SIR,

1. I shall feel obliged by your informing me what is the proper procedure in the following case which I cannot decide with certainty from the Code.

2. When I went in June on special duty to Kurnool Mr. Larminie, Executive Engineer in charge of the Eastern Division Godavari was relieved of his Executive charge to perform my duties in this Circle and he delivered over charge of his Division to Mr. Burlton Asst. Engr. this arrangement it was supposed would be only very temporary and there was no formal and complete transfer at the time.

3. Mr. Larminie was however on my return moved to another circle.

4. It now appears that when in June Mr. Larminie gave charge of his Division into Mr. Burlton's hands there were in the Division many completed works which had not been declared completed but which have since been so though there has been no

no expenditure on them since Mr. Larminie
handed over — and for such work, Mr. Burton
declines to give completion certificates as
he had nothing to do with them — Mr. Larminie
is in another circle.

This appears to me properly
an administrative question, not
a point of audit or account;
and hence I did not offer
the S. C. advice upon it. Now
that it is sent to me by the
Chief Engineer I beg leave to
record that I think the S. C.
should firmly tell Mr. Burtton
or whoever is now in charge
of the works to submit the
completion reports without
any further delay or delay.
It is always an officer's duty
to take up the work of his
predecessor at the stage he
finds it and to carry it on.
Mr. Larmine was transferred on
public grounds. It appears to me
moreover that Mr. Burtton's
usual demands notice from
the S. C. in many cases what
