GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following letter from G. T. WALCH, Esq., Officiating Superintending Engineer, First Circle, to the Chief Engineer for Irrigation, dated Kottapalle, 24th August 1883, No. 1512 G.D. :—

About 1872 the Government of India sent to the Upper Godáviri works a set of coal-boring tools, which Mr. Vanstavern

1 List.
1 Original letter, No. 520, dated 13th July 1883, from the General Superintendent, Public Works Stores, to the Executive Engineer, Eastern Division, Godáviri, with an invoice.

says were never charged to or transferred to those works, but remained "Imperial" plant.

2. In 1875, when coal-boring had to be carried out at Bedadavole, these tools were supplemented by a fresh addition from England from "Imperial" stores—see letter, No. 520, dated 13th July 1883 (enclosed), from General Superintendent, Public Works Stores, and accompanying invoice (enclosed).

3. When the Upper Godáviri works were transferred to Madras, all these tools (except some expended and lost) were handed over to this district.

4. They have run the risk of being mixed up with other tools and used on various works or sold, and indeed it has been only by the kindness of Mr. Vanstavern that it has been found possible now to recognize them all; but this has now been done and a list is enclosed, and I request orders as to what to do with the tools. They are not wanted here, as we have other boring apparatus which belonged to the Upper Godáviri plant.

5. Twenty-two pipes of 5" diameter 10' long, and two of 5' long, belonging to the apparatus now under notice, were in May 1882 sent to the General Superintendent of Public Works Stores, Madras, in compliance with his letter, No. 43, dated 14th April 1882.

No. 67 E.W.

Forwarded to the Chief Engineer, Public Works Department. It is suggested that the tools should be transferred to the Public Works Stores at Madras.

OOTACAMUND,
19th September 1883.

(Signed) J. O. HASTED, Colonel, R.E.,
Ag. Chief Engineer for Irrigation.

ORDER—dated 2nd October 1883, No. 2762 W., Public Works.

The tools will, as suggested, be transferred to the Public Works Stores at Madras.

Coal-boring Tools

The — from the Upper Godavari works, now at Dowlaishweram, directed to be transferred to the Public Works Stores at Madras.

FROM,

THE SUPERINTENDING ENGINEER

FIRST CIRCLE.

TO,

THE Chief Engineer
For Irrigation.

Camp Kettaipatti,

DOWLAISHWERAM,

24 August 1883

SIR,

About 1872 the Government of India sent to the Upper Godavari works a set of coal boring tools, which Mr. Vanstavern says, were never charged to or transferred to these works but remained "Imperial" plant.

In 1875 when coal boring had to be carried out at Bedadandole these tools were supplemented by a fresh addition from England from "Imperial" stores. See letter No 520-13-7-83 from General Supt. P. W. Stores and accompanying invoice.

When the Upper Godavari works were transferred to Madras, all these tools (except some expended & lost) were handed over to this District.

They have run the risk of being mixed up with other tools and used on various works or sold, & indeed it has been only by the kindness of Mr. Vanstavern that it has been found possible now to recognize them all, but this has now

been done & a list is enclosed. & I re-
quest orders as to what to do with the tools.
They are not wanted here as we have
other boring apparatus ~~like~~ which be-
longed to the Upper Godavari plant.

5. 22 Pipes of 5' diameter 10' long, & 2
of 5' long, belonging to the apparatus now
under notices were in May 1882 sent to the
General Supt of P. W. Stores Madras in
compliance with his letter No. 14-H-82.

5"

I have the honor to be,

Sir,

Your most obedient St.

C. S. Sivalan

Offr. Supr. Engr. 1st Circle.
