, the transfer of half the receipts from Fisheries from the Road to the General Fund is approved. The Government are not prepared to make any grant, as suggested, from Provincial Fund, the circumstances of the Madura Circle differing in no essential respect from those of other circles. Ample provision has been made for Public Works, but the provision for Results Grants is regarded by the Director of Public Instruction as inadequate, and will probably have to be supplemented from the General Fund Reserve. As recommended by the Board in paragraph 4 of their Proceedings, No. 1244, dated 4th May 1883, the contribution of Rs. 180 annually in future to the Mission Dispensary at Mandapasalai is sanctioned. It is, however, observed that the action of the Local Fund Board in not having obtained the sanction of Government for the payment of this contribution in the previous years is far from satisfactory. In other respects the Board's revision of the budget is approved.

4. With these remarks the Right Honorable the Governor in Council passes the Budget Estimates of the Madura Local Fund Circle for 1883-84.

2. *Regular Estimate for* 1882-83.—The President's opening balance not agreeing with that advised by the Accountant-General, the Board have adopted the latter officer's figure. According to the regular estimate, the collection of Land-cess shows an advance over the budget of Rs. 10,000, while that under Tolls falls short by Rs. 5,000, a decrease the cause of which is explained in the President's memorandum. From the Dindigul Budget Report it is gathered that the omission in the present estimate to take credit for a contribution from Dindigul in aid of the proposed Madura Normal School is due to the non-establishment of the school in question during the past year. The Board's remarks on the expenditure side of the regular estimate are approved.

3. *Budget Estimate for* 1883-84.—Turning to the budget for the current year, the proposal to raise the rate of Land-cess from nine pies to the maximum rate of one anna is sanctioned. This, it is expected, will result in an increased revenue under this head for 1883-84 of Rs. 20,000. As pointed out by the Board of Revenue the current demand estimated by the President is greater than can fairly be expected to result from this enhancement of the rate; nor can the surmise expressed by the Board in the concluding sentence of paragraph 2 of their Proceedings, No. 1244, dated 4th May

1883, be accepted in explanation of this discrepancy. An increase of Rs. 12,500 in the Land-cess demand, due to a corresponding increase in the Land Revenue demand proper, would imply an increase of no less than two lakhs under the latter head. The President will explain how his estimate was arrived at. In view of the inadequacy of the General Fund receipts, the transfer of half the receipts from Fisheries from the Road to the General Fund is approved. The Government are not prepared to make any grant, as suggested, from Provincial Fund, the circumstances of the Madura Circle differing in no essential respect from those of other circles. Ample provision has been made for Public Works, but the provision for Results Grants is regarded by the Director of Public Instruction as inadequate, and will probably have to be supplemented from the General Fund Reserve. As recommended by the Board in paragraph 4 of their Proceedings, No. 1244, dated 4th May 1883, the contribution of Rs. 180 annually in future to the Mission Dispensary at Mandapasalai is sanctioned. It is, however, observed that the action of the Local Fund Board in not having obtained the sanction of Government for the payment of this contribution in the previous years is far from satisfactory.
