Read—the following papers:—

From G. T. WALCH, Esq., Officiating Superintending Engineer, First Circle,
to the Chief Engineer, Public Works Department, dated Cocanada, 25th
November 1882, No. 518 V.Z.

With reference to G.O., No. 1666 W., dated 1st July 1882, I have the honor
to forward, herewith, for the sanction of Government, an estimate, amounting to
Rs. 1,680, with a site plan, for constructing a building for the Sub-Registrar's office
at Yellamanchili, prepared in accordance with the standard design.

2. The estimate and site plan have been countersigned by the Inspector-
General of Registration.

No. 2398 C

Referred back to the Superintending Engineer, First Circle, for explanation
why the sizes of the doors and windows differ from those provided in the standard
design.

No. 215-A.

From G. T. WALCH, Esq., Officiating Superintending Engineer, First Circle,
to the Chief Engineer, Public Works Department, dated Penugola, 2nd
January 1883, No. 573 V.Z.

With reference to your No. 2398 C, (returned herewith with enclosures) I have
the honor to state that the dimensions for doors and windows entered in the esti-
mate are clear "inside of frames" and

* The rates given include frames, &c. the size of openings in the masonry there-
fore will, it is thought, be as shown in the standard design; if, however, the sizes in
that design are intended to be those clear inside the frames, then the dimensions given
in this estimate should be increased by 6 inches in height and breadth, the amounts
under the items in question being correspondingly increased.

No. 215-B.

Note by the Chief Engineer, Public Works Department.

Submitted for the sanction of Government.

2. The Superintending Engineer is correct in supposing that the dimensions of doors and windows given in the standard plan are inclusive of frame-work, but it is observed that the estimate as originally submitted did not show that the sizes therein given were clear inside of frames.
