6TH FEBRUARY 1883, No. 405 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

No. 50.

Read—the following papers:—

G.O., dated 2nd February 1883, No. 219, Educational.

Read—the following letter from H. B. GRIGG, Esq., M.A., Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 4th December 1882, No. 6309:—

In my letter, No. 2165, of the 12th May 1881, I recommended that the proposal to erect a school-house at Tiruválúr should lie over until one-half of the amount required was made up by subscriptions and contributions, and the Government approved of the proceeding.

2. The inhabitants of Tiruválúr subscribed Rs. 1,792, and the Negapatam Local Fund Board, considering that no further subscriptions can be obtained from the inhabitants, have resolved to contribute the balance required to make up a moiety of the estimated cost, Rs. 8,370.

3. The school is now without proper accommodation, and it is necessary to provide it with a suitable building as early as possible.

4. In these circumstances, I have the honor to request the sanction of Government for the plan and estimate herewith submitted. The work will be put in hand immediately on receipt of the orders of Government, and the allotment of Rs. 3,000, which will probably be required for the current year, will be met from the subscription and Local Fund contributions.

No. 1506.

Referred to the Chief Engineer, Public Works Department, for his opinion on the plan and estimate.

11th December 1882.

me why the scantlings provided in the estimate for the school-house at Tiruválúr do not agree with those laid down in the standard specifications, I have the honor to bring to your notice that the table of scantlings was circulated on the 20th May 1881, and that the plan and estimate were prepared by Mr. Grimes, Assistant Engineer, in July 1880. As it would be most certainly advisable to use scantlings as laid down, I enclose a corrected detailed and abstract estimate for the wood-work;

the difference is Rs. 1,130; Rs. 875 of this excess is in consequence of the rate of teak-wood being raised from Rs. 3 to Rs. 4 a cubic foot rendered necessary by the increased cost of wood.

No. 282 C.

Forwarded to the Educational Department and the referred papers returned.

2. The plan and estimate are now unobjectionable and will be sanctioned in the Public Works Department, if finally approved in the Educational Department.
