GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.  
Account.

No. 191.

READ—the following letter from Captain C. B. HENDERSON, R.E., Executive Engineer, Nellore Division, to the Superintending Engineer, Second Circle, dated Venkatachalam's Chattram, 31st January 1883, No. 53 A :—

I have the honor to request that the sanction of Government may be obtained to an increase of Rs. 800 under the sub-head "Building Materials" of the stock authorized for Nellore Division, and to a limit of Rs. 200 for Land, Kilns, &c., another sub-head of stock.

2. The sanctioned limit is Rs. 1,000 at present for the former and nil for the latter.

3. I desire to keep a supply of limestone at head-quarters and a small supply of lime. The limestone is obtained from the bed of a tank about six miles from Nellore, and for some months it cannot be got at; the demand for lime at head-quarters is constant, and I have recently had considerable difficulty in purchasing even small quantities in the town at high rates. I think that a saving of Rs. 2 per candy can be made if we burn the lime ourselves near the workshops.

4. I also propose to manufacture roofing tiles and pipes for minor distributaries; the price of tiles in Nellore has gone up, while for months the supply in the town is very low and the article is very bad.

5. The Rs. 200 for Land, Kilns, &c., will suffice for small lime and tile kilns and for a few temporary sheds for storing materials.

No. 1088 N.L.

Endorsement on the above.

Forwarded to the Chief Engineer, Public Works Department, with a request that the increase under sub-head of stock, "Building Materials," applied for, viz., Rs. 800, may be sanctioned. This will increase the sanctioned limit under this sub-head to Rs. 1,800, and the total balance in the Nellore Division will become Rs. 5,800 instead of Rs. 5,000 as sanctioned in G.O., No. 1471 W., of the 13th June 1882.

It is very advisable that the Executive Engineer should manufacture lime himself and to control the market price. There is a kiln in the store yard at Nellore which will require only slight repair.

As the only source from which limestone is readily procurable is under water for six months in the year, it is advisable to have a stock of limestone.

(Signed) J. W. RUNDALL,  
Superintending Engineer, Second Circle.  
7th February 1883.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.  
Account.

READ—the following paper:—

No. 88.

From J. W. RUNDALL, Esq., Superintending Engineer, Second Circle, to the  
Chief Engineer and Secretary to Government, Public Works Department,  
dated Masulipatam, 2nd June 1882, No. 234 N.L.:—

I have the honor to request that Government will be pleased to sanction a  
redistribution of the total stock balance of the Nellore Division as shown in the  
enclosed statement. The total sum is not required to be increased, but the Executive  
Engineer requests that the amount of each sub-head may be altered as shown.

2. The present total limit of stock for this division was sanctioned in G.O.,  
No. 42 W., of the 7th January.

3. It will be seen that there are at present small balances under some of the  
sub-heads for which there is no sanction at present, and the Examiner requires that  
there should be definite sanction under each sub-head.

4. There must be a small stock of wood for the engine and of charcoal for the  
smiths at the Workshop, and under Painters' Stores and Miscellaneous a small stock  
is required.

5. The balance under House-fittings will be reduced as speedily as possible.

Stock in the Nellore Division.  
Redistribution of balance of —, sanctioned.

1253A Executive Engineer's Office  
Camp Vellore Nellore Division  
31<sup>st</sup> January 1883.

From,  
The Executive Engineer  
Nellore Division  
To,  
The Superintending Engineer  
B. G. Circle.  
Sir,

I have the honor to request that the sanction of Government may be obtained to an increase of Rs. 800 — under the sub-head "Building Materials" of the Stock authorized for Nellore Division, and to a limit of Rs. 200 for Land, Kilns &c. Another sub-head of Stock.

2. The sanctioned limit is Rs. 1000 at present for the former and nil for the latter.

3. I desire to keep a supply of Lime Stone at Head Quarters and a small supply of Lime. The Lime Stone is obtained from the bed of a Salt about six miles from Nellore and for some months it cannot be got at, the demand for Lime at Head Quarters.

is constant and I have recently had considerable difficulty in purchasing even small quantities in the town at high rates. I think that a saving of Rs 2 per Candy can be made if we burn the Lime ourselves near the Workshops.

4. I also propose to manufacture Roofing Tiles and Pipes for Minor Distributaries, the price of Tiles in Kellow has gone up while for months the supply in the town is very low and the article is very bad.

5. The Rs 200 for Land Kilns etc. will suffice for small Lime and Tile Kilns and for a few temporary sheds for storing materials.

I have the honour to be  
Sir,  
Your most obedient servant  
A. J. Henderson - Captain R.E.

Executive Engineer & District Engineer

688/ Forwarded to the Chief Engineer P.W.D. with a request that the measure under Sub Head 9 Street, "Building materials" approved for Rs 800, may be sanctioned. This will increase the sanctioned limit under this Sub Head to Rs 1800, the total balance in the column D will become Rs 5000 in place of Rs 5000 as sanctioned in G.O. No. 1471 W of the 13 June/02.

It is very desirable that the Exec. Eng. should manufacture lime himself & so control the market price. There is a kiln in the Store Yard at Kullu which will require only slight repair.

As the only source from which Limestone is readily procurable is under water for 6 months in the year, it is advisable to have a stock of Limestone
