READ—the following G.O., dated 7th August 1882, Mis. No. 890, Judicial :—

Read—the following letter from the Superintending Engineer, Fourth Circle, dated 26th July 1882, No. 301 (through the Public Works Department) :—

With reference to G.O., No. 1664 W., dated 1st July 1882, I have the honor to commend, in the place of building an additional room for the custody of unclaimed property to the Taluk Cutcherry at Lower Tirutani, that a new building for the Sub-Registrar may be built, as this will eventually be necessary, and it will therefore be best to build it at once.

2. At present the Registration Department has for the Sub-Registrar in this building two rooms, each 9×16 feet, or 288 square feet. The standard plan for Sub-Registrars' Offices has one room 24×9 and one of 24×12 feet, or a total area of 432 square feet, and this space is certain to be applied for as the business increases.

3. The only way in which I can add a room for unclaimed property to the present building is by building a new room for the Registrar, and making one of the rooms at present occupied by him into the unclaimed property room; doing this would, I consider, a mistake, as the accommodation given to the Registrar would not be to the standard plan, and that department would of course prefer a new and separate building for their use; the probable cost would be Rs. 2,120 for the new building.

Order—dated 7th August 1882, Mis. No. 890, Judicial.

Under the circumstances represented, a separate building for the Sub-Registrar will be estimated for.
