C.E.'s remarks

Col Bently's notes for 30 Jan'y 83

No 56.

Mullapuram Barracks

Reports that the services of a Contractor have been obtained who is strongly recommended by the Engineer of the M Ry Co. - considers him intelligent & likely to work satisfactorily, but being a resident of Bangalore he will probably have some difficulty in starting the works - it being remembered that Contractors do not come forward on the West Coast, whether owing to mismanagement in the past or some other cause. The Contractor however, has delivered a large quantity of dressed laterite stones and granite slabs for arking of verandahs and steps, also roofing tiles, and has some 25 handies carting tiles from Calicut. He has purchased his wood from Salghat which Comdr Nicholson will shortly inspect.

Notes that he has suggested certain alterations to the Ex Engr, on the ground where the barracks is situated, also on the Hospital site.

1. The points referred to are all within the competence of the S.E. to decide.

No 217 Cal 19-1-83

Considering it better if the planking was placed on the lower side of the rafters and not over them as provided in the estimates, and that the well provided for in the Est. sh^d be sunk at once as the O.C. naturally objects to letting water be drawn for the works from the only 2 wells of the station in which there is not now too abundant supply. In company with O.C. & the E.E. states that a site has been selected for the well, and a line for handies to take in carting materials.

No 386 Cal 9 July 1883

Noted

12/2

Overseer Healy reported as being very inefficient in work, constantly neglecting orders, making promises and getting nothing done - and the E.E. advised to move him to some other part of the D^o for further trial, if he is not prepared to recommend his return to Military duty.

Sandam Project Division
Report on Apprentice Overseers

cf. Bombardier's A

Donaghy will make a fair Overseer as he has had a good deal of practical training. He is steady and hard working and tries his best, but is not very tactful or quick and is not very good at arranging for carrying out work.

Gunner J. Richardson is intelligent and works well, is not very steady & requires looking after. He has had a good deal of experience & may make a good Overseer.

cf. Bombardier's D.

Healy is very hard working energetic

energetic & zealous. note

He tries his very best
but lacks system by in the Eng. Sup.
& the power of arranging remarks on these
for work. He is very attentive & business.

Steady & fairly intelligent
and may be depended
on to do his utmost
in whatever position
he is put.

It would be
well to place him
near Richardson,
at some station where
he will not be left
entirely to himself.

Enclosures: 1 Report.

Sir,

In forwarding herewith, a Report
by the Executive Engineer, Langam Pro-
ject Division on the 3 Apprentice Overseers
who joined his Division in July 1882, I
have the honor to state that Acting
Bombardier G. Healey is available for
transfer to another Division.

2. It is moreover desirable that he should
leave Langam at an early date, in order that his
quarters be available for the men recently
ordered to join from the Civil Engineering College.

I have the honor to be,

Sir,
