READ—the following paper :—

G.O., dated 25th September 1883, Mis. No. 2550, Judicial.

Read—the following letter from the Inspector-General of Registration, to the Acting Chief Secretary to Government, dated 14th September 1883, No. 2618 :—

I have the honor to submit a letter from the registrar of Salem, No. 264, dated the 11th September 1883, and, for the reasons stated therein, to request that you will be pleased to obtain the sanction of the Government to the preparation of plans and estimates in the Public Works Department, on the standard terraced design, for the construction of sub-registry offices at Vániyambádi, Tiruchengód and Hosúr, in the district of Salem.

ENCLOSURE.

From C. SAMBASIVA IYER, Registrar, Salem, to the Inspector-General of Registration, Madras, dated 11th September 1883, No. 264.

With reference to your Proceedings, G. No. 1563, of the 25th August 1883, I have the honor to bring to your notice that in this district there are at present three sub-registry offices standing in urgent need of new buildings for accommodation. Of these, Vániyambádi is the worst accommodated, and its requirements must be attended to before those of any other. This has been specially noticed by you in your notes of inspection of that office last year, as will appear from the following extract :—"The office is held now in a Lubbai bazaar in the main street, a most unsuitable place for a sub-registry office containing valuable records and having many persons resorting to it for purposes of registration and search. A new office is very urgently needed. It should be built close to the taluk cutcherry."

2. Next comes Tiruchengód, which office was located during the time of your inspection in a verandah of the taluk cutcherry. The accommodation was quite inadequate, and it was remarked by you that a new building was "very desirable." This office, however, has since been removed to a rented building which could afford but a poor accommodation, being, as it is, simply a portion of a larger building intended for a private dwelling-house. In his anxiety to remove from the miserable verandah in the taluk cutcherry, and in the absence of a better private building, the sub-registrar shifted his office to the present one, and I think the necessity will soon be felt for an entirely new office.

3. As regards Hosúr, I must say that a new office must soon be constructed, even if it be only to put a stop to the very heavy charges incurred at present on account of house-rent for the office ; and if the new building can be constructed in a well guarded place in close proximity to the taluk cutcherry so as to obviate the necessity of continuing the appointment of the present night peon, as much as 10 rupees every month might be saved. The following are the remarks passed by you in your notes of inspection of that office :—"The accommodation, though sufficient, is ill adapted for an office. The two almirahs containing the registers and other records are kept in a small room which at half past 7 A.M. was rather dark."

Order—dated 25th September 1883, Mis. No. 2550, Judicial.

Approved and transferred to the Public Works Department.

FROM

THE REGISTRAR,
SALEM.

TO

THE Inspector General of Registration
Madras

SIR,

With reference to your Proceedings G. No 1563 of the 25th August 1883 I have the honor to bring to your notice that in this District there are at present three Talukkacheris Offices standing in urgent need of new buildings for accommodation. As these cannot be attended to before those of any other. This has been specially noticed by you in your late inspection of that office last year as will appear from the following extract:- "The Office is held now in a Rabbish bazaar in the main street, a most unsuitable place for a Talukkacheri containing valuable records and having many persons resorting to it for purposes of registration and search. A new office is very urgently needed. It should be built close to the Talukkacheri."

2. Next comes Trichengod which office was located during the time of your inspection in a verandah of the Talukkacheri. The accommodation was quite inadequate and it was remarked by you that a new building was "very desirable". This office, however, has since been removed to a rented building which could afford but a poor accommodation, being as it is simply a portion of a large building intended for a private dwelling house. In his anxiety to remove from the miserable Verandah in the Talukkacheri

Entcherry and in the absence of a better private building the Sub Registrar shifted his office to the present one. I think the necessity will soon be felt for an entirely new office.

3. As regards Bazar, I must say that a new office must soon be constructed even if it be only to put a stop to the very heavy charges incurred at present on account of house rent for the office; and if the new building can be constructed in a well-guarded place in close proximity to the Taluq Kutcherry so as to obviate the necessity of continuing the appointment of the present night peon, as much as Rs every month might be saved. The following are the remarks passed by you in your notes of inspection of that office :- "The accommodation, though sufficient, is ill-adapted for an office. The two almirahs containing the Register and other records are kept in a small room which at half past 7. P. M. was rather dark."

I have the honor to be,
Sir,
