I have the honor to submit
for sanction an Estimate of
Rs. 5970 for constructing a plunge
bath for the two Field Batteries
at the Mount, in accordance with
the Standard plan that accom-
panied P.W.D. Circular No. 20
of 24th February 1867.

The work is entered as item 7
in the Schedule of Major Mil-
itary Works, appended to G.O. No.
3002 H dated 24th October 1883.

The

4/12/09
As important point in
connection with this is that
a Committee considers that
the plunge bath should be
69' long by 23' breadth the width,
+ $4\frac{1}{2}'$ + 8' deep (so I judge
from the difficulty to understand
concluding para of Report)
whereas this estimate is based
on a Standard Plan which has
not these dimensions.

R. M. G. has certainly appeared
of project, but not having signed
any plan he may not have
noticed above.

It is difficult to say what has
been done, but T had
better at once see if the estimate
is exactly in accordance with
the Standard Plan and up or
not. —
