Circular No. P.W.

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.
GENERAL.

Simla, July , 1883.

To

SIR,

In continuation of this Office Circular No. 17 of 31st March 1874, I have the honor to request that the following procedure may be adopted in future with a view to the Survey of India being supplied with information as to all Public Works, such as canals, irrigation channels, railways and roads, which have been lately constructed, are in course of construction, or are sanctioned in your Government or Administration, to enable that Department to record them and to bring the maps of India up to date.

2. I request that on the 1st January of each year you will furnish to the office of the Survey of India, Calcutta, a written list showing the names of the several Public Works which have been constructed, are in course of construction at the time, or are sanctioned during the past year.

3. It will then be the affair of the Survey Department to forward to you the sheets of the Atlas of India, on which you will enter those several Public Works in established symbols, and then you will return the sheets to the Survey of India.

4. Should this information be omitted, or delayed, it will become the duty of the Surveyor General of India to remind you of the fact, and to request that it may be furnished.

I have the honor to be,

SIR,

Your most obedient Servant,

Secy. to the Govt. of India.
