GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following letter from Major S. C. CLARKE, R.E., Officiating Superintending Engineer, Third Circle, to the Chief Engineer, Public Works Department, dated Bellary, 7th August 1883, No. 1280 :—

With reference to your memorandum, dated 3rd August 1883, received with G.O., No. 2139 W., of 3rd August 1883, I have the honor to resubmit the estimate for the Anantapur Taluk Cutcherry, which has been reduced to Rs. 27,290 owing to the fact that the Sub-Engineer in charge of the sub-division has found it possible to reduce the rates for stone-work by 40 per cent.

2. The whole of the superstructure can now be built of stone set in chunam; but I would beg to point out that my object for substituting mud for chunam was to economise, as far as I could do so, without endangering the stability of the building; moreover, in that part of the district the rainfall is so small that stone in mud walls with their outer joints pointed would appear to stand well.

ORDER—dated 9th August 1883, No. 2200 W., Public Works.

The revised estimate, amounting to Rs. 27,290, for constructing a first-class Taluk Cutcherry at Anantapur, is sanctioned for immediate execution from an assignment of funds to be subsequently made.

2. This sanction has been registered as Provincial No. 86 W. of 1883-84, is classified as Civil Buildings, Original Works, and supersedes that accorded in G.O., No. 2139 W., dated 3rd August 1883.

(True Extract.)

READ—the following letter from Major S. C. CLARKE, R.E., Officiating Superintending Engineer, Third Circle, to the Chief Engineer, Public Works Department, dated Bellary, 9th July 1883, No. 1021:—

I have the honor to submit, for sanction of Government, an estimate of Rs. 29,460 for a first-class Taluk Cutcherry with out-houses at Anantapur.

Note by the Chief Engineer, Public Works Department.

Submitted for the sanction of Government.

2. The Superintending Engineer should report what increase to the estimate will be caused by building in mortar throughout instead of brick in mud and stone in mud. In buildings of this class it is desirable that the whole of the masonry should be "pukka."

CHEPAUK, 3rd August 1883. (Signed) R. H. SANKEY, Major-General, R.E., Chief Engineer, P.W.D.

ORDER—dated 3rd August 1883, No. 2139 W., Public Works.

The estimate, amounting to Rs. 29,460, for constructing a first-class Taluk Cutcherry at Anantapur, in the Bellary Division, is sanctioned for immediate execution from an assignment of funds to be subsequently made.

2. Early report should be submitted with reference to the Chief Engineer's note above recorded.

3. The sanction now accorded has been registered as Provincial No. 82 W. of 1883-84 and classified as Civil Buildings, Original Works.

(True Extract.)

(Signed) R. H. SANKEY, Major-General, R.E., Secretary to Govt., P.W.D.

To the Superintending Engineer, Third Circle, with Estimate.
" Examiner, Public Works Accounts, with duplicate Estimate.

2/8/83

Dear

With reference to your remark on the back of Major Clarke's letter, it is submitted that the modified estimate already provides for Rs 10 in Chunam, & that must have been omitted altogether —

A draft order is therefore submitted for approval.

If approved, please say whether it may issue at once without further reference to Govt —

2004 Cr

Major Clarke's letter is not very clear. However sanction is issued as per reference (W) is necessary before communicating sanction to S.E.
