To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
PUBLIC WORKS DEPARTMENT.

SIR,

In forwarding, for transmission to the India Office, the accompanying estimate of the probable quantity and value of stores required from England for the use of the Madras Public Works Department during the official year 1884-85, I am directed to inquire whether, with reference to Circular No. XI, Public Works, dated 21st June 1883, it is intended that these estimates should be forwarded through the Government of India. This Government presume that, as in the case of indents, the annual estimates may be transmitted direct to the Secretary of State, but the wording of the circular in question leaves the point open to doubt.

I have the honor to be,
Sir,

READ—the following Despatch from the Most Honorable the Secretary of State for India, to His Excellency the Right Honorable the Governor in Council, Fort St. George, dated India Office, London, 7th December 1882, No. 21, Public Works.

With reference to your Excellency's Public Works letter No. ²⁵/₁₄₇₇ W., of 13th June last, enclosing a list of levelling instruments which have been forwarded to

this country for repair, I transmit herewith copy of a report* by the Director-General of Stores, and I have to inform your Excellency that I have given orders that the recommendations contained therein shall be carried into effect.

ENCLOSURE.

Copy Report by Director-General of Stores, dated 14th November 1882.

With reference to the annexed Madras Public Works letter No. ²⁵/₁₄₇₇ W., dated 13th June 1882, a tender has been obtained for repairing the 12 levelling instruments marked thus *, the remainder not being worth repair.

The price quoted for repairing the eight instruments, Nos. 634, 635, 665, 687, 703, 711, 757 and 764 is £43-12-3, or about £5-9-0 each, but for the remaining four the estimate for repairs is so high (about £7-10-0 each), and the instruments are in such a bad condition, that it does not appear expedient to have them repaired.

The sanction of the Secretary of State in Council is therefore requested for the cost of repairing the eight levels above-mentioned, and for the disposal of the remaining instruments at the next periodical sale.

READ—the following letter from Lieutenant W. L. C. BADDELEY, R.E., General Superintendent of Public Works Stores, &c., to the Deputy Chief Engineer, Public Works Department, dated Madras, 2nd August 1882, No. 822 S. :—

I have the honor to forward, for submission to Government, abstract estimates of the probable value of stores required from England for use of the Public Works Department for the year 1883-84, together with a list of the estimates received from

1 Estimate for Provincial.	
1 do. for Irrigation.	
1 do. from Circles.	

Superintending Engineers. The Superintending Engineers, Second and Sixth Circles, have not yet sent the estimates required. Reminders were sent by post on the 18th July last and by telegram on the 31st ultimo.

2. I may here observe that urgent Indents are often received for stores for which no estimates have been submitted. In such cases, if the articles are not in stock they have to be purchased in the Indian market.

3. It is advisable to avoid purchasing articles of European manufacture in India as they can be obtained cheaper and of better quality through the Secretary of State.

No. 67.

ORDER—dated 9th August 1882, No. 2032 W., Public Works.

Ordered that the estimate be forwarded to the Director-General of State Railway Stores.

2. The Superintending Engineers, Second and Sixth Circles, will expedite the transmission of their estimates to the General Superintendent and submit at once to this office an explanation of the delay that has occurred.
