GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads,
Civil Works.

No. 143.

READ—the following letter from W. HUGHES, Esq., Executive Engineer, Tanjore Division, to the Superintending Engineer, Sixth Circle, dated Koradáchéri, 10th February 1883, No. 403 :—

In connexion with the subject of my letter, No. 291, dated 31st January 1883, I have the honor to report that I have to-day inspected the Sub-Magistrate's Cutcherry at Kodavassel and quite agree with the Collector in considering a new building unnecessary. The present building is in very fair order, and all the improvements needed can be carried out for less than Rs. 500. I therefore recommend that the estimate of Rs. 9,410 sanctioned for a new building in G.O., No. 1981 W., of 10th August 1881, be cancelled, and the allotment granted for this year withdrawn. There has been no expenditure, nor are there any liabilities.

I enclose a copy of my letter to the Collector's letter.

ENCLOSURES.

From H. E. STOKES, Esq., Acting Collector of Tanjore, to the Executive Engineer, Tanjore, dated 26th January 1883, No. 446.

In reply to your No. 159, dated 17th January 1883, I have the honor, in returning the enclosures, to inquire whether any funds have been allotted this year for the Sub-Magistrate's Cutcherry at Kodavassel, and to state that, even if the cutcherry is to be built, the proposed site which I have inspected is much larger than is necessary. If a piece of ground 150 feet wide measuring from the roadway is taken up, it will, I think, be sufficient, and the extent will be scarcely more than a third of what is now proposed.

2. But I must express my surprise that the project of building a new cutcherry was ever sanctioned. The present building is very strong as far as I can judge, and spacious enough for a Sub-Magistrate's office. It has just been repaired at a cost of Rs. 415, and, except the detached latrine at the back, the whole of the building appears to be in very good order. The situation is much more advantageous than that proposed for the new office, which is a long way out of the town. I think that if the walls of the old Treasury room are taken down, and the central building adapted for the Sub-Magistrate to hold his Court in, the corner where he now sits being railed off as a record-room, all that is necessary will be done, or the old Treasury may be enlarged and made fit for keeping the records, and a dais for the Sub-Magistrate erected where he now sits.

3. The sum of Rs. 9,410 sanctioned for the new building might, in my opinion, be used elsewhere to much greater advantage. I shall be obliged if you will inspect the present cutcherry and report your opinion upon it, and what the alterations above suggested and the repair or reconstruction of the latrine will cost; also what you think of the ventilation of the existing sub-jail wards. It appears to me to be good enough.

From W. HUGHES, Esq., Executive Engineer, Tanjore, to the Collector of Tanjore, dated Koradáchéri, 10th February 1883, No. 402.

In reference to your letter, No. 446, dated 26th January 1883, I have the honor to inform you that I quite agree with you in considering a new Sub-Magistrate's Cutcherry at Kodavassel unnecessary. The present building is in very fair order, and needs but little improvement to make the accommodation ample. There has been no expenditure in connection with the proposed new building, and I shall ask the Superintending Engineer to have the estimate cancelled.

2. (a) In regard to the improvements required to the present building, I think the proposal to enlarge the Treasury room so as to make it a good commodious record-room the best that can be made. There is ample space on the platform on which the Treasury or record-room now stands, and if the pillars carrying the roof over the portion of platform in front of the room prove to be supported on good foundations, it will be unnecessary even to disturb any part of the roof. You may, however, think it desirable that the walls should be of brick in chunam. In such case, the roof and walls must be removed and the new record-room built on the existing platform. The cost would be only about Rs. 400 for a room 12' x 15', and it would afford greater security against white-ants to have the walls built with mortar. The present walls are of brick-in-mud.

(b) The Sub-Magistrate sits at present on a dais, but it is not perhaps of sufficient size or height.

(c) The west wall of the latrine must be rebuilt and the gable (over which a prisoner is said to have escaped) raised to meet the roof, or barred window being inserted for ventilation. The cost of the work will, perhaps, be Rs. 50.

3. The ventilation of the sub-jail appears unexceptionable. The defects reported to exist in 1879 have been remedied.

No. 2055 T.J.

Endorsement on the above.

Copy of Collector's letter, No. 446, dated 26th January 1883, is forwarded.

TRICHINOPOLY,
15th February 1883.

(Signed)

H. R. MEAD, Lieut.-Colonel, R.E.,
Superintending Engineer, Sixth Circle.

No. 144.

ORDER—dated 21st February 1883, No. 564 W., Public Works.

Under the circumstances stated, G.O., No. 1981 W., dated 10th August 1881, sanctioning an estimate, amounting to Rs. 9,410, for constructing a new Deputy Tahsildar's Cutcherry at Kodavassel, in the Tanjore District, is cancelled.

2. In the face of the statements made in the correspondence above recorded, it is not understood how the existing building could have been characterized in the Superintending Engineer's letter, No. 694 T.J., dated 26th July 1881, on which the construction of a new cutcherry was sanctioned, as "utterly unfit for a Deputy Tahsildar's Office and Subsidiary Jail."

3. The balance of the current year's allotment for the work, Rs. 1,000, is resumed and credited to the Provincial Reserve, and the grant in the Provincial Budget for 1883-84 will be withdrawn and credited to the Reserve of that year.

4. The Superintending Engineer will take the necessary steps for carrying out the improvements to the present building, stated to be necessary.

No 1116.

Tanjore Collector's Office
Tanjore 26th January 1883

From,

The Collector of
Tanjore.

To,
The Executive Engineer
Tanjore.

Sir,

In reply to your No 159 dated
17th January 1883, I have the honor in
returning the enclosures to enquire
whether any funds have been allotted
this year for the Sub. Magistrate's
Cutcherry at Kodavasal and to
state that even if the Cutcherry is to
be built the proposed site which I
have inspected is much larger than
is necessary. If a piece of ground
150 feet wide measuring from the
Road way is taken up, it will I
think be sufficient and the extent
will be scarcely more than a third
of what is now proposed.

2 But I must express my surprise
that the project of building a new Cutcherry
was ever sanctioned. The present
building is very strong as far as I can
judge and spacious enough for a
Sub Magistrate's Office. It has just
been repaired at a cost of Rs 415 and
except the detached latrine at the back
the whole of the building appears to be
in very good order. The situation is
much more advantageous than that
proposed for the new Office which is a
long way out of the town. I think that
if the walls of the old treasury room are
taken down and the central building
adapted for the Sub Magistrate to hold
his Court in, the corner where he now
sits being pulled off as a record room,
all that is necessary will be done in the
old treasury may be enlarged and
made fit for keeping the records and
a dau for the Sub Magistrate erected
where he now sits.

3 The sum of Rs 9410 Sanctioned
for

Sp 6 10/504
for the new building might in my opinion
be used elsewhere to much greater
advantage. I shall be obliged if you
will inspect the present Cutcherry
and report your opinion upon it,
and what the alterations above suggested
and the repair or reconstruction of the
latrine will cost. Also what
you think of the ventilation of the
existing Sub Jail wards. It appears
to me to be good enough.

I have &c &c

The Executive Engineer
Tanjore

To

The Collector of
Tanjore.

Sir,

In reference to your letter N^o 446
26-1-83.

I have the honor to inform you that I quite agree with you in considering a new Sub Magistrate's Quarters at Kodavassal unnecessary - The present building is in very fair order and needs but little improvement to make the accommodation ample. There has been no expenditure in connection with the proposed new building and I shall ask the Superintending Engineer to have the estimate cancelled.

2 (a) In regard to the improvements required to the present building I think the proposal to enlarge the Treasury room so as to make it a good

Commodious

Commodious record room the best
that can be made. There is ample
space on the platform on which
the Treasury or record room now
stands and if the pillars carrying the
roof over the portion of platform in
front of the room were to be supported
on good foundations it will be
unnecessary even to disturb any part
of the roof. You may however think
it desirable that the walls should be
of brick in Chumam. In such case
the roof and walls must be removed
and the new record room built on the
existing platform. The cost would
be only about Rs 100 for a room 12' x 15'
but it would afford greater security
against white ants. The walls
built with mortar. The present
walls are of brick in mud.

(C) The Sub. Magistrate sits
at present on a dais but it is not
perhaps of sufficient size or height.

(C)

12/5/04 M 6
(C) The west wall of the latrine
must be rebuilt and the gable (over
which a prisoner is said to have
escaped) raised to meet the roof
or barred window being inserted
for ventilation. The cost of the
work will perhaps be Rs 50.

3 The ventilation of the Sub Jail
appears unexceptionable. The
defects reported to exist in 1879 have
been remedied.

I have seen &c.

Supg Engineer 6th Circle

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Under date the 21st Febry/83.
Read the following

19/3/84

From the S. G. S. Institute B.S. No 2055 J.G. 15 Feb 83.

Under the circum-
stances stated, G.O. No
1951 W of 10 August 1881,
fructifying an estimate
amounting to Rs 9,410 for
constructing a new
S. G. S. Institute
at Kottaracul in the
Tanjore District, is
Cancelled.

2. In the face of
the statements made
in the correspondence
above recorded, it
is not understood
how

how the existing building
could have been character-
ized in the Deputy Secy's
letter No 694 T.J. 526:
July 1888, on which the
construction of a new
Cutcherry was mentioned,
as "utterly unfit for
a Deputy Tahsildar's Office
and Subordinate Jail"

3. The balance of the
^{current year's} allotment for the work,
Rs 1000, is resumed
& credited to the Prood

reserve, & the grant in the
Prood Budget for 1889-90 will be

4. The Deputy Secy will
take the necessary steps
for carrying out the
improvements to the present
building, stated to be
necessary.
