READ—the following letter from R. F. CHISHOLM, Esq., Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Madras, 15th January 1883, No. 150 :—

I have the honor to lay before you a plan and estimate for remodelling the Central Museum of the School of Arts. The estimate amounts to Rs. 14,161, of which Rs. 10,000 can be spent during the present official year.

„ Estimate.
„ Duplicate Abstract.

The estimate for the repairs of the workshops called for in G.O., No. 3323 W., dated the 15th December last, will follow. The School of Arts buildings were originally constructed for a carriage manufactory. They are on very low ground, and the public road by successive repairs is now about 12 inches higher than the floor of the building.

The central hall consists of a large room, 130 feet × 40 feet, divided into three by a double row of columns. The whole is terraced as one flat on the same level; the rain falling in the centre has thus to pass over 20 feet of roof before it can descend. The existing timbers are very old, and a great many unsound. It is proposed now to break up the whole terrace, to raise the side walls and columns to the extent of 5 feet, and to divide the roof into three compartments. This, while admitting of more perfect drainage arrangements, will secure ample and pleasing light for the objects open to public inspection.

The end of the hall facing the road will be remodelled to harmonize with the new picture gallery.

The floor will be raised 3 feet or 2 feet over the road outside the building.

No. 176.

ORDER—dated 18th January 1883, No. 199 W., Public Works.

The estimate, amounting to Rs. 14,161, for remodelling the Central Museum of the School of Arts, Madras, is sanctioned.

2. The sum of Rs. 10,000 is appropriated from the Provincial Reserve for expenditure on the work during the current official year.

3. This sanction has been registered as Provincial No. 199 W. of 1882-83 and classified as Civil Buildings, Original Works.
