GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following letter from Colonel G. CHESNEY, Secretary to the Government of India, Military Department, to the Secretary to the Government of Madras, Public Works Department, dated Simla, 29th August 1883, No. 804 M.W. :—

With reference to the Proceedings of the Government of Madras submitted with your endorsement, No. 2212 W., dated 10th August 1883, I am directed to state, for the information of the Governor in Council, that there is no probability of the Government of India ever being able to allot the very large sum of Rs. 65,000 for the construction of a Bakery at Wellington; and I am therefore to request that, under the orders of His Excellency, the project may be reconsidered with a view to reducing the cost within more moderate limits.

2. As under these circumstances there appears little probability of the detailed estimate being sanctioned during the current year, the Government of India will not at present re-allot the amount of Rs. 8,000 for the work which was withdrawn in this department letter, No. 542 M.W., dated 14th June 1883.

Telegram from the Inspector-General of Military Works, Simla, to the Secretary to the Government of Madras, Public Works Department, dated Simla, 18th September 1883.

The type plans for bakeries are not yet complete or definitely settled, would suggest your not delaying work for type plans, which may be long deferred.

ORDER—dated 22nd September 1883, No. 2663 W., Public Works.

Communicated to the Superintending Engineer, Fourth Circle, with reference to G.O., No. 2211 W., dated 10th August 1883, and with a request that the estimate for the Wellington Bakery be reduced to more moderate limits as early as practicable.

2. All that is required is a building sufficiently large and convenient for storing the requisite amount of flour and for baking the required number of loaves daily. For the present no provision need be made for machinery, the details of which will have to be settled in communication with the Commissariat authorities.

3. The modified estimate proposed by the Executive Engineer, which will amount to Rs. 48,560, is considered excessive for the object in view; and is not likely to be accepted by the Government of India.

(True Extract.)

Major, R.E.,
Under Secy. to Govt., P.W.D.

To the Superintending Engineer, Fourth Circle, with one Estimate.

Wellington Bakery

Ltr. fr Commissariat — Govt. requesting reduction on the estimate submitted

Rs. a.

Buildings — 25,560

Machinery — 20,000

Total 45,560

This by no means an formidable in appearance as at first the amount is still more than India will accept

It will be necessary to call on the SE to submit how the cost can be brought down to the figure allowed by the Govt

With reference to attached telegram from India, the S. E should be at once called on for an estimate framed in accordance with remarks by H. E. the C. in C. dated 11/9.

I quite agree with Gen. Lankey that even W. Lawrence's reduced figure of £46,260 is more than prudent will accept.

It is requested that the above heading, with number and date of this communication, may be quoted in any subsequent correspondence on the subject.

Simla, the 29th August 1883.

To

The Secretary to the Government of Madras,
Public Works Department.

Sir,

With reference to the Proceedings of the Government of Madras submitted with your endorsement No. 2212 W dated 10th August 1883, I am directed to state for the information of the Governor in Council that there is no probability of the Government of India ever being able to allot the very large sum of Rupees 65,000/- for the construction of a bakery at Wellington; and I am therefore to request that under the orders of His Excellency the project may be reconsidered with a view to reducing the cost within more moderate limits.

2. As under these circumstances there appears little probability of the detailed estimate

estimate being sanctioned during the current year, the Government of India will not at present re-allot the amount of Rupees 8,000/- for the work which was withdrawn in this department letter No. 542 M. W. dated 14th June 1883.

P. W. Department

Letter from the Government of India No 804 M. W. of
Simla 29th August 1883.

Circulated for orders

The estimate of
Rs 65,000 was professedly
only approximate - there
being no approved de-
-sign to work from.

2. It will be seen
from the letter from the
Inspector General of
Military works, No 3571
of 27th July 1883, that the
Madras Government

2663
8

are promised type plans as soon as they are ready. Meanwhile there is apparently little use in framing a smaller estimate which would be subject to revision on receipt of the type designs which are now awaited.

Major Howard
Col. A.G.
Joint Secretary to Govt
P.W.D.

Bella sent for these
R.A.
14/1.

It is much to be regretted that a tenth has ever proved to cost Rs 65,000 — the amount seemed to me excessive, and I am rather all astonished that the proposal of Rs 60,000 should be thought strong. I hope that another estimate will be passed without delay. All that is required is a building sufficiently large and convenient for the purpose of containing a certain amount of bran and baking so many loaves of bread daily — for the present no reference need be made to machinery. The present bakery at Wellington is a mere hovel, quite unfit to take bread in. If a moderate estimate can be prepared now, I cannot see that it will diminish the chances of sanction, and time has been lost to be spent this year.
