fore submitting this file for
ders I would be glad to know
what point exactly you consider
definite ruling of Govt. to be
ecessary and what are the rules
egarding examinations" to which
ou refer.

As regards the fixing of the pay
f these Surveyors it seems to me
the certificates to which you refer
e but of secondary value. The
al basis on which to determine
the ~~two~~ rates of pay to such tem-
orary hands comprises the quality &
ifficulty of work required of them
nd the field of their operations.

Thus in the case of Mr. Grayson
it has probably been taken into
account that he will have to work
ver a particularly unhealthy line of
ountry, and considering these im-
portant points it is not at all clear
to me why the Principal C. E. College
should think that the salaries of
urveyors should not differ widely
rom those of graded draftsmen.

W, I, and R, in allotting salaries to the 10 men mentioned in your table were doubtless influenced by considerations altogether outside the matter of college certificates & grading, and so far as I can see there is no object in going up to Govt on the subject.

The rates of pay considered desirable by W, I, and R, in selecting men for these posts & after considering their qualifications must form a better guide to your audit than the different standards of certificates.

The points regarding which the definite ruling of Government ~~are~~ is required, are the following:-

(1) The Standard of Examinations required for the appointment of Surveyors in the following grades-

| | | |
|---|---|---|
| 1st. | Grade | Rs. 200 |
| 2nd. | " | Rs. 150 |
| 3rd. | " | Rs. 100 |
| 4th. | " | Rs. 80 |

(2) Whether the Surveyors mentioned in my note dated 4th. July 1883 with reference to the Examinations they have passed (if any) should continue to hold the appointments noted against their names.

DPW

2. The only rules regarding the Examination of Surveyors are contained in G.O. No. 240 dated 22nd. August 1866, but on this point please see note by the Principal Civil Engineering College already in the file.

3. If the pay to be given is to be in no way determined by the class of certificate held, I want this to be admitted distinctly, so that there may be no necessity for me to require certificates for the qualifications of Surveyors, as I have to do in the case of draft

KEEP WITH Genl. No.

dated 18 .

In forwarding herewith for special orders of Government the enclosed Office Note correspondence × between this Office and the Principal Civil Engineering College, regarding the standard of qualifications required for the appointment of Surveyors, I beg to draw special attention to the remarks by the Principal of the College in the latter part of his note.

2. The appointments of Surveyors in this Presidency, in the absence of any definite orders, were admitted provisionally by this Office, pending receipt of information under paras 119 and 120 of the P.W. Code. The information thus obtained shews that the Surveyors in question have passed the following tests:-

| Surveyors | | | Division in which employed | Examinations passed |
|---|---|---|---|---|

| J. W. Macdougall | First | 200 | B. Project Dn | Passed departmental Test for the great Trigonometrical Survey of India vide Gazette of India of 1st March 1865. |

| W. E. Grayton | Second | 130 | Vizagapatam Raipur Railway Survey | Surveyor 3d Class C. E. College Certificate No. 40 of 1877. |

3. The Government of India in their letter No. 61 G. dated 9th January 1883 printed with G. O. No. 1153 W, dated 18th April 1883, objected to the appointment of Surveyors on the permanent Establishment, and so these men were brought on to the temporary Establishment, vide G. O. No. 904 W. dated 20th March 1883, and funds accordingly provided for the purpose.

4. The rules regarding Examinations for men in the permanent Establishment apply equally with regard to temporary Establishment, and as the Principal in his note dated 28th June 1883 gives it as his opinion

2383/6

that the salaries of the Surveyors should not differ widely from the corresponding classes of graded Draftsmen, it is for Government to determine whether the Surveyors above mentioned with reference to the Examinations they have passed should continue to hold the appointments on the salaries noted against each.

5. The favor of early orders solicited.

If the certificates are to be of any value in determining the standard of pay corresponding with the standard of Examination, some action is decidedly necessary. Otherwise there is no object in having different standards of certificates and no guide to my audit in calling for them.

For remarks - In first laying down the Scale this as you are aware was intended to be a permanent Estabt. of Surveyors. At first it would have been impossible to post men to such an Estabt. on College certificates though no doubt in time it might have been found desirable to do this, fixing the Standard for entrance & possibly at one other stage in promotion.

The Estabt. being now on a temporary footing & having regard to the consideration mentioned by the Dy. W. it seems to me at least premature to specify in any rigid manner the qualifi
