r

Mr. Brandis.

Approving the proposed visit of — to the Nilgiris with Mr. Gamble, and placing on record the high appreciation of Government of his assistance during the period he spent on duty in this Presidency.

20TH JANUARY 1883, Nos. 86, 86A, REVENUE.

GOVERNMENT OF MADRAS.

READ—the following letter from D. BRANDIS, Esq., Inspector-General of Forests to the Government of India (on special duty), to the Secretary to the Government of Madras, Revenue Department, dated Madras, 9th January 1883, No. 57 :—

1883, No. 57 :—
 ABSTRACT.—Stating that he proposes to visit the Nilgiris with Mr. Gamble, returning on the 23rd instant, when he will leave Madras for Europe.

ORDER—dated 20th January 1883, No. 86, Revenue.

Miscellaneous

ORDER—dated 20th January 1883, No. 86, Revenue.

Miscellaneous.

In approving Mr. Brandis's proposal to visit the Nilgiris, for the purpose of explaining to Mr. Gamble in person the measures relating to Forestry suggested for that District, the Government desire, before Mr. Brandis leaves Madras and India, to place on record their high appreciation of his assistance during the year he has spent on duty in this Presidency.

During his very brief period, he has thoroughly acquainted himself with the subject, and has submitted an exhaustive report on the same.

2. In that comparatively brief period, he has thoroughly acquainted himself with nearly all the most important Forest Districts and has submitted an exhaustive and valuable report, which will serve in future as a complete Forest Manual of the Presidency. The Forest Act of 1882 has been passed, the unwieldy charge of the Conservator of Forests has been divided into two circles, each under a separate Conservator, the superior staff has been largely augmented, the whole Forest revenue and expenditure have been provincialised, jungle conservancy has been amalgamated with forests, and arrangements have been made for the systematic selection and the effectual protection of reserves.

3. The Right Honorable the Governor in Council is confident that great and lasting benefits, direct and indirect, will accrue from the different measures enumerated above, which he could not have hoped to bring about without the help afforded by the unequalled experience and distinguished abilities of Mr. Brandis, for whose deputation the thanks of this Government are due to His Excellency the Governor-General in Council, as they are to Mr. Brandis himself for the devotion with which, at the close of a long Indian career, he has applied himself to the accomplishment of the task imposed upon him.
