G.O., dated 28th August 1883, No. 695 I., Public Works.

Read also the following paper :—

Office note from the Examiner, Public Works Accounts, dated Madras, 9th November 1883, No. 834.

Your office note, No. 2339 D., of 6th November 1883.

I think it will be advisable to keep separate lists in divisional offices, so that when tools and plant are *first* obtained they may be entered on the list (Irrigation or Provincial) for which they have been sanctioned.

2. The tools and plant will in practice be used indiscriminately, but when count is taken each half-year, it will be for the Executive Engineer to consider whether a deficiency should be written off the one return or the other, or partly from each. This will, moreover, enable him to come to some perhaps tolerably approximate idea for which list further supplies are required. Without some arrangement of this sort he could have no definite guide to trust to.

3. No change would be necessary in respect of returns such as you anticipate—the count would be of the tools, &c., as a whole for the division, and the deficit, if any, between the aggregate of the two returns referred to in paragraph 1 and such count might be dealt with as above proposed.

4. In regard to tools and plant in hand at commencement of 1883-84, is it necessary to require any distribution? Irrigation has, under the percentage plan, given Provincial about Rs. 69,500 on account of tools and plant, and the latter has consequently had its tools, &c., gratis. Why should not the quantity on 1st April 1883 be considered Irrigation? Further supplies *known* to be wanted for Provincial would be charged as such, while if of *old* tools any number were used for *Provincial* and were worn out, they could, under the proposals I make, be written off the Provincial list as Irrigation tools used up by Provincial, which latter would replace them for itself.

5. As to credits (sales, &c.), the amounts are so trifling that it may be left to the Executive Engineer to say to which account credit should be taken.

Order—dated 14th November 1883, No. 3234 W., Public Works.

The foregoing note from the Examiner, Public Works Accounts, will be communicated to Superintending Engineers for information and guidance.

3234/2

2. Superintending Engineers will submit, as early as practicable, lists of the sanctions accorded under Provincial, Tools and Plant, which would now require to be resanctioned under Irrigation.

3. The General Superintendent, Public Works Stores, will report what portion of the provision made in the Provincial budget for 1883-84, and in Proceedings of Government, No. 3108 W., dated 2nd November 1883, is debitable to the Irrigation branch.

No. 714 of 9th Octr/83.

TO DY. W.

YOUR OFFICE NOTE NO. 2074 D. DATED 2ND. OCTOBER 1883.

IT IS PROPOSED, IN ACCORDANCE WITH PARA 2 OF THE GOVERNMENT OF INDIA LETTER REFERRED TO BY ME AND WITH THE SANCTION OF GOVERNMENT TO DISCONTINUE DEBITING IRRIGATION AND NAVIGATION WORKS FOR WHICH CAPITAL AND REVENUE ACCOUNTS ARE KEPT, WITH THE USUAL $1\frac{1}{2}$ PER CENT ON EXPENDITURE INCURRED, FROM THE COMMENCEMENT OF THE CURRENT OFFICIAL YEAR, AND IN THAT CASE, ALL ESTIMATES FOR TOOLS AND PLANT REQUIRED FOR SUCH WORKS WHICH HAVE BEEN SANCTIONED DURING THE CURRENT YEAR UNDER PROVINCIAL WILL HAVE TO BE RESANCTIONED UNDER IRRIGATION.

2. IN SOME DIVISIONS THE TOOLS AND PLANT ALREADY ON HAND WILL BE USED ALMOST ENTIRELY ON SUCH WORKS AND THOUGH THEY HAVE BEEN PURCHASED FROM PROVINCIAL FUNDS I WOULD SUGGEST THAT THEY BE TRANSFERRED TO IRRIGATION WITHOUT CHARGE, SINCE PROVINCIAL HAS ALREADY PROFITED LARGELY BY THE CREDIT OF $1\frac{1}{2}$ PER CENT ON IRRIGATION EXPENDITURE.

Memorandum

3284/6

Proceedings of the Madras Government. P.W. Deptt

Office No.

G.O. No 695 I. of 28th August 188

With reference to the above proceedings, Supdg Engrs are requested to submit, as early as practicable, a list of the sanctions accorded in the current year, under Provincial Tools and Plant, which would now require to be resanctioned under Irrigation –

Ordered

The Supdt P.W. Stores will report what portion of the provision made in the Provincial Budget for 1883.84 for London Supplies, viz Rs 69291, is debitable to the Irrigation Deptt.

With reference to the Tools and Plant in hand at the close of the last official year, Supdg Engrs will report the distribution

tion they would propose in each Division, between Provincial and Irrigation.

The Tools and Plant debitable to Irrigation will in future be kept distinct from those debited to Provincial, & in the Accounts and Books of the Deptt.

S.a.w.

This matter appears to me to require further consideration. There are Tools & Plant appertaining to Irrigation & Provincial in all Divisions I fancy excepting Presidency & [illegible] and I rather think it will be a serious complication separating the two classes & keeping distinct lists & returns in each Divn & subdivn which will involve storing them separately &c. I must discuss this with C. What is your opinion & B's?

I would be glad of your opinion as to whether some means cannot be devised of avoiding the necessity of keeping up separate & distinct lists & returns of Tools & Plant for Irrigation & for Provincial. It seems to me this proposal will involve more difficulties & complications than has been anticipated, and the operations of E.Es. & their sub. divl. officers will be hampered in distributing & in collecting tools, &c. — besides more writing & account keeping & records. There ought to be some simple way of avoiding all this.
