GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

No. 78.

READ—the following letter from R. F. CHISHOLM, Esq., Consulting Architect to Government, to the Chief Engineer, Public Works Department, Roads and Buildings Branch, dated Chepauk, 28th February 1883, No. 1016 :—

I have the honor to submit, for the sanction of Government, a plan and estimate, amounting to Rs. 716, for adding a cook-room for the Lying-in Hospital Superintendent's quarters.

1 Tracing.
1 Detailed Estimate.
1 Duplicate Abstract.
1 Letter.

2. On receiving a letter from Dr. Branfoot, copy of which is annexed, I inspected the premises and found the arrangements to be as bad as those of most Indian houses. There is no scullery, and no verandah capable of being used as one; the soiled dishes are washed in the open near a well which probably receives a large share of the refuse.

3. I propose to convert the existing cook-room into a scullery and to add a small cook-room beyond it as shown on the plan, a chamber capable of daily inspection by the mistress of the house.

4. Although work is not absolutely necessary, inasmuch as the house has existed many years without it, it is a work which I would strongly recommend to Government for favorable consideration.

ORDER—dated 10th March 1883, No. 782 W., Public Works.

The estimate, amounting to Rs. 761, for constructing a kitchen for the Superintendent's quarters, Lying-in Hospital, Madras, is sanctioned against the Minor Works Grant to the Architect Division.

2. This sanction has been registered as Provincial No. 268 W. of 1882-83 and classified as Civil Buildings, Original Works.

From

Surgeon A. H. Branfoot, M.D.
Superintendent Lying in Hospital

To

The Executive Architect
to Government Madras.

Sir

In reference to the annual report to the Board of the Superintendent Lying in Hospital I have the honor to invite your special attention to the construction of the cook house and adjoining yard. The kitchen is a dark godown which always leaks, not only through the roof but down the walls on the rains. There is no drainage and all the water in the yard remains to be done either by pouring vessels but to be taken either to godown or in the yard outside where there is an old unused well. It is impossible to say what filth is not thrown into this well, the accretion of which is extremely undesirable from a sanitary point of view & also unnecessary and inconvenient.

If you could make it convenient to inspect the buildings and suggest

any improvements to take out licensed subject

Abstract

1 Letter

I have the honor to submit for the sanction of Government a plan and estimate amounting to $2 916 for adding a Cook room, Pantry & Bedroom over kitchen to Residence in Deseronto yard.

2 Enclosing a letter from Mr Brunfoot, copy of which is annexed, I have checked the figures and found the measurements to be as they are, most of them known, there is no cellar and no verandah capable of being used as one. The only door one reached on the first storey will probably require a large share of the repairs

3 I propose to connect the existing Cook room with a passage and to add a small Cook room beyond it as shown on the plan a Chamber capable of easily accommodating the Minister of the Crown.

4 Although work is not absolutely necessary
