PUBLIC WORKS DEPARTMENT.

General.  
Account.

READ—the following letter from Lieutenant W. L. C. BADDELEY, R.E., General Superintendent, Public Works Stores, &c., to the Deputy Chief Engineer, Public Works Department, dated Madras, 9th May 1883, No. 166 S.:—

I have the honor to forward, for submission to Government, an emergent indent for pumping machinery required by the Superintending Engineer, Sixth Circle, for use in the Cauvery and Vennar Regulator Division.

2. Two engines and two pumps were applied for; of these, one engine, 12 horse-power, and two pumps, one 8 inch and one 6 inch, have been supplied from the stock in store, but the Superintending Engineer requires larger pumps than 8 inch, and as there are none in store, I have indented for one 12 horse-power engine and one 10-inch pump. These are required before November next by the Superintending Engineer, and if the Government are pleased to accord sanction to this indent, I request that the attention of the India Store Department may be invited to the urgency of this demand.
