READ—the following letter from Colonel R. C. STEWART, Officiating Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 21st August 1883, No. 671:—

With reference to O.G., No. 2417,* dated 4th May 1881, relative to the proposal to convert the Artillery and European Infantry buildings at Trichinopoly into quarters for a Native Infantry Regiment.

I have the honor, by order, to state that His Excellency the Commander-in-Chief, having inspected the buildings in question on his recent tour to Trichinopoly, and having had under consideration the frequent cases of cholera amongst the men occupying them, has decided that on the completion of the lines now under construction by the 30th Regiment Native Infantry, these buildings shall be abandoned and transferred to the Public Works Department, and that on the garrison of Trichinopoly being augmented by a third Regiment of Native Infantry, lines shall be constructed by the men themselves on the site selected in close proximity to those of the 30th Regiment Native Infantry.

2. As the question of public buildings for this third Regiment has to be considered, His Excellency thinks that the Hospital on the Pootoor lines, lately abandoned, might be used by that Regiment, leaving only the places of arms-guard room, magazine, armourer's shop, store-room (including a tent store-room) to be provided by the Department Public Works; and I am to request that this matter may be obligingly considered in connection with the construction of similar buildings for the 30th Native Infantry, which formed the subject of this office letter, No. 179, dated 27th April 1883, printed in O.G., No. 2629, dated the 7th May 1883.

No. 4619, Military.

Transferred for consideration to the Public Works Department, with advertisement to Proceedings of Government, No. 1267 W., dated 30th April 1883.

Ootacamund, 22nd August 1883. (Signed) E. L. HANKIN, Colonel,
Secretary to Government.

Order—dated 31st August 1883, No. 2441 W., Public Works.

Commence to the Superintending Engineer, Sixth Circle, who will submit in due course plans and estimator for the buildings referred to in paragraph 2 of the Quartermaster-General's letter.
