GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works

Read—the following letter from Lieut.-Colonel H. R. MEAD, R.E., Superintending Engineer, Sixth Circle, to the Inspector-General of Registration, dated Trichinopoly, 7th November 1883, No. 457 T.C.:—

With reference to your letter, No. 2233, of 29th July 1883, I have the honor to forward, for your approval and submission to Government, the plan and estimate for purchasing and altering the rented building at Srirangam for the use of the sub-registrar—Rs. 1,895.

One report with two enclosures.
One letter.

2. As the amount of estimate for alteration is below Rs. 1,000, the work can be carried out by your department (*vide* paragraph 1576 of Public Works Code).

3. The letter from the proprietor of the house is herewith returned.

Enclosure.

No. 456 T.C.

Report by the Superintending Engineer, Sixth Circle, on estimate for purchasing and altering the rented building at Srírangam for the use of the sub-registrar's office—Rs. 1,895.

In G.O., No. 1078 W., of 1st May 1882, an estimate for a new building on the standard design was called for; but, owing to the difficulty in procuring site, a proposal to purchase a native house for Rs. 2,780 was made by the tahsildar at the suggestion of the sub-registrar. The building was inspected and disapproved by the Inspector-General of Registration. As there is so much difficulty in procuring a site for the office, the Inspector-General of Registration proposed, in his letter, No. 2233, of 29th July 1883, to purchase the building in which the office is now held and to utilize the site for building a new office if the existing premises cannot be turned to account for the purpose.

One estimate.
One plan.

2. This building is situated in the street and better built than the one formerly proposed, as well as being better suited to the purpose. The Executive Engineer reports that "the terraced roof seems sound, and, with a few trifling repairs and alterations, the building is likely to last for a series of years."

3. The room measuring 23½′ × 14′ is to be used by the sub-registrar and his clerks in place of one measuring 24′ × 12′ in the standard design. The other two rooms measuring 23′ 9″ × 6′ 6″ and 8′ × 7′ 8″ respectively are to be made into one by opening an arch in partition wall and used as record-room. This would give the same accommodation for records as provided in the standard design. There is one lower, 8′ × 7′ 8″, and another upper story room, 24¼′ × 7′, besides.

4. The estimate provides for—

	RS.
Purchase of building	1,600
Alteration, &c.	295
Total ...	1,895

and is recommended for sanction.

6. The alteration, &c., amounts to only Rs. 295, and no professional skill is required; it can be carried out by the Registration Department.
