Read the following papers:—

No. 202. From Colonel J. PRATT, R.E., Superintending Engineer, 6th Circle, to Colonel R. H. BAMBEY, R.E., Chief Engineer, Public Works Department, dated Trichinopoly, 3rd July 1882, No. 207-T.C.

I have the honor to report that on the 2nd ultimo the Station Staff Officer, Trichinopoly, requested the Executive Engineer to take over charge of all the public buildings at Putúr lately vacated by the 6th Regiment Native Infantry, and informed him that no hall been authorized by the Quartermaster General to hand them over to the Public Works Department without delay.

2. The Executive Engineer took over charge of the buildings on the 3rd ultimo, but has not been informed whether his arrangement is only to last till the arrival of another regiment or is to be regarded as the permanent abandonment of the buildings by the Military Department.

3. It is, however, rumoured in the station that the line has been finally abandoned on account of its unhealthiness; and, if so, I request instructions what is to be done with the buildings.

4. The Collector has proposed to me that one of the buildings should be used as an office by the Assistant Conservator of Forests, and another by the Local Fund Engineer. If the others are not required for any public purpose, I presume they may be sold as they stand or demolished and the materials disposed of at public auction. Meanwhile the * Four men at Rs. 4 per month. cost of watchmen* to look after the buildings must be charged to Repairs, Military.
