N^o 2919, 27th October 1882.

Notes of inspection of the Sub Registrar's office at Tirupate in the district of North Arcot on the 27th October 1882.

"This office was transferred to a Special officer in the year 1879, and it has not been inspected since then.

The last inspection by the late Inspector General was on the 15th March 1877.

The building in which the office is held is an old Stone Mantapam.

It is ventilated only on one side.

There are two compartments. In the smaller the two almirahs containing the records are kept. In the larger the Sub Registrar and his clerk sit. They both complain of the heat in the building, during nine months of the year, to be insufferable. The Sub Registrar has had a punka

sentid does not abate the heat, or relieve him of his sufferings. A new building is doubtless a necessity here. The Registrar will enquire and report. The building should be placed close to the Taluk Cutcherry.
