PROCEEDINGS OF THE BOARD OF REVENUE

READ—the following Memorandum from Colonel R H SANKEY, R E, Secretary to Government, Public Works Department, to the Secretary to Government, Revenue Department, dated Ootacamund, 6th July 1883, No 199 E —

[Proceedings, Revenue Department, No 2100, dated 21st May 1883]

In paragraph 5 of his letter to the Director of Public Instruction, No 681-C, dated 24th March 1883, the Principal of the Civil Engineering College makes the following suggestions for providing the office accommodation required by the Forest Department at Madras —

"Should it be decided not to erect a new Civil Engineering College, I would suggest that the increased space required at the Revenue Buildings might be obtained by an addition to them on the north side of the main block A space of 150 feet by 70 feet (marked A in the accompanying sketch) is available, without encroaching on the road to the beach, and a suitable addition here would not only improve the general architectural effect of the whole structure by equalising the length of line on each side of the central tower, but would enable provision to be made for the probable future requirements of the College alluded to in paragraph 2 *supra*"

2 These arrangements were, however, not considered feasible, and in reply to a suggestion that the present residence of the Principal of the College should be made available, Lieutenant Love, after enumerating several objections to the removal of the Principal from his present quarters, suggests that a portion of the block of buildings set apart for the College "Family Quarters" might, at the expense of some inconvenience, be temporarily placed at the disposal of the Forest Department as offices

3 This block consists of six quarters and was designed for the use of married soldier students It is very desirable, it is pointed out, that two, or if possible three, masters who are engaged in surveying duties should continue to reside there, but the remaining three or four quarters might be handed over to the Forest office until another building can be provided The quarters are situated in the Park, on the west side of the canal, and in the immediate vicinity of the Revenue Board buildings Each contains three rooms aggregating 572 square feet of space, exclusive of verandah and out-houses, so that three quarters would give 1,716 square feet, and four quarters 2,288 square feet

4 The undersigned is directed to request that inquiry may be made and a report submitted on the alternative proposal to occupy the College Family Quarters

To the Deputy Conservator of Forests,
with Public Works Department
Memorandum in original, to be returned

READ—the following letter from C. G DOUGLAS, Esq, Deputy Conservator of Forests, in charge of Central Office of Accounts, to the Secretary to the Board of Revenue, dated Madras, 1st August 1883, No 793 —

In acknowledging the Board's Reference* on Government R No 2856, I have the honor to inform you that I met Colonel Shaw-Stewart by appointment yesterday afternoon, and with him inspected the Family Quarters attached to the Civil Engineering College, which have been suggested as temporary accommodation for the Forest Central Offices

* Public Works Memorandum in original, returned

2 Their distance (770 yards) will of itself probably be held sufficient to condemn the proposal, for we might just as well be where we now are as half-a-mile from the Board's Office, there is no real advantage in their comparative proximity

3. The rooms are altogether inadequate, far too small and not suitably arranged for our purpose I do not believe the three Central Offices could by any possibility be crammed into four such buildings, even if the two Conservators and myself sat in the bath-rooms

4 The house we at present occupy, if further from the Board than is desirable, is at least such as to admit of the three offices working in tolerable comfort without overcrowding or interfering with each other, and this was one of the chief objects of our removal from Chepauk

5 The arrangement appears likely to suit no one, and has in fact nothing to recommend it The Principal of the Civil Engineering College informs me that the loss of the buildings, even for a temporary period, would cause him serious inconvenience, and, under all the circumstances of the case, I beg respectfully to deprecate any change until we can find permanent accommodation, at least equal to our present quarters and in a convenient situation.

6 These changes unsettle the office and create delays, I took some pains to render our move last Christmas as little inconvenient as possible, and it seems a great pity to incur a second move with the certainty of a third in prospect.

RESOLUTION—dated 14th August 1883, No 2379

Submitted to Government with reference to their endorsement, Miscellaneous No 2918, dated 14th July last, on Official Memorandum from the Public Works Department, dated the 6th idem, No 199-E

2 The Board agree with the Deputy Conservator of Forests, for the reasons stated by him, that the Family Quarters attached to the Civil Engineering College are unsuitable for the accommodation of the Forest Office The desideratum is that that office should be either under the same roof as the Board's, or in an adjoining building

Madras.

Sir, Thro' the Examiner P.W. Accounts

I have the honor to bring to your notice that the Executive Engineer, Madura Division, has in the Travelling allowance Bill of his Division for May 1883 claimed on behalf of Executive Engineer Mr. Johnston halting allowance (* at Rs 5 for 1st, 5 to 7th, 13th, 14th & 18th to 20th May = Rupees 15-0-0 21st at Rs 4 = 4-0-0 Total Rs 19-0-0) exceeding the daily allowance; for the 1st, 5th to 7th, 13th, 14th, 18th to 20th & 21st May 1883. But he has not submitted in support of his claim the certificate required by rule 1 Section 26 of the Civil Travelling allowance Code

2. The Examiner has objected to pass the above claim in the absence of

of the required Certificate

3 As Mr. Johnston has already proceeded on Furlough to Europe I request that you will be good enough to authorize the Examiner to pass his batting allowance as a special case, in the absence of the required Certificate.
