READ—the following letter from J. C. LARMINIE, Esq., Executive Engineer, Nílgiri Division, to the Superintending Engineer, Fourth Circle, dated Ootacamund, 21st July 1883, No. 180 :—

I have the honor to bring to your notice that in paragraph 2 of G.O., No. 2691 W., dated 16th October 1882, the limit of reserve stock for this division was fixed at Rs. 6,000 for two years from that date. It is always found difficult to keep the stock balance within that limit, and from the time the Government Order was passed the stock balance has been every month entered in the Objectionable Items Statements. The balance at the end of June 1883 has been Rs. 17,422-2-6, composed of the following items :—

	RS.	A.	P.
Building Materials	14,618	2	7
Miscellaneous	65	2	6
Stock Manufacture, Land and Kilns	2,738	13	5
Total ...	17,422	2	6

Under the head Building Materials the largest item is bench bricks at Wellington, 529,908 at Rs. 12 per 1,000 = Rs. 6,340-10-10, and looking to the present state of the grant for works during the current official year, it will take some time for these bricks to be all used up.

2. Under these circumstances, I have the honor to request that sanction may be obtained for the reserve being increased to Rs. 15,000 for two years from date of Government Order quoted above.

No. 304 G.W.

Endorsement on the above.

Submitted to the Chief Engineer, Public Works Department, with a view of obtaining sanction for the limit of reserve stock in the Nílgiri Division being raised from Rs. 6,000 to Rs. 15,000.

2. As no good building materials can be had in the Nílgiris, there should always be a large reserve stock in hand to avoid delay in the execution of sanctioned works.

3. The stock of bricks at Wellington will be useful when the bakery or church is sanctioned.

COIMBATORE,
30th July 1883.

(Signed) J. BEATTY, Colonel, R.E.,
Superintending Engineer, Fourth Circle.

ORDER—dated 7th August 1883, No. 2163 W., Public Works.

Sanctioned under the circumstances stated.
