GOVERNMENT OF MADRAS

PUBLIC WORKS DEPARTMENT.

Buildings and Roads
Civil Works

READ—the following papers —.

From Major S C. CLARKE, R E, Officiating Superintending Engineer, Third Circle, to the Chief Engineer, Public Works Department, dated Bellary, 4th August 1883, No 1246

I have the honor to forward, for approval and sanction, the proposed plan for the Deputy Collector's Cutcherry at Adóni, together with estimate, Rs 6,110, and to state that the Collector of Bellary and the Executive Engineer have been in correspondence for more than a twelve-month on the subject of this building, the former hoped that it would have been possible to attach the accommodation required for the Deputy Collector to the Taluk Cutcherry now being erected at Adóni, but the latter was of opinion that such additions would probably lead to considerable correspondence, and possibly, if adopted, to the disfiguring of the larger building. I concur in the latter's opinion, and have now arranged with the Collector to provide ample accommodation for the Deputy Collector and his sub-officials in a new building, which is an enlargement and modification of the standard design for a Deputy Collector's Cutcherry The latter, as proved by the Collector, did not offer sufficient accommodation, but now that I have lengthened it and walled in a portion of the back verandah, the Collector has intimated his approval of the proposed structure

1 Plan
1 Detailed Estimate
1 Abstract do
1 Duplicate Abstract Estimate

2 The building is very much needed, but I fear funds will not be available this year for it

3 At any rate the work may, with your permission, be included in the budget for 1884-85.

From the same Officer, dated Bellary, 20th August 1883, No 1441

With reference to your memorandum, No 1505 C, dated 10th August 1883, I have the honor to return the plan and estimate for constructing a Deputy Collector's Cutcherry at Adóni providing for stone in chunam throughout

1 Plan
1 Detailed and Abtract Estimate
1 Duplicate Abstract

ORDER—dated 5th September 1883, No 2492 W, Public Works

The estimate, amounting to Rs 6,160, for constructing a Deputy Collector's Cutcherry at Adoni, in the Bellary District, is sanctioned

2 The Superintending Engineer, Third Circle, will report whether any portion of the budget grants for the Taluk Cutcheries at Adoni and Harpanahalli is available for transfer to this work

3 The scantlings of timber should be brought up to those prescribed in the standard specifications

4. This sanction has been registered as Provincial No 110 W of 1883 84 and classified as Civil Buildings Original Works

SEPTEMBER.

Deputy Collector's Cutcherry

Estimate for constructing a — at Adém[illegible]

I certainly think the position of Crown objectionable, but there is sufficient room above the opening & if the arch is properly done, the roof being kept, there ought to be no cracking. So, tho' I would myself rather retain slightly the plan, the Estimate as it stands may be sanctioned, S.E. being enjoined to take the soundings & to keep up to the standard

Current No. 1,0159

Letter No. 1241

Dated the 20th August 1883

From the Executive Engr 3rd Circle

NOTE OF REMARKS

1. The accompanying estimate and plan are for the construction of a Collector's Cutcherry at Adoni. The amount of the estimate is Rs 6400.

2. The instructions contained in G.O. Revenue No. 3356 dated 4th October 1881 relative to the outside dimensions being quoted and the estimate covering the accommodation required for Returns authorised have been kept. The estimate is Rs 350 above the amount given above from which the excess is due to the abolition of almirahs for Munsiff

3 It is recommended on the first two grounds of the petition that the plan & estimate be sanctioned as the Jail Committee have approved the standard. The reason given for the addition to be declared inadequate by accommodation already afforded by the standard.

4. The verandahs of Cutcherries are slightly below standard but the standard specifies while the positions of Cutcherries do not admit of such
