

SUPERINTENDING ENGINEER'S OFFICE,

No. 1688.

MADRAS,

Bellary Chepauk, 14th Sept. 1883.

From

Major S. C. Clarke R.E.

THE SUPERINTENDING ENGINEER,

IIIrd CIRCLE,

To

THE Chief Engineer.
M.D.

Madras.

SIR,

Enclosures.

With reference to para 2 of the G.O. No. 2492 W. of the 5th September on the subject matter of the Dy. Collector's Cutchery at Adoni, I have the honor to inform you that I cannot just now state positively, whether the allotments for the Taluk Cutcheries at Hurpunnahally and Adoni can be fully expended or not, during the current year, but I conjecture that, owing to the late commencement of the former work, from various causes, it will be found possible

to transfer later on in the year, a portion of the grant for that particular work - If there is no objection, I will endeavour to have this new work taken on Contract by the same Native who has undertaken the Talug Cutcherry work at Adoni, on the understanding that he is only to expect payment for the work, should Funds be found available towards the latter end of the Official Year. He would find it more profitable and more economical, were he to undertake both works simultaneously, as they are to be built within a short distance of each other.

I have the honour to be

Sir
Your most obed^t servant.

Wm. Clark Majr. &c.
Mg. Supdy. Engineer.
3rd Field

Read the following

*Letter from the Supy Engr { 4. E. No 1688 of 14th Sept 1883
Third Circle*

*The proposals of the
Supy Engr Third Circle to
commence with the
construction of the Deputy
Collectors Catchment at
Adoni, on the terms
stated in the letter
head above, is ap-
proved, as a special
case.*

*2. An allotment
will be made later
in the year, if funds
become available, but
the Supy Engr should
report at the earliest
possible date what funds
are available for transfer.*

Sad.

We will be able to find money
for this work later on, and as
there is, in my mind, objection
to the course proposed, I think the
order as drafted had better be
modified. Simply order work to be
put in hand at once & state that
the necessary allotment will shortly
be made.
