GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following letter from Lieutenant W. L. C. BADDELEY, R.E., General Superintendent, Public Works Workshops, to the Deputy Chief Engineer, Public Works Department, dated Madras, 13th November 1883, No. 938 W. :—

I have the honor to report that the engine which drives the machinery in the main building of the Public Works Workshops is at present only sheltered by a planked shed, which is objectionable on account of its being liable to take fire.

2. The shed also is most unsightly and in every way unsuited for an engine-room. The engine-room in which the 40 horse-power engine worked is too far from the main building to be utilized, and accordingly I have prepared a plan and estimate for a terraced shed, which will answer very well as an engine-room and as a protection for the men when grinding tools.

3. I anticipate that the savings on the estimates sanctioned in G.O., No. 1706 W., of 18th June 1883, will nearly meet the cost of the work now proposed.

ORDER—dated 19th November 1883, No. 3302 W., Public Works.

The estimate, amounting to Rs. 1,150, for erecting a terraced engine shed at the Presidency Public Works Workshops, is sanctioned.

2. This sanction has been registered as Provincial No. 163 W. of 1883-84, and classified as Civil Buildings, Original Works.
