No. 1688 T.J.

Report by the Superintending Engineer, Sixth Circle, on the estimate for adapting the old taluk cutcherry at Shiyali for the accommodation of a district munsif's court, in Tanjore district, Rs. 2,360.

The building in question was handed over to the district munsif in February 1882, but by its having been long disused and out of repairs it is not yet occupied, and the district munsif holds his office in a rented building. The preparation of this estimate was delayed owing to some discussion regarding some of its provisions and the necessity of getting the consent of the Collector for the transfer of some land occupied by a pound.

2. The walls of the building are of brick in mud and the roof is of pantiled with best country wood beams, posts, purlins, &c., and bamboo rafters and reepers. The walls are in good order and the wood works look very strong.

3. The estimate provides for making certain alterations and repairing the building thoroughly and is approved and countersigned by the District Judge.

4. The amount of the estimate exceeds one-fourth the value of the building and requires sanction of the Government. The estimate is recommended for sanction and allotment of funds.

5. The work will be completed within a year after funds are allotted.

TRICHINOPOLY,

NOTE OF REMARKS.

1. The accompanying estimate provides for the repair and alteration of the old talug cutcheri at Shigali, Tanjavur District, to suit the requirements of a District Munsiff's Court. The estimated cost is Rs. 2,300 which as it exceeds the fourth of the value of the building causes the work to be classed as 'original'.
2. The building requires to be re-roofed and re-floored; and certain alterations are required to adapt it to the new purposes it has to serve.
3. The estimate has been countersigned by the District Judge.
