a Commg Archt to Govt
" Supt, P.W. Stores
" Supt, Madras Harbor Works

5TH FEBRUARY 1883, No. 242, PUBLIC.

GOVERNMENT OF MADRAS.
PUBLIC DEPARTMENT.

READ—the following papers :—

Telegram from the District Magistrate of Malabar, to the Chief Secretary to Government, dated 27th January 1883.

See G.O., No. 822, of 24th August last. Should tonite explosive and blasting powder be stored in same store. *Portinscale* arrived.

From Surgeon-Major T. K. ROGERS, M.B., F.R.C.S., & F.C.S., LOND., Chemical Examiner, to the Chief Secretary to Government dated Madras, 2nd February 1883, No. 708.

With reference to your endorsement, No. 208, dated 1st February 1883, I have the honor to state that, in my opinion, it is not advisable to store tonite in a building containing gunpowder.

2. If the tonite were to become ignited, it would burn quickly, but the flame of the burning tonite would of course explode any gunpowder which might be at hand, and the explosion of the gunpowder would most probably cause the tonite to explode also.

ORDER—dated 5th February 1883, No. 242, Public.

Ordered that the following telegram be despatched to the Collector of Malabar :—

“ It is not advisable to store gunpowder and tonite together.”

(True Extract.)

C. G. MASTER,
Chief Secretary.

To the Collector of Malabar.
” Public Works Department.
” Chemical Examiner.
