

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read again Board's Proceeding dated 26th September 1882, No. 2378, transmitted to the Public Works Department, with endorsement, dated 5th October following, No. 3255.

Read also L.O. P.W. Dept., dated 6 January 1883, No. 34, communicating from the Super. Engineer, 5th Circle, stating that the pilot referred to in para: 2 of Board's Proceedings, No. 2378 dated 26th September 1882, is not required for the purposes of the Conservancy of the Adyar River.

Order. Thereon, 15th February 1883, No. 675.

Ordered that the papers be referred to the Public Works Department with remark that, although No. 296 may not be required for the purposes of river Conservancy the matter must be dealt with as a whole.

2. Apart from the rest of the block it is not likely that this small pilot will be of any use to Mr. Morgan, but if he wishes to retain it, the terms on which this can be permitted

Public Works Department.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read as follows:

Pro. Rev. Departe P.S. No 675-715-722-1883.

Communicated to the Supt. Engr Fifth Circle, who will deal with this matter in connection with the other points referred to in S.O. No 1589 W of 22 June 1882.

permitted will be one of the conditions of surrender, required by Act, 5th June 1882, No. 585, to be reported for sanction.

3. There seems to be little doubt that the plot is included within the boundaries of the land resumed and acquired by Government in 1858-64, and probably the Zamindar's claim is barred. If Mr. Morgan retains the plot, he will of course have to make his own terms with the Zamindar; but if it is surrendered and not required by the Public Works Department, it may be left to be dealt with separately by this Department.

4. In the event of the Advocate General advising a suit and requiring further information than the Superintending Engineer's inquiries on the spot can afford, the Board will be desired to return a distinct finding as to whether the Zamindar's claim to this plot is admissible or not; but to enable them to do so, all the information obtained by the Supt. Engineer must be communicated through this Department.
